

# GEORGE F. KENNAN

A stylized graphic of an eagle, primarily in shades of blue and red, with its wings spread. The eagle's head is turned to the right, and its beak is open. The text 'Realities of American Foreign Policy' is superimposed on the eagle's body.

## Realities of American Foreign Policy

"By and large the lectures stand as the most comprehensive statement I ever made of my outlook on the basic problems of American foreign policy in this postwar period."  
—From the new Preface by the author

# Realities Of American Foreign Policy

**Jack E. Holmes**

## **Realities Of American Foreign Policy:**

**Realities of American Foreign Policy** George Frost Kennan, 1966 The task of international politics at the present time writes Mr Kennan is to find means to permit change to proceed without repeatedly shaking the peace of the world American foreign policy he believes has too often been dangerously unrealistic and has operated under certain misconceptions about the United States role in the community of nations Realities of American Foreign Policy George Frost Kennan (Historian, Diplomat, United States), 1954

**Roots of Realism** Benjamin Frankel, 1996 Realism has dominated international relations scholarship since the end of WW2 The 1970s saw the emergence of structural realism or neorealism which has been the subject of fierce debate ever since The essays here reflect this debate *George Kennan and the Dilemmas of US Foreign Policy* David Mayers, 1990-04-12 One of a select group of American foreign service officers to receive specialized training on the Soviet Union in the late 1920s and early 1930s George Frost Kennan eventually became the American government's chief expert on Soviet affairs during the height of the Cold War Drawing upon a wealth of original research David Mayers fascinating life of George Kennan examines his high level participation in foreign policy making and interprets his political and philosophical development within a historical framework Mayers presents an engaging and lucid account of Kennan's training his rise to prominence during the late 1940s and his policy failures and his later roles as critic of America's external policy advocate of détente with the Soviet Union and proponent of nuclear arms limitation Mayers also explores Kennan's complicated relationships with such important political figures and analysts as Dean Acheson John Foster Dulles and Walter Lippmann

American Foreign Policy and the Utopian Imagination Susan M. Matarese, 2010-03-02 With the collapse of the Soviet Union and the end of the Cold War American decision makers have been forced to confront anew questions about the role of the United States in world affairs What are the responsibilities of the United States toward other countries What are the appropriate uses and limitation of American power And what from an American point of view would be the ideal shape of the imagined New World Order However U S policymakers may resolve such issues their thinking will be influenced by assumptions deeply embedded in American culture Some of those beliefs derive from the nation's distinctive history geography and resources But others are rooted in what Susan M Matarese calls the national image a set of emotionally charged relatively coherent ideas about the special qualities of the United States and its place in the world Building on a long tradition of scholarship that looks to works of literature for insights into national myths and symbols Matarese examines a rich trove of utopian fiction written by Americans during the late nineteenth century Such writings she shows provide a useful window into the popular imagination revealing widely shared notions about the foreign policy of an idealized America notions that have proven remarkably resilient in the twentieth century as well Indeed even in the post Cold War era one can find striking similarities between the foreign policy goals of the Bush and Clinton administrations and the dreams of America's utopian architects a century earlier The author concludes with an appeal for greater humility and realism in the formation

