Disillusionment or New Opportunities? R. Guerriero Wilson, 2018-12-17 First published in 1998 this book explores the physical and technological changes which occurred in the growing bureaucracies of big business and of government as well as in the small and mid size business of the city The study of these changes provides a context within which to set the complementary experiences of the men and women who chose to seek a living in the wide array of constantly changing office jobs *Labour in Crisis* Neil Riddell, 1999 James VI of Scotland and I of England participated in the burgeoning literary culture of the Renaissance not only as a monarch and patron but as an author in his own right publishing extensively in a number of different genres over four decades As the first monograph devoted to James as an author this book offers a fresh perspective on his reigns in Scotland and England and also on the inter relationship of authorship and authority literature and politics in the Renaissance Beginning with the poetry he wrote in Scotland in the 1580s it moves through a wide range of his writings in other genres including scriptural exegeses political social and theological treatises and printed speeches concluding with his manuscript poetry of the early 1620s The book combines extensive primary research into the preparation material form and circulation of these varied writings with theoretically informed consideration of the relationship between authors texts and readers The discussion thus explores James s responses to and interventions in a range of literary political and religious debates and reveals the development of his aims and concerns as an author Rickard argues that despite the King s best efforts to the contrary his writings expose the tensions and contradictions between authorship and authority This book will be of interest to scholars and students of the reign of James VI and I the literary and political cultures of late sixteenth century Scotland and early seventeenth century England the development of notions of authorship and the relationship between literature and politics **Conservative Suffragists** Mitzi Auchterlonie, 2007-10-24 As the suffragette movement was becoming increasingly militant what was the Conservative reaction to successive parliamentary bills on women s suffrage and what was the level of support for votes for women within the Tory party After the 1867 Reform Bill

Conservatives were hesitant about supporting further measures to widen the franchise Although a few party members supported John Stuart Mill's proposal for women's suffrage and some notable individual Conservative women were part of the early organised campaigns for female enfranchisement the period before the 1880s saw little interest in this issue among the party faithful It was only when the grassroots Primrose League was created in 1883 that the suffrage question was taken up by a number of its women members One of the most significant gaps in our knowledge of the British women's suffrage movement is how the Conservative Party dealt with this controversial issue In this important reassessment of Conservative women's suffrage Mitzi Auchterlonie looks at the political activities of Conservative women between 1867 and 1914 As the campaigning by the women's suffrage societies intensified and became more militant Conservative suffragists responded by founding the Conservative and Unionist Women's Franchise Association CUWFA in 1908 This became the third largest women's suffrage party of the pre World War One period Auchterlonie looks at the activities of this organisation and its publication The Conservative and Unionist Women's Franchise Review in depth enabling readers to understand the social political economic and imperial issues which most concerned Conservative suffragists She charts their campaigning activities at local and national level using primary sources including memoirs of prominent Conservative supporters of women's suffrage She discusses the relationship between the CUWFA and politicians of all parties as well as their links with other suffrage organisations Auchterlonie concludes that Conservative women dismissed by some as marginal to suffrage history played a significant part in the suffrage campaigns while the party itself contained an unexpectedly diverse range of views towards the idea of votes for women

The First Black Footballer Phil Vasili, 2012-11-12 Arthur Wharton was the world's first black professional footballer and the first African to play professional cricket in Yorkshire and Lancashire leagues Those promoting Empire as an expression of white supremacy found him a supreme irritation and he eventually died in poverty

The Longman Companion to Britain in the Era of the Two World Wars 1914-45 Andrew Thorpe, 2014-09-19 In the momentous period barely 30 years covered by this systematic reference guide the Edwardian world was transformed unrecognisably through war technological progress and social change into the Nuclear Age It saw the coming of mass democracy the apogee of empire the Depression the threat of fascism the development of suburban society and as yet scarcely understood the end of Britain's international hegemony Andrew Thorpe's superb contribution to the Companions series illuminates all this and much else It will be indispensable to anyone interested in the history and politics of modern Britain
