Look At Physical Handicaps:

Sociology Looking at Disability Sara E. Green, Sharon N. Barnartt, 2016-12-22 The purpose of this volume is to explore existing literature with an eye towards encouraging scholars not to ask the same old questions but to use older writings as a basis for revolutionary and evolutionary thinking What do the older writings tell us about what questions we should be asking and what research we should be doing today Assistance and Rehabilitation of the Physical Handicapped ... United States. Congress. House. Committee on Education and Labor, 1953 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1978 Shakespearean Drama, Disability, and the Filmic Stare Grace McCarthy, 2021-07-27 Shakespearean Drama Disability and the Filmic Stare synthesizes Laura Mulvey's male gaze and Rosemarie Garland Thomson's stare into a new critical lens the filmic stare in order to understand and analyze the visual construction of disability in adaptations of Shakespearean drama The book explores the intersections of adaptation studies film studies Shakespeare studies and disability studies to analyze twentieth and twenty first century representations of both physical disability and madness in global cinematic film television film and digital broadcast cinema in Shakespeare's works Shakespearean Drama Disability and the Filmic Stare argues that the filmic stare does not differentiate between male and female characters with disabilities or between powerful and powerless figures in disability representation This multi disciplinary volume is ideal for disability studies scholars Shakespeare scholars and those interested in adaptations of Shakespeare's famous works **Looking at Inclusion** Ruth MacConville, 2007-04-16 This book is timely The author draws on the work of several specialist teachers and sees a strong pupil voice as key to successful inclusion Special This is an excellent addition to the small but growing literature on pupil views The book focuses on five areas of need autistic spectrum disorder visual impairment specific learning difficulties hearing impairment and physical disabilities and examines the challenges of inclusion from the perspective of children and young people themselves Their views come across powerfully and perhaps most importantly they offer clear and practical advice about how teachers and other staff can make schooling a less intimidating and excluding experience This book is likely to be of particular interest to SENCOs and other colleagues who have interest in and responsibility for developing pupil participation It should also be required reading for trainee teachers and learning support staff SENCO Update This book is unique and readable It has a great deal to offer all settings who are reflecting on the effectiveness of their pupil voice systems Special Needs Information Press Developed from the work of specialist teachers in Ealing who have been involved in promoting inclusive practices this book shows how eliciting the pupil's views and strengthening the pupil voice is an important element in the success of any inclusion project Covering a wide range of disabilities including Autistic Spectrum Disorders and Specific Learning Difficulties it includes o Case studies o Descriptions of the difficulties encountered by the young o Practical strategies to address these difficulties o Useful resources Essential for any adult working in an inclusive setting this fascinating book brings together theory with real

Global Stigmas and Attitudes Towards Persons With Disabilities Phasha, Nareadi Tlakale, 2025-09-25 Inclusion requires changed mindsets and actions towards every member of society particularly towards the historically marginalized and people with disabilities Their inclusion has been a major problem due to numerous factors such as conceptions about disability and what it constitutes as they often come with stigma and stereotypes Current sources often present disability conceptions in general terms as if they apply to all categories of disabilities making it difficult to extract correct information about each disability Disability is not a homogenous category Conceptions about each category may differ among cultures and communities Uncovering conceptions about each category is a crucial step towards creating positive living and safe educational environment for people with disabilities Global Stigmas and Attitudes Towards Persons With Disabilities discusses conceptions about different disabilities children or family members with a disability and organizations for people with disabilities It demonstrates how negative conceptions influence service provision in various sectors and perpetuates their exclusion in education and society Covering topics such as stereotypes support services and promoting dignity this book is an excellent resource for sociologists caregivers educators policymakers advocates business owners researchers academicians and more

[The Female Body in the Looking-Glass](#) Basia Sliwinska, 2016-06-29 In his theory of the mirror stage the psychoanalyst and psychiatrist Jacques Lacan argued that the female body is defined by its lack of male attributes Within this framework he described female sexuality primarily as an absence and assumed female subordination to the male gaze However what happens if one follows Jean Baudrillard s advice to swallow the mirror and go through the looking glass to explore the reflections and realities that we encounter in the cultural mirror which reflects the culture in question its norms ideals and values What if the beautiful is inverted and becomes ugly and the ugly is considered beautiful or shape shifts into something conventionally thought of as beautiful These are the fundamental questions that Basia Sliwinska poses in this important new enquiry into gender identity and the politics of vision in contemporary women s art Through an innovative discussion of the mirror as a metaphor Sliwinska reveals how the post 1989 practices of woman artists from both sides of the former Iron Curtain such as Joanna Rajkowska Marina Abramovic Boryana Rossa Natalia LL and Anetta Mona Chisa and Lucia Tkacova go beyond gender binaries and instead embrace otherness and difference by playing with visual tropes of femininity Their provocative works offer alternative representations of the female body to those seen in the cultural mirror Their art challenges and deconstructs patriarchal representations of the social and cultural other associated with visual tropes of femininity such as Alice in Wonderland Venus

and Medusa The Female Body in the Looking Glass makes a refreshing radical intervention into art theory and cultural studies by offering new theoretical concepts such as the mirror and genderland inspired by Alice's adventures in Wonderland as critical tools with which we can analyse and explain recent developments in women's art

As workers in the field of rehabilitation we are realizing more and more that we do not rehabilitate people Rather we must be able to reach the heart and mind of the individual with whom we are dealing so he will want to avail himself of the services our program can provide for him His drive to accomplish his own rehabilitation must come from within himself and we must be sensitive too in the factors that can help or hinder establishing this indispensable primary base for rehabilitation Increasingly we are learning that human motivation is influenced by many things Especially important are the psychological and social factors of an individual's life These factors are important to consider early in our planning for the whole program of rehabilitation for the individual and in the evaluation of each step of its development This bulletin was written primarily for vocational rehabilitation counselors It is expected that it will assist them in planning better rehabilitation programs The need for awareness of the psychological adjustment mechanisms of the physically disabled is not confined to the counselor however and it is hoped that physicians social workers psychologists and placement specialists may profit from the contents of this publication The cooperation and coordination of the various specialties is the most important element today in providing rehabilitation services for the disabled whereby they may take their rightful place as contributing members of society The interest and cooperation of the authors and the organizations many of them represent is a practical demonstration of the vital nature of the material presented herein We are aware of the fact that successful rehabilitation programs depend on integrated community activity and in a sense this bulletin epitomizes that approach Foreword
