The Long Road to Paris Ed and Janet Howle,2011-01-06 It was our intent to write a travelogue of an around the world car race the first of its kind in more than one hundred years We began by interviewing JC Wilkerson CEO of World Rallies Inc and Kyle Vanderhorn the official race reporter Then Thurman Alston one of the racers approached us with an outrageous list of accusations presenting a very different story from the sanitized official version Thurman wanted to make these allegations public The accusations were primarily aimed at Ed Talbot the driver of car 23 a controversial alternative energy automobile which it appears has now been destroyed The allegations were as follows First that Ed leaked information to the CIA about the radical nature of the car s technology leading to the intervention of the U S and Russian governments and indirectly to the murders in Siberia Second that Ed s irresponsible actions during the race were the reasons that the environmentallyfriendly technology in his entry has not been made available to the world and that he is to blame for some of the climatic change that will take place in the future Third that Ed was lying about the innovation in the car It was actually nothing new and was in fact fully developed in Nazi Germany during World War II and then held off the market by oil interests Finally that his secret liaison with his navigator showed a reckless disregard for his wife and young daughter and affected his judgment While these accusations appeared to be absurd we knew we had to sort out Thurman s wild claims before we could write an objective report of the around the world race We discovered that there was some truth among these charges a story hidden within a story We became intrigued with our findings It turned out that the race was a minor part of the challenges Ed faced Our research had turned up a convoluted love story that alone would have made it difficult for Ed to have followed a different course of action You can decide for yourself whether a less disastrous outcome would have been possible if he had made different decisions Ed and Janet Howle www.thelongroadtoParis.com Whispers from the Heart Patrecia Fox,2014-09-25 Whispers from the Heart is a true account of surviving the death of a loved one and soul mate This book helps readers through the myriad of emotions that come with reconciling grief and great loss Hopefully readers will grow to learn that they can live around the hole in their hearts **Money Minded Families** Stephanie W. remarkable growth in the past decade nowhere more so than in Atlantic Canada. Given its early settlement and some of the liberties taken with legal procedure there as well as some creative interpretations of English law, the region is ripe for close study in the legal history field. This new collection examines that history on two islands: Newfoundland and Prince Edward Island. The essays examine legal themes, developments, and disputes and offer a framework for comparing ways of administering justice through the courts in the eighteenth and nineteenth centuries. The cases examined are particularly interesting for the light they throw on legal process and especially on the motives of the parties. Unlike in contemporary England and Upper Canada, the English precedents gave way to local needs as equitable regimes emerged that put family and community interests first and treated all members of the family in ways tailored to their personal needs and circumstances. This volume, which includes a number of essays examining women's legal status and access to the courts, is a comprehensive and fascinating examination of legal history in two Canadian provinces.