of U S foreign policy and a recognition of the limits of American power in what is likely to be an increasingly fluid fragmented and multipolar world      The World Island Alexandros Petersen,2011-02-18 Both a historical analysis and a call to arms this is the comprehensive policy guide to understanding and engaging in the geopolitics of Eurasia The 20th century was dominated by three visions of Eurasian geopolitics The World Island Containment and Prometheism The World Island Eurasian Geopolitics and the Fate of the West posits a fourth vision of Eurasian geopolitics the 21st century Geopolitical Strategy for Eurasia Through an original and comprehensive analysis and synthesis of the ideas of Sir Halford Mackinder George Kennan and Jozef Pilsudski this title reestablishes fundamental Western strategy objectives It analyzes the state of and potential for Western engagement with China Afghanistan Turkey Russia and other Eurasian states and sets out what is at stake for the West in the Eurasian theater Promoting a robust strategy to further and protect essential Western values the author argues for the development of trade and energy links coupled with the promotion of good governance and the facilitation of policy independence integration and Western orientation among the Eurasian nations      The Realist Tradition and Contemporary International Relations W. David Clinton,2007-07-01 The tradition in international relations theory known as realism has often been associated with the Cold War The contributors to this intriguing volume argue however that realism remains a profound and relevant perspective on contemporary international politics They point out that classical realism is based on concepts that were elucidated long before the Cold War began and are not confined by its boundaries Further they believe that insights of the realist tradition can provide valuable guidance in our contemporary world W David Clinton and ten scholars of foreign policy reexamine the work of thinkers spanning twenty five centuries who have contributed to the development of realism across the ages In their essays the authors consider two key questions What makes these thinkers realists And how is their work relevant to the modern post Cold War world These essays take a fresh look at such canonical thinkers as Thucydides Augustine Machiavelli Hobbes Hume Burke Carr Niebuhr and Morgenthau Countering the widespread belief that realism has nothing left to offer this collection demonstrates that continuities remain in the political world and that the ideas rooted in realism are too important and too useful to ignore While there are obvious differences among the political philosophers whose works are considered here they share a common concern about human limitations and the possible dangerous consequences of ignoring those limitations Each in his own way these classic thinkers discuss the need for prudence to counter the ever present threat of tragedy resulting from our innocent hopeful or self righteous efforts for perfection These provocative essays demonstrate that though a realist understanding of the nature of international relations is at least as old as Thucydides it is also as contemporaneous as the most recent headline      **The Department of State Bulletin** ,1985      Judgment on Nuremberg William J. Bosch,2018-07-25 In this prodigiously researched study the author concentrates on the reaction to the trials by various segments of the American public largely in terms of the legality of the tribunal the composition of the court the justice of the verdicts and the implications for the future

Originally published 1970 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

*The Evolution of American Foreign Policy* Shawn Armstrong, 2025-02-10 This book outlines the evolution of American foreign policy tracing its principles and key historical events from the founding era to the present Chapter 1 establishes the foundational goals of U S foreign policy emphasizing the protection of national territory and natural rights while discussing the founders views on sovereignty and noninterference Chapter 2 focuses on national sovereignty highlighting the federal government s exclusive authority over foreign affairs and the criteria that define sovereignty In Chapter 3 America is characterized as a commercial republic with George Washington s warnings about foreign entanglements underscoring the importance of a strong economy in shaping foreign policy Chapter 4 addresses national honor exploring its influence on public opinion and reputation through historical events like the XYZ Affair The subsequent chapters delve into significant historical crises and doctrines that shaped U S foreign policy including the Monroe Doctrine Chapter 7 which established America s geopolitical stance in the Western Hemisphere and the Spanish American War Chapter 8 marking a shift towards colonialism Chapters 10 12 discuss America s involvement in World War I Wilson s diplomatic efforts and the resulting international agreements like the Treaty of Versailles The book further examines post World War II dynamics in Chapters 14 19 detailing shifts in policy such as containment strategies against communism during the Cold War nuclear arms competition and military interventions in Korea and Vietnam Chapters on modern presidents from Reagan to Biden highlight changing approaches to foreign policy including Reagan s confrontational stance towards the Soviet Union Bush s vision for a new world order post Cold War Clinton s Middle East interventions and Obama s focus on diplomacy alongside military engagement The final chapters explore contemporary issues such as terrorism and America s role in global conflicts under Trump and Biden reflecting ongoing debates about interventionism versus restraint in U S foreign policy Overall this comprehensive overview illustrates how American foreign policy has evolved through historical challenges and shifts in leadership philosophies continuously balancing national interests with global responsibilities

*American Foreign Policy Current Documents* , 1989

*American Foreign Policy & Moral Rhetoric* David Little, 1969 This book examines the morality of American foreign policy during the Vietnam War

