Realities Of The Universe:

The Human Reality Valentin Matcas, 2016-04-20 There is a difference between the material objective world and the actual human reality since the human reality is very vast formed of this physical objective world and much more Since there is a difference between the actual human reality and the current knowledge about the human reality while by altering the knowledge itself about the human reality it remains separated into the consensual human reality and the actual normal objective human reality While if you lack awareness of all these you end up exploited as a human being in a human world Because you cannot study the human reality without comprehending those controlling the knowledge about the human reality and how they do so forcefully consensually or through stereotypes set in place since Aristotle and long before since this is how they end up controlling you and the entire world Furthermore you cannot form an accurate model of the universe if you do not understand yourself if you do not understand exactly your needs driving you to perform this study if you do not understand your mind constituting your means of understanding the universe and if you do not understand Life altogether spanning the universe actively involved in its structure shape behavior and development At the same time understanding the world around is the key to understanding yourself your life and your meaning in life and in the world closing this circle of knowledge Since this is why we consider the most relevant circumstances behind the famous studies of the world we find true ideas and how they influence the understanding of the world throughout time we seek to understand how and why people accept consensual scientific and ideological models of this world and how this influences their life interconnectivity and development while we discover systematically this entire world Furthermore we use this study of the human reality to test all significant knowledge and ideas including human reasoning past civilizations indoctrination Einstein astral planes of existence ideologies Renaissance the Brotherhood ideological control ages of Earth cosmogony social and mind control Giordano Bruno consensual interconnectivity Relativity human origins and development Copernicus the Consensual Matrix the Big Bang Theory dreams ancient wars stereotypes Galileo Galilei conscious reasoning Schrodinger his cat Creationism alternate realities and much more the entire human reality This book studies systematically the human reality focusing on accurate truth while discarding beliefs and errors of reasoning correlating with all relevant knowledge from physics religion spirituality society education history psychology and more If you want to learn more about everything surrounding you and everything that you really are this book is for you

God and the Philosophy of Explanation James W. Peterson,2010-08 The purpose of this book is simple It is to tell the truth about GOD Learning the truth about GOD is the result of Mr Peterson s discovery of the meaning and purpose of his life It was discovered as a direct result of his need to learn it following his daughter s death in August of 1980 He discovered that the purpose and course of his life is determined in the same manner as yours It matters not who you are or what your particular circumstance is It doesn t matter if you have lost a child to death It doesn t even matter if you have children It matters not if you are a murderer or a saint gay or straight male or female first world citizen or jungle savage plant or animal The purpose for living is the same for all living things A rather intriguing claim isn t it If one has experienced the death of a child Mr Peterson s experience is not different from one s own in any important way But the story of how he came about his particular experience probably is Mr Peterson says that his friends comprise a very special society of humans they are parents of children who died before they did it is not supposed to happen that way But because they did lose a child to death he says they are experts in the field of pain and grieving They are not proud of the knowledge they have gained but they realize they have gained knowledge of what life is and how it actually operates that can be achieved in no other way They have experienced the very worst pain a human being can experience and remain alive Mr Peterson uses his unique experience to guide his readers through a complex series of intellectual challenges with the ease of a master sculptor

Secrets of the Truth Gary Scrimnger,2010-08-04 It does not matter who or what you are As long as you are a normal thinking human being it is clear Unless we change something our future is shrouded in calamity Whether it be self destructionnuclear or otherwise religious apocalypse who knows maybe chemical bacterial viral or some natural disaster bound to annihilate earthwe are here now in this time and we have the capacity to impact change and affect the future as no other earthly being that we are aware of is capable of doing The window of opportunity is staring us in the face and we dont see it grasp it or realize it for we are too preoccupied with the current system of survival and control You do not have to acquire this book to discover its mission for the clue lies within all of us as to what we are to do about this condition We all want and desire change but each and every one of us feels disempowered disenfranchised and incapable of affecting the world around us That is so by design and intent And the answer to this condition lies within us and is brought to the fore by the many spiritual and religious belief systems we so dearly cling to but we do not practice it If you have now figured it out then bring your force into action because that is exactly what this book isa means to expose uncover and mobilize the forces within and around us And in so doing create a destiny closest aligned to what the Creator intended for all of us and our
