Broken Voices Roald Maliangkay, 2018-03-31 *Broken Voices* is the first English language

book on Korea's rich folksong heritage and the first major study of the effects of Japanese colonialism on the intangible heritage of its former colony. Folksongs and other music traditions continue to be prominent in South Korea which today is better known for its technological prowess and the Korean Wave of popular entertainment. In 2009 many Koreans reacted with dismay when China officially recognized the folksong Arirang commonly regarded as the national folksong in North and South Korea as part of its national intangible cultural heritage. They were vindicated when versions from both sides of the DMZ were included in UNESCO's Representative List of the Intangible Cultural Heritage of Humanity a few years later. At least on a national level folksongs thus carry significant political importance. But what are these Korean folksongs about and who has passed them on over the years and how? *Broken Voices* describes how the major repertoires were transmitted and performed in and around Seoul. It sheds light on the training and performance of professional entertainment groups and singers including kisaeng the entertainment girls often described as Korean geisha. Personal stories of noted singers describe how the colonial period the media the Korean War and personal networks have affected work opportunities and the standardization of genres. As the object of resentment and competition and a source of creative inspiration the image of Japan has long affected the way in which Koreans interpret their own culture. Roald Maliangkay describes how an elaborate system of heritage management was first established in modern Korea and for what purposes. His analysis uncovers that folksong traditions have changed significantly since their official designation one major change being gender representation and its effect on sound and performance. Ultimately *Broken Voices* raises an important issue of cultural preservation traditions that fail to attract practitioners and audiences are unsustainable so compromises may be unwelcome but imperative.

1984 Donald Moses, 2009 Plaintiffs Plight 1984 c Donald Moses 2009 is a story of four cases handled by attorney Daniel Masters. It focuses on the lives, loves, fears, and frustrations of clients and the tragic incidents that transform their lives. It showcases Masters' experience, skill, and luck, enabling him to uncover truths others had tried to suppress. The success or failure of Daniel Masters is the heart of the story. The foundational scene is Masters' law office located in Rancho Bernardo, a community in the City of San Diego, California. That is where cases are evaluated and masterminded. The story guides the reader through fascinating yet little-known areas of San Diego County. Masters revels in and draws strength from the camaraderie and respect of his employees and business friends. The story includes a family fight and serious injuries resulting from an industrial accident and two traffic collisions. With the aid of his associates, Masters displays his ability to bring about innovative and surprising resolutions. Although each of the tragedies suffered by the clients are separate and independent, the passionate struggle for justice by Masters unites the stories in a compelling drama. Rethinking Media Change David Thorburn, Henry Jenkins, 2004-09-17 The essays in Rethinking Media Change center on a variety of media forms at moments of disruption and cultural transformation. The editors' introduction sketches an aesthetics of media transition patterns of development and social dispersion that operate across eras, media forms, and cultures. The book includes case studies of such earlier media as the phonograph, early cinema, and television. It also examines contemporary digital forms, exploring their promise and strangeness. A final section probes aspects of visual culture in such environments as the evolving museum, movie spectacles, and the virtual window. The contributors reject apocalyptic scenarios of media revolution, demonstrating instead that media transition is always a mix of tradition and innovation, an accretive process in which emerging and established systems interact, shift, and collude with one another. **Poetry from My Heart** Bonnie L. Discovery of Bharat Through Hindustan and British India TRIBHUVAN NATH SINGH, 2021-10-25 The book is a synthesis of the ancient Bharatiya texts with the latest scientific findings for their authenticity, historicity, and relevance to the modern perspective. The ancient Bharatiya texts were burnt by external invaders, and the retrieved texts were misinterpreted as mythological gossips in the English versions. Bharat was said to be in the Dark Age before the entry of the Britishers. The book in 14 chapters clarifies the misgivings and proves the Bharatiya civilization over 20,000 years old on the basis of modern research references and latest archaeological findings.
