Real Politics At The Center Of Everyday Life:

Living (In)Dependence Ndi, Bill F., Fishkin, Benjamin Hard, 2018-11-09 *Living In Dependence Critical Perspectives on Global Interdependence* embraces a multidisciplinary approach to the interconnectedness of independence and dependence in every ramification of the words. These scholars and academics from different disciplinary areas examine independence which rhetoric is aimed at legitimizing nationalist and isolationist positions and with exclusionists clamoring for walls separating people who supposedly live in a global village. *Living In Dependence Critical Perspectives on Global Interdependence* is a timely reminder especially when the world is at cross purposes with generation old alliances falling apart like the Berlin Wall that less than 30 years ago fell to mark an end to sadness and separation that same engendered from 1949-1989. In short, this study explores the binary of life experience of independence and that of dependence as constituent flip sides of a coin whose meaning can only be grasped by taking a closer look at each facet. **Critical**

Perspectives in Rural Development Studies Saturnino Borrás Jr., 2013-09-13 Agrarian transformations within and across countries have been significantly and dynamically altered during the past few decades compared to previous eras provoking a variety of reactions from rural poor communities worldwide. The recent convergence of various crises financial food energy and environmental has put the nexus between rural development and development in general back onto the center stage of theoretical policy and political agendas in the world today. Confronting these issues will require re-engaging with critical theories taking politics seriously and utilizing rigorous and appropriate research methodologies. These are the common messages and implications of the various contributions to this collection in the context of a scholarship that is critical in two senses questioning prescriptions from mainstream perspectives and interrogating popular conventions in radical thinking. This book focuses on key perspectives frameworks and methodologies in agrarian change and peasant studies. The contributors are leading scholars in the field of rural development studies: Henry Bernstein, Terence J. Byres, Saturnino M. Borrás Jr., Marc Edelman, Cristóbal Kay, Benedict Kerkvliet, Philip McMichael, Shahra Razavi, Ian Scoones and Teodor Shanin. This book was previously published as a special issue of the *Journal of Peasant Studies*. ***The Just War Tradition*** J. Daryl Charles, David D. Corey, 2014-03-11 Politicians, pundits and scholars have cited the principles of just war to defend military actions from Iraq to Afghanistan to Libya. Other politicians, pundits and scholars have cited just war principles to condemn those same military interventions. How can the same tradition lead to such sharply opposing conclusions? What is the just war tradition and why is it important today? Authors David D. Corey and J. Daryl Charles answer those questions in this insightful exploration. A fascinating blend of history, theology and political philosophy, *The Just War Tradition: An Introduction* traces the development of the tradition from its inception nearly two millennia ago. Corey and Charles illuminate how the various voices within the tradition from Augustine and Aquinas to Luther and Calvin to Suarez and Locke up to present day commentators relate to one another and to rival ways of understanding war and peace. **Governing Codes** Karrin Vasby
