Freud's Schreber Between Psychiatry and Psychoanalysis Thomas Dalzell,2018-03-29 This book investigates what was distinctive about the predisposition to psychosis Freud posited in Daniel Paul Schreber a presiding judge in Saxony s highest court It argues that Freud s 1911 Schreber text reversed the order of priority in late nineteenth century conceptions of the disposing causes of psychosis the objective biological and subjective biographical to privilege subjective disposition to psychosis but without returning to the paradigms of early nineteenth century Romantic psychiatry and without obviating the legitimate claims of biological psychiatry in relation to hereditary disposition While Schreber is the book s reference point this is not a general treatment of Schreber or of Freud s reading of the Schreber case It focuses rather on what was new in Freud s thinking on the disposition to psychosis what he learned from his psychiatrist contemporaries and what he did not and whether or not psychoanalysts have fully received his aetiology *The Truths of Psychoanalysis* Jasper Feyaerts,Paulo Beer,2022-02-15 Dealing with the matter of truth Truth has always been a central philosophical category occupying different fields of knowledge and practice In the current moment of fake news and alternative facts it is mandatory to revisit the various meanings of truth Departing from various approaches to psychoanalytic theory and practice the authors gathered in this book offer critical reflections and insights about truth and its effects In articulations of psychoanalysis with for instance philosophy ethics and politics the reader will find discussions about issues such as knowledge love and clinical practice all marked by the matter of truth Psychoanalysis for Intersectional Humanity Ricardo Espinoza Lolas,2023-09-29 Psychoanalysis for Intersectional Humanity considers both the vast realm of sexual diversities emerging under capitalism and outlines what a psychoanalytic clinic that considers these diversities should be like Ricardo Espinoza Lolas explores these themes hand in hand with the Marquis de Sade exploring the monstrous side of our existence not as a negative aspect of

humanity but as a part of us that strives for a freer and more inclusive life Espinoza Lolas explores aspects of psychoanalysis feminism critical theory philosophy history politics and the arts in considering how human determination can be torn from ego and neurosis The book concludes with a disarticulation of the categories of neurosis psychosis and perversion of psychoanalysis and the suggestion of a new clinic and a new politics Psychoanalysis for Intersectional Humanity will be of great interest to psychoanalysts in practice and in training Lacanian clinicians and scholars of psychoanalytic studies philosophy and critical theory

Sexuality and Psychoanalysis Jens de Vleminck, Eran Dorfman, 2010 The relationship between sexuality and psychoanalysis can be described in terms of an old and stormy love affair The same can be said about the relationship between psychoanalysis and philosophy It is precisely this fascinating love triangle that the present volume of essays aims to explore A diverse group of philosophers and psychoanalysts reflected on the concept of sexuality in Freud Lacanian psychoanalysis The result is a stimulating collection of essays where the role of sexuality in psychoanalysis is scrutinized from a philosophical point of view

Reading Seminar XX Suzanne Barnard, Bruce Fink, 2012-02-01 This collection offers the first sustained in depth commentary on Seminar XX Encore considered the cornerstone of Lacan's work on the themes of sexual difference knowledge jouissance and love Although Seminar XX was originally popularized as Lacan's treatise on feminine sexuality these essays by some of today's foremost Lacanian scholars go beyond feminine sexuality to address Lacan's significant intertwining concern with the rupture between reality and the real produced by modern science and the implications of this rupture for subjectivity knowledge jouissance and the body The essays clarify basic concepts but for readers already familiar with Lacan they also offer sophisticated workings through of the more challenging and obscure arguments in Encore both by tracing their historical development across Lacan's oeuvre and by demonstrating their relation to particular philosophical theological mathematical and scientific concepts They cover much of the terrain necessary for understanding sexual difference not in terms of chromosomes body parts choice of sexual partner or varieties of sexual practice but in terms of one's position vis vis the Other and the kind of jouissance one is able to obtain In so doing they make significant interventions in the debates regarding sex gender and sexuality in feminist theory philosophy queer theory and cultural studies

