Looking at Modern Painting Leonard Freedman, 1961      **Looking at Modern Painting** Leonard Freedman, Gibson A.. Danes, Theresa Zezos Fulton, Carl D.. Sheppard, Frederick Stallknecht Wight, 1961      *Looking at Modern Painting* Leonard Freedman, 2003-01      The Art of Looking Lance Esplund, 2018-11-27 A veteran art critic helps us make sense of modern and contemporary art The landscape of contemporary art has changed dramatically during the last hundred years from Malevich's 1915 painting of a single black square and Duchamp's 1917 signed porcelain urinal to Jackson Pollock's midcentury drip paintings Chris Burden's Shoot 1971 in which the artist was voluntarily shot in the arm with a rifle Urs Fischer's You 2007 a giant hole dug in the floor of a New York gallery and the conceptual and performance art of today's Ai Weiwei and Marina Abramovic The shifts have left the art viewing public understandably perplexed In The Art of Looking renowned art critic Lance Esplund demonstrates that works of modern and contemporary art are not as indecipherable as they might seem With patience insight and wit Esplund guides us through the last century of art and empowers us to approach and appreciate it with new eyes Eager to democratize genres that can feel inaccessible Esplund encourages viewers to trust their own taste guts and common sense The Art of Looking will open the eyes of viewers who think that recent art is obtuse nonsensical and irrelevant as well as the eyes of those who believe that the art of the past has nothing to say to our present      **Looking at Art Philosophically** Tom Supensky, 2012-08-31 The purpose of this book is to present to the reader a series of philosophical ideas that assist in understanding one's position in the world of art and some thinking on art and creativity intended to awaken the aesthetic aspects of making art There is no intention to review historical philosophical concepts nor is there any specific inclusion of contemporary theories on art philosophy What is included are those philosophies important to the developing artist that are more commonplace in nature often neglected in art education yet vitally necessary to the true artist Finally this book is intended to stimulate the reader into asking such questions as who am I why art and what is art It is hopeful that the reader finds an aesthetic foundation a personal and honest place in the world of art      *The Art of Looking at Art* Gene Wisniewski, 2020-10-04 A readable guide to the art of looking at art There's an art to viewing art A sizable portion of the population regards art with varying degrees of reverence bewilderment suspicion contempt and intimidation Most people aren't sure what to do when standing before a work of art besides gaze at it for what they hope is an acceptable amount of time and even those who visit galleries and museums regularly aren't always as well versed as they wish they could be This book will help remedy that situation and answer many of the most frequently asked questions pertaining to the matter of art in general When was the first art made Who decides which art is for the ages What is art's purpose How do paintings get to be worth tens of millions of dollars Where do artists get their ideas And perhaps the most pressing question of all have human cadavers ever been used as art materials Yup The Art of Looking at Art addresses these and countless more of the issues surrounding this frequently misunderstood microcosm in a highly informative yet conversational tone History

Moak, 2016-09-06 This guide contains a new approach to looking at and appreciating art One not found elsewhere It makes you aware of abilities you already have to see things in various ways The key to these abilities is what I call the visual ego the place between your eyes from which you see the world The guide then describes a series of particular ways of seeing and making works of art Finally it applies these ways which I call perspectives to works of art painting sculpture architecture and the decorative arts covering a period of some seventy thousand years The results I find to be amazing including new understandings and appreciation of many works of art and artists and their place in the history of art

**Looking at the Landscapes** The J. Paul Getty Museum, 2007-12-31 In this daylong symposium a group of international experts and scholars of nineteenth century art gathered to discuss Courbet's landscape oeuvre and debate his contribution to the history of modern painting in conjunction with the exhibition Courbet and the Modern Landscape The preface by Mary Morton and five papers presented here comprise the J Paul Getty Museum's first online only publication

*American Artists On Art* Ellen Johnson, 2018-02-20 From the Preface The fact that so much of modern art has devoted itself to the exploration and assertion of its own identity is reflected in but does not explain the increasing amount of writing and talking on the part of contemporary artists Rather the whole history of the changing role of art and artists in a democratic industrial and technological society stands behind the spate of artists' words and the public's hunger for them even some of the general public out there beyond art's little circle Statements by artists appeal somewhat the way drawings do they bring us or at least they hold the promise of bringing us closer to the artist's thoughts and feelings and to an understanding of his or her modus operandi they hold the keys to a mysterious realm And sometimes they offer us the sheer pleasure of good reading Such is the primary *raison d'être* of this book Its other motivation is educational and stems from the frustrating lack in teaching contemporary art of any single compilation of statements by American artists from 1940 to the present This anthology differs in several respects from those others that do include documents of American art since 1940 The selection I have made is devoted exclusively to statements of artists it is limited to the last four decades it presents in a single volume a representative and fairly comprehensive coverage of major developments in American art beginning with Abstract Expressionism and whenever possible it cites the first or among the very earliest documents signaling a shift in the definition intent or direction of art

**Orienting Istanbul** Deniz Göktürk, Levent Soysal, Ipek Tureli, 2010-07-02 Looking at the globalization urban regeneration arts events and cultural spectacles this book considers a city not until now included in the global city debate Divided into five parts each preceded by an editorial introduction this book is an interdisciplinary study of an iconic city a city facing conflicting social political and cultural pressures in its search
