A Theoretical Approach to Modern American History and Literature W. Lawrence Hogue, 2020-01-10 This book reconfigures the history of modern America showing how multiple and at times vulnerable social economic literary and political movements levels divisions and conditions such as the emergent middle class the labor movement the Progressive Movement the socialist and communist parties the Women s movements the NAACP the Garvey movement Asian and Native American resistance movements writers artists and intellectuals seized upon social gender economic and racial inequalities and challenged a singularly defined modern America This book re represents the modern American novel accenting the different critical literary voices that come out of the mainstream consumer society but also out of the various unequal social economic gender and political movements and situations In including racial gender sexual colonial class and ethnic others who reject the rigidity the repression the racial and ethnic stereotyping the external and internal colonialism the complication rejection of the past nature and the violence of the institutionalized conformist norm in a discussion of the modern American novel it effects a fundamental recasting of the modern Americanist paradigm one that is de centered richer more complex and more diverse

The Role of Creative Ignorance: Portraits of Path Finders and Path Creators P. Formica, 2014-12-21 Traditionally company experts and outside collaborators innovate by developing the knowledge map Success or failure of incremental innovation hinges on this path The Role of Creative Ignorance suggests the knowledge map should be abandoned and replaced with a new methodology that of creative ignorance With over 30 years of experience in international economics and entrepreneurship Piero Formica explores the concept of creative ignorance in combination with path creation and its disruptive effect on entrepreneurship Using narrative examples of innovators and companies worldwide he introduces the characteristics of successful path creators that overstep the boundaries set by knowledge maps to open up new unprecedented routes and connect them each other In doing so path creators reveal latent unexpressed needs of consumers and drive innovation forward
