Thompson,2003-08-18 Since the terrorist attacks of September 11th the topic of Islam s political cultural religious and spiritual tendencies and beliefs has been thrust into the spotlight However most discussions concerning Islam s relation to the West tend to simplify and distort the intricate nature of the problem The essays in *Islam and the West* approach the interactions of Islam the West and modernity through overlapping social historical economic cultural and philosophical layers Viewed through this complex prism of analysis the full dimensions of the relationship become clear The result is a deeper understanding of the nature of modernity and how other societies can relate to each other in an increasingly complex globalizing world German Realpolitik and American Sociology James A. Transformations of Electricity in Nineteenth-Century Literature and Science Stella Pratt-Smith,2017-05-15 Throughout the nineteenth century practitioners of science writers of fiction and journalists wrote about electricity in ways that defied epistemological and disciplinary boundaries Revealing electricity as a site for intense and imaginative Victorian speculation Stella Pratt Smith traces the synthesis of nineteenth century electricity made possible by the powerful combination of science literature and the popular imagination With electricity resisting clear description even by those such as Michael Faraday and James Clerk Maxwell who knew it best Pratt Smith argues that electricity was both metaphorically suggestive and open to imaginative speculation Her book engages with Victorian scientific texts popular and specialist periodicals and the work of leading midcentury novelists including Charles Dickens Charlotte Bronte Emily Bronte William Makepeace Thackeray and Wilkie Collins Examining the work of William Harrison Ainsworth and Edward Bulwer Lytton Pratt Smith explores how Victorian novelists attributed magical qualities to electricity imbuing it with both the romance of the past and the thrill of the future She concludes with a case study of Benjamin Lumley s *Another World* which presents an enticing fantasy of electricity s potential based on contemporary developments Ultimately her book contends that writing and reading about electricity appropriated and expanded its imaginative scope transformed its factual origins and applications and contravened the bounds of literary genres and disciplinary constraints *Wagner in Retrospect* ,2023-12-18 *Taking Stock - Twenty-Five Years of Comparative Literary Research* ,2019-10-29 Read an interview with Norbert Bachleitner In this 200th volume of

Internationale Forschungen zur Allgemeinen und Vergleichenden Literaturwissenschaft the editors Norbert Bachleitner Achim H H lter and John A McCarthy take stock of the discipline It focuses on recurrent questions in the field of Comparative Literature What is literature What is meant by comparative Or by world What constitute transgressions or refractions What ultimately does being at home in the world imply When we combine the answers to these individual questions we might ultimately reach an intriguing proposition Comparative Literature contributes to a sense of being at home in a world that is heterogeneous and fractured rather than affirming a monolithic canon marked by territory and homogeneity The volume unites essays on world literature literature in the context of the history of ideas comparative women and gender studies aesthetics and textual analysis and literary translation and tradition U.S. Army Area Handbook for Germany Norman C. Political Repression in 19th Century Europe Robert Justin Goldstein, 2013-06-17 Originally published in 1983 The nineteenth century was a time of great economic social and political change As Europe modernized previously ignorant and apathetic elements in the population began to demand political freedoms There was pressure also for a freer press for the rights of assembly and association The apprehension of the existing elites manifested itself in an intensification of often brutal form of political repression The first part of this book summarizes on a pan European basis the major techniques of repression such as the denial of popular franchise and press censorship This is followed by a chronological survey of these techniques from 1815 1914 in each European country The book analyzes the long and short term importance of these events for European historical development in the 19th and 20th centuries *April '65* William A. Tidwell, 1995 This text examines the history of the Confederate Secret Service and its involvement in the assassination of President Lincoln The author uses previously unknown records and traces the development of Confederate doctrine for the conduct of irregular warfare
