Perspectives On The Parables:

Matthew's Parables Warren Carter, John Paul Heil, 1998 This book presents a comprehensive treatment of all of the parables in the Gospel of Matthew It discusses the significance of each parable as it is heard within the progression of the narrative Rather than focusing on the intent of Jesus the parable teller or of Matthew their redactor it is concerned with what happens as the authorial audience interacts with the parables

Perspectives on the Parables Mary Ann Tolbert, 1979

Hermeneutics Anthony C. Thiselton, 2009-10-09 Here Anthony Thiselton brings together his encyclopedic knowledge of hermeneutics and his nearly four decades of teaching on the subject to provide an ideal textbook which takes the reader through the time honoured interpretation techniques of the past and on to modern times

Example Stories Jeffrey Tucker, 1997-01-01 This study challenges the popular notion that four parables in the Gospel of Luke the Good Samaritan the Rich Fool the Rich Man and Lazarus and the Pharisee and the Toll Collector are example stories A wealth of scholars views on the example stories are scrutinized with Adolf Jnlicher s pivotal definition receiving special attention The various criteria used to distinguish between parable and example are assessed from both a literary and a rhetorical perspective in order to ascertain what if any formal features are peculiar to the example stories Tucker shows that attempts to differentiate the example stories from other narrative parables attributed to Jesus in the Synoptic Gospels are largely unsuccessful The result is that these four parables in the Gospel of Luke can be seen for what they really are

The Parables Dr. Paul Simpson Duke, 2010-09-01 Many resources have been written to offer assistance in exploring and understanding the lectionary texts for the purpose of preaching However few have sought to provide this kind of preaching commentary on texts that do not follow the lectionary s grouping For those whose preaching does not customarily follow the lectionary and for those who depart from the lectionary text during certain periods of the year little guidance has been offered for how to select and preach on important biblical texts The Parables A Preaching Commentary the third book in The Great Texts series gives guidance to preachers on preaching about this central part of faith The principles by which volumes in The Great Texts series have been chosen are primarily two fold Thematic Texts on certain overarching themes or ideas of the Christian faith are brought together Biblical traditional Texts have long been recognized as belonging together and as being particularly beneficial to the work of preaching

Right Parables, Wrong Perspectives Sam Tsang, 2015-09-15 Jesus parables in Luke weren t only addressing his audience Rather Luke used them to address his audience In so doing the worlds of both Jesus and Luke had many ways to understand these parables This book explores some of those ways based on the way Jesus and Luke told these stories as well as the first century backgrounds The ultimate goal is to help both people who lead Bible studies and preach in the church to grasp firmly Luke s message for us today

The Historical Jesus in Recent Research James D. G. Dunn, Scot McKnight, 2005-01-01 The past two or three decades have witnessed significant activity in research on the Jesus of the Gospels and history In fact there has been such a plethora of publication on such a wide variety of facets of

