Poetry Of Flowers A Bouquet Of Romantic Verse And Paper Flowers:

Subject Guide to Books in Print, 1991 Book Traces Andrew M. Stauffer, 2021-02-05 In most college and university libraries materials published before 1800 have been moved into special collections while the post 1923 books remain in general circulation But books published between these dates are vulnerable to deaccessioning as libraries increasingly reconfigure access to public domain texts via digital repositories such as Google Books Even libraries with strong commitments to their print collections are clearing out the duplicates assuming that circulating copies of any given nineteenth century edition are essentially identical to one another When you look closely however you see that they are not Many nineteenth century books were donated by alumni or their families decades ago and many of them bear traces left behind by the people who first owned and used them In *Book Traces* Andrew M Stauffer adopts what he calls guided serendipity as a tactic in pursuit of two goals first to read nineteenth century poetry through the clues and objects earlier readers left in their books and second to defend the value of keeping the physical volumes on the shelves Finding in such books of poetry the inscriptions annotations and insertions made by their original owners and using them as exemplary case studies Stauffer shows how the physical historical book enables a modern reader to encounter poetry through the eyes of someone for whom it was personal Forthcoming Books Rose Army, 1997-04 **The Poetry of Erasmus Darwin** Martin Priestman, 2016-02-24 While historians of science have focused significant attention on Erasmus Darwin s scientific ideas and milieu relatively little attention has been paid to Darwin as a literary writer In *The Poetry of Erasmus Darwin* Enlightened Spaces Romantic Times Martin Priestman situates Darwin s three major poems *The Loves of the Plants* 1789 *The Economy of Vegetation* 1791 and *The Temple of Nature* 1803 and Darwin himself within a large polymathic late Enlightenment network of other scientists writers thinkers and social movers and shakers Interpreting Darwin s poetry in terms of Darwin s broader sense of the poetic text as a material space he posits a significant shift from the Enlightenment s emphases on conceptual spaces to the Romantic period s emphases on historical time He shows how Darwin s poetry illuminates his stance toward all the major physical sciences and his well formulated theories of evolution and materially based psychology Priestman s study also offers the first substantial accounts of Darwin s mythological theories and their links to Enlightenment Rosicrucianism and Freemasonry and of the reading of history that emerges from the fragment poem *The Progress of Society* a first ever printed edition of which is included in an appendix Ultimately Priestman s book offers readers a sustained account of Darwin s polymathic Enlightenment worldview and cognate poetics in a period when texts are too often judged by their adherence to a retrospectively constructed Romanticism **Pop-up and Movable Books** Ann Rothwell Montanaro, 1993 For historians of printing and book design students of children s literature and book collectors this record of 19th and 20th century English language books containing movable illustrations identifies indexes and describes some 1 600 titles The volume is arranged alphabetically by title and has three separate indexes sorted by publication date personal names of contributors and series

Caribbean or how ethnic minorities in the United States such as Chicanos and African Americans incorporate Filipino characters in their novels or creolize their music with Chinese influences As the title of this book suggests sometimes these peripheral areas and social groups talk back to the metropolitan centers of the former empires or look for their mediation while others they avoid the interference of the First World or of hegemonic social groups altogether in order to address other peripheral peoples directly thus creating rich South South cross cultural flows and exchanges The main difference between the imperialistic orientalism studied by Said and this other type of global cultural interaction is that while in their engagement with the Orient they may be reproducing certain imperialistic fantasies and mental structures typically there is not an ethnocentric process of self idealization or an attempt to demonstrate cultural ontological or racial superiority in South South intellectual and cultural exchanges This way to de center or to provincialize Europe pace Dipesh Chakrabarty disrupts the traditional center periphery dichotomy bringing about multiple and interchangeable centers and peripheries whose cultures interact with one another without the mediation of the European and North American metropolitan centers
