Passion For Equality:

A Passion for Equality Nick Kotz, Mary Lynn Kotz, 1977-01 A Passion for Equality traces the life of George Wiley one of the most original and controversial leaders of the social movements of the 1960s and early 1970s **The Passion for Equality** Kenneth Cauthen, 1987 From the Revolutionary War through the Civil War to the debates of today the passion for equality has been one of the keystones of American society This study offers an historical survey of the idea of equality in America a philosophical analysis of the concept and a proposal for a more balanced integration of equality in the structure of American society The Passion for Equality is an important book grounded in the traditions of John Rawls and Robert Nozick It is recommended for philosophers ethicists economists political scientists and social theorists of all political persuasions

In the Workshop of History François Furet, 1984-12 Those concerned with the practice of history as a discipline and as an intellectual activity will be intrigued by the view of history that François Furet offers in this collection of essays After twenty five years as a professional historian at the Ecole des Hautes Etudes and in the ranks of the Annales school Furet sets out to reexamine the methodological and intellectual cleavages that exist today among historians Furet views history as a field bounded at each end by two ideal types One end is concerned with the history of periods and with the empiricism of facts rather than received ideas At the other end is problem oriented history which substitutes for the supposed coherence of a period the analytical examination of a question Furet's own work leans toward the second more conceptually oriented kind of historiography The essays in this volume most of them never before published in English illustrate the breadth of his approach Furet's discussion ranges through Tocqueville's conceptual system to present day America from the origins of history in France to the Jewish experience in the late twentieth century Among Furet's recurrent themes is the contention that the historian constructs the object or field of his research rather than receiving it from the past The Fortnightly Review, 1874 *Fortnightly Review*, 1874 The Fortnightly, 1874

Democracy Growing Up Laura Janara, 2012-02-01 Finalist for the 2004 C B Macpherson Prize presented by the Canadian Political Science Association Winner of the Best First Book Award presented by the Foundations of Political Theory section of the American Political Science Association Tocqueville's Democracy in America continues to be widely read but for all this familiarity the vivid imagery with which he conveys his ideas has been overlooked left to act with unexamined force upon readers' imaginations In this first sustained feminist reading of Democracy in America Laura Janara assesses the dramatic feminine masculine and infantile metaphorical figures that represent the historical political drama that is Tocqueville's primary topic These tropes are analyzed as both historical artifacts and symbols for psychoanalytic interpretation deepening and complicating the standing interpretations of Tocqueville's work Democracy Growing Up comments critically upon the peculiar gendered and familial foundations of modern Western democracy and upon the notion of democratic maturity that Tocqueville offers us **The Democratic Horizon** Alessandro Ferrara, 2014-03-24 Alessandro Ferrara explains what he terms the democratic horizon the idea that

democracy is no longer simply one form of government among others but is instead almost universally regarded as the only legitimate form of government the horizon to which most of us look Professor Ferrara reviews the challenges under which democracies must operate focusing on hyperpluralism and impresses a new twist onto the framework of political liberalism He shows that distinguishing real democracies from imitations can be difficult responding to this predicament by enriching readers understanding of the spirit of democracy clearing readers views of pluralism from residues of ethnocentrism and conceiving multiple versions of democratic culture rooted in the diversity of civilizational contexts *Passion for Justice* Harlan Beckley,1992-01-01 This valuable book explores how theology ethics and public policy are related in the thoughts and lives of Walter Rauschenbusch John A Ryan and Reinhold Niebuhr three individuals who have each had a great impact on Christian thinking about justice **The republic of the United States of America, and its political institutions** Alexis de Tocqueville,1890 **The Republic of the United States of America** Alexis de Tocqueville,1877 **Reason and Horror** Morton Schoolman,2004-11-23 Morton Schoolman develops a fascinating and entirely new interpretation of the work of Horkheimer and Adorno Passion for Creation Matthew Fox,2000-01-01 Matthew Fox s comprehensive translation of Meister Eckhart s sermons is a meeting of true prophets across hundreds of years that results in a spirituality for the new millennium A brilliant interpretation of Eckhart s teachings on creation spirituality *Passion for Creation* formerly Breakthrough is Matthew Fox s comprehensive translation of and original commentary on the critical German and Latin texts of 37 sermons by Meister Eckhart the noted 14th century Dominican priest preacher and mystic The goodness of creation the holiness of all things the divine blood in each person the need to let go and let be these are among Eckhart s themes themes that the best selling author Matthew Fox brilliantly interprets and explains for today s reader *Passion for Creation* will be embraced by theologians students and all seekers of truth It will be especially welcomed by those interested in creation spirituality which Eckhart advocated six centuries ago and which Matthew Fox has promoted as a spiritual path for the new millennium Simply put this book is a meeting of two prophets across hundreds of years The outcome of that meeting is a fount of wisdom A Passion for God's Reign Jürgen Moltmann,Nicholas Wolterstorff,1998 This is a print on demand book and is therefore non returnable In the challenging dialogue of this book three of today s most respected Christian thinkers explore the role of theology the task of Christian learning and the meaning of the self in our contemporary Western society Jürgen Moltmann builds a case for the public nature of Christian theology and explores how expressions of faith from both the church and the academy relate to significant aspects of modernity Responses by Nicholas Wolterstorff and Ellen T Charry provide a provocative engagement with Moltmann s views Proceedings Pennsylvania Bankers Association,1919 **Tocqueville between Two Worlds** Sheldon S. Wolin,2009-02-09 Alexis de Tocqueville may be the most influential political thinker in American history He also led an unusually active and ambitious career in French politics In this magisterial book one of America s most important contemporary theorists draws on decades of research and thought to