this issue that it is difficult to keep pace with the rate of publication In this volume Dunn and McKnight have collected and provided introductions to a wide cross section of essays on the topic ranging from classic essays by the likes of Bultmann Cadbury and Schweitzer to the most recent investigations of Horsley Levine and Wright This volume will be a very useful book for courses and seminars on Jesus or the historical Jesus because it draws together in one place a wide variety of perspectives and approaches to the issues Authors represented include P S Alexander D C Allison P W Barnett M J Borg R Bultmann H J Cadbury P M Casey G B Caird B Chilton C E B Cranfield J D G Dunn R A Horsley J Jeremias M K hler W G K mmel E E Lemcio A J Levine G Luedemann J P Meier B F Meyer R Morgan J A T Robinson E P Sanders A Schweitzer K R Snodgrass G N Stanton P Stuhlmacher G Theissen N T Wright Encountering the Parables in Contexts Old and New T. E. Goud,J.R.C. Cousland,John P. Harrison,2022-08-25 The contributors to this book pursue three important lines of inquiry into parable study in order to illustrate how these lessons have been received throughout the millennia The contributors consider not only the historical and material world of the parables composition and focusing on the social political economic and material reality of that world but also seek to connect how the parables may have been seen and heard in ancient contexts with how they have been and continue to be seen and heard Intentionally allowing for a bounded openness of approach and interpretation these essays explore numerous contexts encounters and responses Examining topics ranging from ancient harvest imagery and dependency relations to contemporary experience with the narratives and lessons of the parables this volume seeks to link those very real ancient contexts with our own varied modern contexts **Puzzling the Parables of Jesus** Ruban Zimmermann,2015-11-02 Modern scholarship on the parables has long been preoccupied with asking what Jesus himself said and what he intended to accomplish with his parables Ruben Zimmermann moves beyond that agenda to explore the dynamics of parabolic speech in all its rich complexity Introductory chapters address the history of research and distinguish historical from literary and reader oriented approaches then set out a postmodern hermeneutic that analyzes narrative elements and context maps the sociohistorical background explores stock metaphors and symbols and opens up contemporary horizons of interpretation Subsequent chapters then focus on one parable from early Christian sources Q Mark Matthew Luke John and the Gospel of Thomas to explore how parables function in each literary context Over all reigns the principle that the meaning or theological message of a parable cannot be extracted from the parabolic form thus the parables continue to invite hearers and readers involvement to the present day Perspectives on the parables Mary Ann Tolbert,1979 *The Parables of Jesus* Arland J. Hultgren,2000-06-22 Outlines the parables of Jesus and discusses how each of the parables can be taught and preached **The Promise of Hermeneutics** Roger Lundin,Anthony C. Thiselton,Clarence Walhout,1999 This work presents an engaging interdisciplinary study of the nature and scope of interpretation one of the most important areas of inquiry in today s postmodern world The three authors all acknowledged experts in the field bring the resources of the Bible Christian tradition and intellectual history to bear upon contemporary

hermeneutical disputes Representing a complete revision of *The Responsibility of Hermeneutics* 1985 this substantially expanded volume has been brought up to date with recent work in hermeneutics and sets forth an important new perspective that shifts the interpretive focus from the past to the promise of the future Making use of the best insights from current theories about language interpretation and the nature of the self *The Promise of Hermeneutics* demonstrates how an encounter with contemporary interpretive theory can deepen the church's own hermeneutical practices The authors also show how the Christian faith can help move us beyond the many impasses created by postmodern thought *What Are They Saying About the Parables? Second Edition* Gowler, David B., 2021 Much has changed in the more than two decades since the first edition of this book appeared Parable scholarship continues to be a dynamic area of New Testament research and a number of important studies were published and significant developments have occurred during those years Jesus's parables these simple but profound stories continue to challenge us and even after many readings continue to reveal new insights

Gospel Perspectives, Volume 6 David Wenham, Craig Blomberg, 2003-07-08 *Gospel Perspectives* is the fruit of the Gospels Research Project of Tyndale House Cambridge This six volume collection published between the years of 1981 and 1986 presents top evangelical scholarship on the Gospels Contributors include William Craig Richard Bauckham Murray Harris Peter Davids Robert Stein F F Bruce Leon Morris and D A Carson *An Annotated Guide to Biblical Resources for Ministry* David R. Bauer, 2011-04-01 *An Annotated Guide to Biblical Resources for Ministry* evaluates over 2 000 books that were chosen because of their usefulness for the theological interpretation of the Bible within the context of the faith of the church significance in the history of interpretation and representation of evangelical scholarship This is one of those rare bibliographic guides that every student of religion seminarian and minister will want to have on his or her bookshelf The focus of this guide is on biblical studies It contains entries on 2 200 books written by 1 300 scholars Annotations describe and evaluate books that are highly recommended Virtually every topic in biblical studies is noted commentaries on each book of the Bible biblical histories theologies and ethics books on the canon archaeology early Judaism and interpretive methods and technical books such as grammars concordances Bible dictionaries and atlases The great strength of this guide is not only that it provides the reader with a wealth of information but also that the format it follows is eminently reader friendly The Guide is invaluable for assisting the student seminarian or minister in building a personal library I highly recommend it Jack Dean Kingsbury Professor Emeritus of Biblical Theology Union Theological Seminary in Virginia *Praxis of Retelling Parables and Miracles* Beschi Jeyaraj, 2023-02-09 A bible theological didactic is not principally reduced to learning and teaching Bible alone but rather extended to understanding and interpreting Bible in one's own religious and pedagogical context Bible didactic moreover does not circumscribe itself only to biblical knowledge in virtue of deducing some abstract and moral principles but it rather prospects to strengthen and reconstruct one's identity within the choices offered by culture and context This book aims to engage in an intercultural interpretation of the parables and the miracles of Jesus by dialoging

