varied enormously from the luxury of first class travel to the often brutal conditions endured by immigrants Ship design developed in the race between competing companies to provide the most powerful ships But while technology came into the fundamental design when it came to decor for many of the great liners the interiors looked back with a romanticised view of the past It is not always realised that a great liner might have almost as many crew as passengers and this looks at all those who kept the ships running from the black gang in the engine room to the captain on the bridge The result is a rounded view of what it meant to travel on some of the greatest ships ever built Ocean Liners Daniel Finamore, Ghislaine Wood, 2018
