Looking At Buses:

Bus services after the Spending Review Great Britain: Parliament: House of Commons: Transport Committee,2011-08-11 The Transport Committee reports that extensive cuts to rural evening and weekend bus services are damaging the ability of many people especially the old young or disabled to participate in employment education or voluntary work and to access vital services such as healthcare and retail facilities In a review of England s bus services outside London after the Spending Review the Committee warns that even deeper cuts in bus services are likely in 2012 13 as local authorities struggle to deal with budgetary reductions and calls for the concessionary travel scheme to be preserved so that the elderly and disabled continue to enjoy free bus travel The Committee also concludes that the concessionary fares scheme was discriminatory because it did not apply to most community transport providers usually independent charities that provide transport such as dial a ride bus services It calls on the Department for Transport to monitor the extent of service cutbacks made this year and to review service provision again after BSOG Bus Service Operator Grant grant cuts take effect in 2012 13 so that it can analyse and draw conclusions about the wider costs and benefits of its policy changes to the country as a whole The Local Government Association should identify and disseminate information about good and bad practice in the delivery of cost effective flexible services including community transport and or area based transport integration And local authorities and commercial operators must consult more widely where services are being changed

Looking at Buses Clifford Lines,1984-01-01 A Closer Look ,1983 *The performance of the Department for Transport* Great Britain: Parliament: House of Commons: Transport Committee,2010-03-04 In this report the Transport Committee calls on the Government to implement the vision for transport including improved traffic flows on motorways rail electrification and high speed rail reducing greenhouse gas emissions from transport that has been established under the current Secretary of State Lord Adonis The Department has made progress in a number of important areas both recently and over the past decade and has also established a new sense of direction despite a too frequent change of ministers The Committee reviews progress against the Government s integrated transport plan Transport 2010 which was adopted in 2000 Whilst much has been achieved the ambition to build up to 25 light rail lines has not It calls on the Government to publish a comprehensive progress report against the targets that it set itself It also calls for strong action on local bus services which outside London are still not integrated with other local transport services Bus use outside London continues to decline apart from a slight increase after the introduction of free bus travel for older and disabled people The Committee calls for full implementation of the Local Transport Act which gives local authorities powers to introduce bus quality partnerships and quality contracts and for the Traffic Commissioners to be given adequate resources to carry out punctuality monitoring