Boundas, 2007 Columbia Companion to Twentieth Century Philosophies is the first guide to cover both the Anglo American analytic and European Continental traditions The first section features Nicholas Rescher writing on neoidealism Josephine Donovan commenting on feminist philosophy Tyler Burge discussing the philosophy of language and mind and Robert Hanna reflecting on Kant's legacy The second section presents Jean Grondin on hermeneutics Leonard Lawlor on phenomenology Charles Scott on postmodernism and Babette Babich on the philosophy of science The volume also covers logical positivism naturalism pragmatism aesthetics existentialism Marxism the Frankfurt School structuralism psychoanalysis political philosophy ethics and the philosophy of religion The final section addresses concurrent trends in Indian Chinese Japanese and African philosophy and a comprehensive introduction by Constantin V Boundas not only provides a thorough outline of the problems and issues of the analytic and Continental traditions but also boldly challenges the conviction that the two approaches must be rivals Offering an unusually panoramic perspective the Columbia Companion to Twentieth Century Philosophies enables readers to encounter foundational materials on their own terms

Reinventing the Symptom Luke Thurston, 2022-09-13 The essays collected in Reinventing the Symptom explore the final period of Jacques Lacan's teaching focusing on his 1975-76 seminar Le sinthome This book sheds light on the central questions of this last phase of Lacanian theory and unravels the principal enigmas of the seminars The work as a whole breaks through previous obstacles to the act

of reading Lacan's last work among them the notorious restrictions placed upon the publication and translation of Lacan's teachings. The contributors examine Lacan's late work from a variety of perspectives. They consider his theories on Borromean knot topology and rethink readings of his views on sexual difference, his encounter with Joyce and even his consideration that his work was not theory at all but rather a kind of writing. These lucid essays offer a dazzling reading of works previously considered elusive. Students and practitioners of psychoanalysis alike will benefit from this revolutionary collection. The contributors mark the territory for a more widespread deployment of Lacanian theory in our cultural landscape from modernism to deconstruction and feminism. At last those who seek to approach Lacanian thought and apply its relevance to their own fields have a radical new tool made readily available to them.

Underlying Assumptions in Psychoanalytic Schools Bernd Huppertz, 2023-04-05 This book offers a comparative study of the major schools of psychoanalysis by exploring their historical development, their differences and similarities and the underlying assumptions made by each. Encompassing the expertise of colleagues from different schools of psychoanalytic thought, each chapter explores a particular perspective, defining specific theoretical assumptions, theories of etiology and implications for technique as well as providing each author's view on the historical development of key psychoanalytic concepts. With contributions from leading authors in the field and covering both historical and international schools, the book provides an enlightening account that will prove essential to psychoanalytic practitioners and students of psychoanalysis and the history of medicine.

Alternative Shakespeares John Drakakis, Terence Hawkes, 1996 Introducing new debates and new theorists, this collection provides a broad cross-section of contemporary Shakespearean studies, including psychoanalysis, sexual and gender politics, race and new historicism.

Sartre and Psychoanalysis Betty Cannon, 1991 Betty Cannon is the first to explore the implications of Sartrean philosophy for the Freudian psychoanalytic tradition. Drawing upon Sartre's work as well as her own experiences as a practicing therapist, she shows that Sartre was a fellow traveler who appreciated Freud's psychoanalytic achievements but rebelled against the determinism of his metatheory. The mind, Sartre argued, cannot be reduced to a collection of drives and structures; nor is it enslaved to its past as Freud's work suggested. Sartre advocated an existentialist psychoanalysis based on human freedom and the self's ability to reshape its own meaning and value. Through the Sartrean approach, Cannon offers a resolution to the crisis in psychoanalytic metatheory created by the current emphasis on relational needs. By comparing Sartre with Freud and influential post-Freudians like Melanie Klein, Otto Kernberg, Margaret Mahler, D.W. Winnicott, Heinz Kohut, Harry Stack Sullivan, and Jacques Lacan, she demonstrates why the Sartrean model transcends the limitations of traditional Freudian metatheory. In the process, she adds a new dimension to our understanding of Sartre and his place in twentieth-century philosophy.
