**Theology and Music at the Early University** Nancy van Deusen,1994-10-01 At the climax of one of his most important and comprehensive works *De cessatione legalium* the thirteenth century theologian and natural philosopher Robert Grosseteste uses a musical example to make a point fundamental to the treatise Music using time as its material located between the abstract and the concrete served as an analogy thus making a difficult philosophical concept perceptible In using music as an analogy Grosseteste drew upon a long tradition established by Augustine confirmed within the new Aristotelian reception and a newly translated Platonic dialogue But the first rector of the University of Oxford was also demonstrating music s place within the curriculum of the early university namely as a ministry discipline efficiently and efficaciously exemplifying traditional Augustinian as well as new Aristotelian principles This book unites the most important theological philosophical subjects discussed by Robert Grosseteste throughout his prodigious output with those exemplified by an anonymous contemporary English writer on music The work shows how music collaborated with the other liberal arts operating within the early university curriculum as a ministry discipline Music made accessible through the figurae of its notation and through sound otherwise nearly unapproachable new Aristotelian concepts The influence was reciprocal in that new Aristotelian tools and conceptualization greatly influenced music notation and style Music theory has been studied in isolation as pertaining only to music This study is the first to relate music of the early thirteenth century to its intellectual context overturning dogma uncritically accepted since the beginning of this century concerning so called modal rhythm and showing how contrary motion rather than forming a musical convention demonstrated a key Aristotelian concept
