**No Show of Remorse** David J. Walker, 2016-02-09  
Chicago private eye Mal Foley was a lawyer once. Then he disobeyed a court order requiring him to reveal a client's role in a shootout that left three people dead: one of them a cop, and his law license was revoked. Now years removed from that fateful day, Mal is filing a petition to get his license reinstated. It quickly becomes a problem, however, as Mal is expected to express remorse for his misconduct in order to satisfy the court, something he steadfastly refuses to do. In fact, he would withdraw the petition if people would only stop trying to frighten him into doing just that. Anonymous notes turn into death threats, then into savage beatings, and finally into murder. It seems no one wants Mal's petition to lead to a hearing where testimony might reveal what really led to the shooting so many years ago. The person with the most to lose should the truth come out seems to be Jimmy Coletta, a second cop shot that night. Coletta survived but has spent his life since in a wheelchair. Whatever part he played in the shootout, he seems a good man now, spending his life helping minority kids who have disabilities. Mal doesn't want to bring Jimmy down, but soon an innocent man's life depends on Mal pressing ahead with his petition, no matter who gets destroyed in the process. Set in Chicago, *No Show of Remorse* is a startling novel about crime, corruption, and their devastating consequences.

**Sustainable Development Research at Universities in the United Kingdom** Walter Leal Filho, 2016-12-28  
This book gathers inputs from a variety of researchers in the field of sustainable development in the widest sense across the UK, from business and economics to arts and fashion, administration, environment, and media studies. The book also describes research, curriculum innovation, and campus greening in a comprehensive way. Many universities in the United Kingdom are currently engaged in high-quality research on matters related to sustainable development. Yet there are relatively few publications that provide a multidisciplinary overview of these efforts and projects and in which researchers from across the spectrum of the natural and social sciences have the opportunity to present their research methods, the results of their empirical research, or exchange ideas about on-going and future research initiatives focusing on sustainable development. Addressing this important gap in the literature, this book contributes to the further development of this rapidly growing field in the United Kingdom and beyond.

**A Cinema of Loneliness** Robert Phillip Kolker, 2000
