Long Live The Lobbys:

Will the Vampire People Please Leave the Lobby? Allyson Beatrice, 2007 Allyson Beatrice lives a not quite ordinary life Her job and almost everyone she knows are the result of spending too much time on the Internet talking about vampires slayers and lesbian witches And her encounters are even more unusual than you d imagine A hilarious collection of true stories from Allyson s days as one of the Internet s leading cult TV fan gurus her mind boggling escapades include meetings with network executives in dark steakhouses to try to save doomed TV shows and one hastily arranged wedding for two committed Buffy fans Honest emotional and side splittingly snarky Allyson Beatrice brings a fresh voice to these wild but true stories Will the Vampire People Please Leave the Lobby welcomes you to a fun and sometimes bizarre world where stupidity frustrates wit triumphs and connections are made in most unlikely ways a world in fact not too different from our own

United States. Congress. Senate. Committee on the Judiciary, 1930 **Maintenance of a Lobby to Influence Legislation** United States. Congress. Senate. Committee on the Judiciary. Subcommittee on S. Res. 92, 1913 The One Percent Solution Gordon Lafer, 2017-04-04 In the aftermath of the 2010 Citizens United decision it s become commonplace to note the growing political dominance of a small segment of the economic elite But what exactly are those members of the elite doing with their newfound influence The One Percent Solution provides an answer to this question for the first time Gordon Lafer s book is a comprehensive account of legislation promoted by the nation s biggest corporate lobbies across all fifty state legislatures and encompassing a wide range of labor and economic policies In an era of growing economic insecurity it turns out that one of the main reasons life is becoming harder for American workers is a relentless and concerted offensive by the country s best funded and most powerful political forces corporate lobbies empowered by the Supreme Court to influence legislative outcomes with an endless supply of cash These actors have successfully championed hundreds of new laws that lower wages eliminate paid sick leave undo the right to sue over job discrimination and cut essential public services Lafer shows how corporate strategies have been shaped by twenty first century conditions including globalization economic decline and the populism reflected in both the Trump and Sanders campaigns of 2016 Perhaps most important Lafer shows that the corporate legislative agenda has come to endanger the scope of democracy itself For anyone who wants to know what to

expect from corporate backed Republican leadership in Washington D C there is no better guide than this record of what the same set of actors has been doing in the state legislatures under its control **Words Misspelled** Ruth G. Mediocrity-Waging War Against Science Richard Zurawski,2011-03-01T00:00:00Z We have all at some point seen science in action on television Whether it was a show about disasters or weather nature or the universe a science commentator even a crime show depicting forensic evidence we have all gleaned tidbits of scientific information while being entertained by our televisions Or have we From science channels and documentaries to fictional and children s programming television brings a myriad of scientific discoveries and theories into the homes of people around the world But how accurately do these programs represent science In *Media Mediocrity* television producer and broadcaster Richard Zurawski argues that the science we learn on television is inaccurate misleading and sometimes even dangerous Dealing with issues such as tobacco consumption global warming and Intelligent Design and a host of pseudoscientific pursuits like UFOs ghosts and the afterlife *Media Mediocrity* examines how television producers pursuit of ratings and profit trump any desire to provide the audience with an accurate knowledge of science and argues that there are real consequences for this lack of knowledge Four out of five viewers gather the bulk of their scientific knowledge from television making television an important intermediary between society and its understanding of science If television gives us misleading or blatantly false scientific information how can we hope to make informed decisions about scientific issues Equally importantly who is it that is feeding us this false science And what do they gain from doing so If you think your TV has made you an expert then read this book and think again *Congressional Record* United States. Tocqueville,2017-09-29 Tocqueville was not only an active participant in the French Revolution of 1848 he was also a deeply perceptive observer with a detached attitude of mind He saw the pitfalls of the course his country was taking more clearly than any of his contemporaries including Karl Marx Recollections was first written for self clarification It is both an exciting candid behind the scenes account of what actually happened during those tumultuous months and a remarkably shrewd analysis that has become an accurate forecast of future societies wrestling with the dilemma of synthesizing equality and freedom Thus the book has a relevance that extends beyond France to our own country and others a relevance that is explored in J P Mayer s new introduction Out of print in English for several years Recollections is presented here in a translation based on the definitive French edition of 1964 It captures the wit and subtlety of mind that have made this book one of the most popular of all Tocqueville s works Tocqueville s own comments which he wrote into the manuscript including his variants are given and the editors have added explanatory notes *Favorite Illustrated Dictionary* ,1887
