

The background of the entire cover is a detailed, dark-toned illustration of a classical organ facade. It features a series of tall, fluted columns supporting an entablature. The facade is adorned with numerous statues, including figures on pedestals and a large central group. A prominent circular clock face is visible in the lower center of the facade. Seventynine Chorales For The Organ Opus 28:

Seventy-Nine Chorales for the Organ, Op. 28 Marcel Dupré, 1999-12-20 Marcel Dupre prepared these short works not as another version of the famous chorales and chorale preludes of J S Bach but rather as a means of making the beginning organist aware of the beautiful chorale melodies and to prepare him or her for the study of Bach s works Included are registration suggestions fingering pedaling notation and dynamics This is an important book for the development of the organist s technical and artistic skills and at the same time for the presentation of beautiful organ chorales *Seventy-Nine Chorales for the Organ, Op. 28* ,1985-03 This book contains 79 easy Chorales for organ written on the melodies of the 79 old Chorales which Bach used in his Chorale Preludes It is needless to say the scheme has not been to give another version of the Bach Chorales The object of the present book is merely educational It has been conceived with a view to making the student familiar with the magnificent melodies of the Chorales in the earlier stages of his work and to prepare him the better for the study of the Chorales which are too difficult for beginners