present the first work that fully connects Tocqueville's political and theoretical lives. In doing so, Sheldon Wolin presents sweeping new interpretations of Tocqueville's major works and of his place in intellectual history. As he traces the origins and impact of Tocqueville's ideas, Wolin also offers a profound commentary on the general trajectory of Western political life over the past two hundred years. Wolin proceeds by examining Tocqueville's key writings in light of his experiences in the troubled world of French politics. He portrays Democracy in America for example as a theory of discovery that emerged from Tocqueville's contrasting experiences of America and of France's constitutional monarchy. He shows us how Tocqueville used Recollections to reexamine his political commitments in light of the revolutions of 1848 and the threat of socialism. He portrays The Old Regime and the French Revolution as a work of theoretical history designed to throw light on the Bonapartist despotism he saw around him. Throughout, Wolin highlights the tensions between Tocqueville's ideas and his activities as a politician, arguing that despite his limited political success, Tocqueville was perhaps the last influential theorist who can be said to have truly cared about political life. In the course of the book, Wolin also shows that Tocqueville struggled with many of the forces that constrain politics today, including the relentless advance of capitalism, of science and technology, and of state bureaucracy. He concludes that Tocqueville's insights and anxieties about the impotence of politics in a postaristocratic era speak directly to the challenges of our own postdemocratic age. A monumental new study of Tocqueville, this is also a rich and provocative work about the past, the present, and the future of democratic life in America and abroad.

The Culture of Cynicism Richard Stivers, 2023-06-22 Richard Stivers received an Earhart Foundation research fellowship to write this wide-ranging and thought-provoking book on American morality. The book places American morality in its historical and cultural context. His research uncovered an ersatz morality that has supplanted traditional Judaic, Christian, and humanistic moralities, which placed some limitations on the exercises of power. It consists of technical and bureaucratic rules, public opinion, and peer group norms, and visual images in the media. Technical and bureaucratic rules are technology's power to organize society. Public opinion and peer group norms work to transform the normal into the moral, and visual images in the media make tangible what is normal and what is possible, both of which follow the lead of technology. This technological morality is exclusively about unleashing power and has no moral purposes; it is solely about efficiency and effectiveness. Finally, he discusses the social and psychological costs of living without a common morality.

Democracy in America Alexis de Tocqueville, 1900

The Politics of Passion Gloria Wekker, 2006 The Politics of Passion centers on an old institution among the Afro-Surinamese working class in which women have multiple sexual relationships with both men and women. These women reject marriage because of the bonds of dependency it fosters, preferring to create their own families of kin, lovers, and children. Gloria Wekker analyzes this phenomenon known as *mati* work, as she vividly describes the lives of Afro-Surinamese women. She gives an account of women's sexuality that is not limited to either heterosexuality or same-sex sexuality. Her work offers new perspectives on black women's sexuality, the lives of Caribbean women, transnational gay and

lesbian movements and an Afro Surinamese tradition that challenges conventional Western notions of marriage gender and sexuality By foregrounding the voices of Afro Surinamese women Wekker illuminates these women s daily lives in light of the changes occurring in Surinamese society She also considers the historical religious psychological economic linguistic cultural and political elements that have shaped their lives The book concludes with stories of women who have migrated to the Netherlands where they have created new vibrant mati communities

Women in Love David Herbert Lawrence, 1922 Two of D H Lawrence s most renowned novels now with new packages and new introductions Widely regarded as D H Lawrence s greatest novel *Women in Love* continues where *The Rainbow* left off with the third generation of the Brangwens Focusing on Ursula Brangwen and her sister Gudrun s relationships the former with a school inspector and the latter with an industrialist and then a sculptor *Women in Love* is a powerful sexually explicit depiction of the destructiveness of human relations
