

THE FOUR ELEMENTS

Fire, earth, air, and water are fundamental energies that operate in the physical world. They are the building blocks of life. Rocks and soil, wind, the sun, lakes and streams, these are examples of the physical form in which we see the elements. Equally, if not more important, are the vibrational qualities of these four elements.

Sights, sounds, smells, tastes, textures — pretty much everything — can be grouped into one of the elemental categories. When you begin to understand these connections you can learn to draw upon these elements to produce the results you desire. Part of your development as a witch involves using these elements to your advantage. You may use them singularly or combine two or more elements to create balance. Each element has its own properties, and it's up to you to decide how to use them.

Use fire in rituals and spells for healing, purification, change and transformation, sex and sensuality, breaking bad habits, or destroying illness and disease.

Water is important in magic with a purpose for friendship, marriage, happiness, fertility, healing, pleasure, and psychic abilities.

Air is essential to spells and rituals for travel, instruction, finding lost items, new beginnings, divination, and freedom. Air aids us in visualization, a vital technique in magic.

Use the Earth element in spells and rituals for prosperity and abundance, business success, fertility, knowledge and wisdom, and stability.

SIGNS OF THE ZODIAC

The word zodiac comes from the ancient Greek phrase *kyklos zodiakos*, "circle of animals." Ancient people who watched the sky saw a pattern. The sun took the same path through twelve groups of stars in the sky each year. These groups of stars, called constellations, are named based on their shape and from lore.

In general, when you work with the signs of the zodiac, you almost always need to pair it with another correspondence.

For example, if your purpose is transformation or change, you may wish to work with the fire signs (Aries, Leo, and Sagittarius).

To use the energy of the signs in conjunction with the planets' positions, you'll need to know the various influences signs have on the planets as they travel through the skies. These influences are as follows:

Ruler ship – the sign amplifies the planets energy

Exaltation – the planet is balanced and harmonized and at its highest potential

Triplicity – a lesser form of ruler ship
