**Quotation in Indigenised and Learner English** Julia

Davydova, 2019-01-14 Quotative marking in modern English is a highly dynamic domain which has been undergoing

progressive expansion with newcomer variants notably quotative be like entering the scene and restructuring the entire

system Given that this feature is being put forward by the younger generation in native speaker communities the crucial

question is How do younger speakers living in different parts of the non Anglophone world appropriate this feature in their

L2 English This volume tackles this question by exploring the sociolinguistic mechanisms guiding the adoption of the

newcomer be like by young adults speaking English as a second and as a foreign language In so doing it also explores the

role of sociolinguistic salience and language attitudes in the process of adaptation of global linguistic innovations

**Advances in Human Aspects of Transportation: Part I** Neville Stanton, Giuseppe Di Bucchianico, Andrea

Vallicelli, Steven Landry, 2021-07-19 Human Factors and Ergonomics have made a considerable contribution to the research design development operation and analysis of transportation systems which includes road and rail vehicles and their complementary infrastructure aviation and maritime transportation This book presents recent advances in the Human Factors aspects of Transportation These advances include accident analysis automation of vehicles comfort distraction of drivers understanding of distraction and how to avoid it environmental concerns in vehicle systems design intelligent transport systems methodological developments new systems and technology observational and case studies safety situation awareness skill development and training warnings and workload This book brings together the most recent human factors work in the transportation domain including empirical research human performance and other types of modeling analysis and development The issues facing engineers scientists and other practitioners of human factors in transportation research are becoming more challenging and more critical The common theme across these sections is that they deal with the intersection of the human and the system Moreover many of the chapter topics cross section boundaries for instance by focusing on function allocation in NextGen or on the safety benefits of a tower controller tool This is in keeping with the systemic nature of the problems facing human factors experts in rail and road aviation and maritime research it is becoming increasingly important to view problems not as isolated issues that can be extracted from the system environment but as embedded issues that can only be understood as a part of an overall system      **English for Law** M.