with the culture of Tamils This comparative study subsequently proposes an alternative synchronic hermeneutic in biblical didactics replacing a deep seated diachronic model in Tamil land It also develops a model of sync curation superseding fossilised model of inculturation This book capitalises Tamils texts and narratives of masses reflected in the archives of Tamil literatures and legends in the process of theologisation Bearing on the aesthetics of parables and miracles and contextual reading of them this study brings forward the world in front of the text leaving behind the conventional exegesis of the world behind the text

A Homiletical Praxeology on the Persuasiveness of Literary Forms Ferdi P. Kruger, 2025-04-29 This book is aimed at academic scholars and preachers who deal with homiletical praxeology weekly Its purpose is to focus on the rhetorical appeal of the Biblical text which is alluded to from the viewpoint of the five preaching blocks according to Matthew s Gospel and the Hebrew sermon The book s uniqueness is encapsulated in the idea that it is a practical theological and homiletical study Consequently the book offers empirical perspectives on literary forms and an inter disciplinary engagement with neighbour sciences before presenting normative perspectives This book posits that faith communities should be exposed to more literary forms to realise that the library of the Gospel and its literature does have a rhetorical appeal that should be preached according to its purpose The unique structure and way the Gospel portrays the Kingdom that has come near as well as the Hebrews sermon offering perspectives on attitude change could enrich a homiletical practice

Reading Luke Zondervan, 2022-03-01 A rich and comprehensive volume essential reading for all those interested in how to read Luke as relevant for today In this sixth volume the Scripture and Hermeneutics Seminar brings its past six years of work on biblical hermeneutics to bear on the gospel according to Luke In his introduction Anthony Thiselton world authority on biblical hermeneutics sets the context for a wideranging exploration of how to read Luke for God s address today Traditional and more contemporary approaches are brought into dialogue with each other as several top Lukan scholars reflect on how best to read Luke as Scripture Topics covered include the purpose of Luke Acts biblical theology and Luke narrative and Luke reception history and Luke the parables in Luke a missional reading of Luke and theological interpretation of Luke Since prayer is a major theme in Luke this volume explores not only the role of prayer in Luke but also the relationship between prayer and exegesis

Parables from the Origin Amyn Dahya, 1999

Taking Away the Pound Elizabeth V. Dowling, 2007-04-26 Against the majority opinion this study argues that the Lukan Parable of the Talents Lk 19 11 28 is a story about the use and abuse of power The parable is also the story of those who suffer adverse consequences when they oppose unjust power structures This suppression of challenge to oppressive structures evidenced in the Parable of the Pounds fits a pattern that operates in other parts of the Lukan Gospel We meet it for example in the arrest and killing of John the Baptist by Herod and in the arrest and crucifixion of Jesus The Parable of the Pounds can be seen as a paradigm for the stories of those characters in the Lukan Gospel who lose their pound when they challenge an oppressive structure where pound becomes a metaphor for what one has that can be potentially taken away by those in a position of power This study

argues that this pattern of taking away the pound is also seen within stories of women characters who resist patriarchal ideals and expectations The Parable of the Pounds is used as a lens through which to view the characterizations of Lukan women New lenses provide new opportunities for perception This study explores what is opened up by this way of viewing the text In particular it explores the ways in which the dynamic of the Parable of the Pounds gives insight into the dynamic operating in the Lukan women s characterizations LNTS
