Economic Analysis, Moral Philosophy and Public Policy Daniel M. Hausman, Michael S. McPherson, 2006-03-20 This 2006 book shows through accessible argument and numerous examples how understanding moral philosophy can improve economic analysis how moral philosophy can benefit from economists analytical tools and how economic analysis and moral philosophy together can inform public policy Part I explores rationality and its connections to morality It argues that in defending their model of rationality mainstream economists implicitly espouse contestable moral principles Part II concerns welfare utilitarianism and standard welfare economics while Part III considers important moral notions that are left out of standard welfare economics such as freedom rights equality and justice Part III also emphasizes the variety of moral considerations that are relevant to evaluating policies Part IV then introduces technical work in social choice theory and game theory that is guided by ethical concepts and relevant to moral theorizing Chapters include recommended readings and the book includes a glossary of relevant terms

Education and Postponement of Maternity Siv Gustafsson, Adriaan Kalwij, 2006-09-12 One of the most important demographic issues of our time is the increasing age of women at motherhood This happens in the northern social democratic states Sweden and Norway in the catholic countries Italy Spain and Ireland in the West European countries Netherlands and Germany in the former socialist transition countries Czech Republic and East Germany and in the liberal democracy of the United States The postponement of maternity and the related issue of declining fertility rates are of major

interest to policy makers and have provoked much scientific research This book examines various economic aspects of the role of women s education in the postponement of maternity in these ten industrialized countries The chapters in this book each empirically investigate one of these countries using individual or household survey data and are in particular interested in the increasing age at motherhood with the investment in education of the mother In search of socio economic explanations for this relationship each chapter investigates a specific related research question This results in a book that covers a wide range of topics on the economics of fertility decisions such as career planning motives of women consumption smoothing motives of households and the role of institutions **Higher Education, Public Good and Markets** Jandhyala B. G.

Tilak,2017-10-16 This book critically examines some of the major trends in the development of higher education It demonstrates how in the context of liberalisation globalisation and marketisation the crisis in higher education has assumed different dimensions in all advanced and emerging societies The author shows how the state tends to slowly withdraw from the responsibility of higher education including in the arena of policy making or simply adopts a policy of laissez faire of non involvement which helps in the rapid unbridled growth of private sector in higher education The notion of higher education as a public good is under serious contestation in current times The book argues for the need to resurrect the compelling nature of higher education along with its several implications for public policy and planning while providing a broad portrayal of global developments comparative perspectives and key lessons The volume will be of interest to scholars and researchers of education political science public policy and administration governance development studies economics and those working in the higher education sectors think tanks policymakers as well as NGOs *An Economic Analysis of the*

Market, Ethics and Religion Niels Kærgård, 2023-01-18 This book deals with the basic question of what money can and cannot buy and offers an analysis of the limitations of the market mechanism Few concepts are as controversial as religion and the market mechanism Some consider religion to be in conflict with a modern rational scientific view of life and thus as a contributory cause of harsh conflicts and a barrier to human happiness Others consider religious beliefs as the foundation for ethics and decent behaviour Similar a number of neoliberal writers acclaimed the market mechanism as one of the greatest triumphs of the human mind and saw it as the main reason why rich countries became rich Others are extremely skeptical and stress how this mechanism has result in big multinational firms with powerfully rich owners and masses of poor low paid workers Researchers from various fields economists social scientists theologians and philosophers handle these questions very differently applying different methods and different ideals This book offers a synthesis of the different viewpoints It deals with economists theologians and philosophers differing thoughts about the market and its limitations