**An Unwritten Future** Jonathan Kirshner, 2024-08-20 An argument for the classical realist approach to world politics An Unwritten Future offers a fresh reassessment of classical realism an enduring approach to understanding crucial events in the international political arena Jonathan Kirshner identifies the fundamental flaws of classical realism s would be successors and shows how this older more nuanced and sophisticated method for studying world politics better explains the formative events of the past Kirshner also reveals how this approach is ideally equipped to comprehend the vital questions of the present such as the implications of

China's rise the ways that social and economic change alter the balance of power and the nature of international conflict and the consequences of the end of the US led postwar order for the future of world politics Laying out realism's core principles Kirshner discusses the contributions of the perspective's key thinkers including Thucydides Hans Morgenthau and Raymond Aron among others He illustrates how a classical realist approach gives new insights into major upheavals of the twentieth century such as Britain's appeasement of Nazi Germany and America's ruinous involvement in Vietnam Kirshner also addresses realism's limits and explores contemporary issues including the ascent of great power challengers the political implications of globalization and the diffusion of power in modern world politics A reexamination of the realist tradition with a renewed emphasis on the crucial roles played by uncertainty contingency and contestation *An Unwritten Future* demonstrates how a once popular school of thought provides invaluable insights into pressing real world problems *US Foreign Policy in the Twenty-First Century* J. Martin Rochester, 2018-05-04 The issues raised by the Iraq War are symptomatic of larger phenomena that will continue to preoccupy American foreign policy makers well into the twenty first century The war on terror the proliferation of weapons of mass destruction humanitarian intervention and a litany of other concerns on the foreign policy agenda pose complex dilemmas for which there are no simple answers Through lucid lively analysis as well as multiple illustrations and case studies *US Foreign Policy in the Twenty First Century* explores the difficult choices that confront the United States today in a complicated and often dangerous post Cold War environment Author J Martin Rochester engages students in an intelligent examination of American foreign policy past present and future involving them in critical thinking about how foreign policy is made what factors affect foreign policy decisions and behavior and how one might go about not only describing and explaining foreign policy but also evaluating it and prescribing solutions

**American Foreign Policy and Postwar Reconstruction** Jeff Bridoux, 2013-01-11 This book provides a detailed comparison of the reconstruction of Japan from 1945 to 1952 with the current reconstruction of Iraq **The Mood/Interest Theory of American Foreign Policy** Jack E. Holmes, 2014-07-15 In 1952 Frank L Klingberg's article on introvert and extrovert American foreign policy moods projected an American turn toward introversion in the late 1960s After this came to pass Jack Holmes began to develop a theory of how these moods might work in a more specific sense His mood interest theory points to a basic conflict between politico military interests and the foreign policy moods of the American electorate Holmes presents a pioneering account of the over whelming impact of public moods on foreign policy Policy making structures executive legislative relations presidential personality pragmatism moralism elitism conservatism international economics and humanitarianism are related to the mood interest pattern Major points are illustrated with examples from 1776 to the present Holmes's analysis indicates that American moods are continuing unabated according to past patterns so that American foreign policy may undergo some surprising changes in the next decade One of the author's hopes is that emphasis on the importance of national moods will help avoid future extremes This book is bold in its assertions and points to

major problems in the analysis of American foreign policy Whether or not the reader agrees with the entire analysis he or she will be challenged to think about American foreign policy in new and perhaps revealing ways      **Franklin D. Roosevelt and American Foreign Policy, 1932-1945** Robert Dallek,1995-05-25 Since the original publication of this classic book in 1979 Roosevelt s foreign policy has come under attack on three main points Was Roosevelt responsible for the confrontation with Japan that led to the attack at Pearl Harbor Did Roosevelt give away Eastern Europe to Stalin and the U S S R at Yalta And most significantly did Roosevelt abandon Europe s Jews to the Holocaust making no direct effort to aid them In a new Afterword to his definitive history Dallek vigorously and brilliantly defends Roosevelt s policy He emphasizes how Roosevelt operated as a master politician in maintaining a national consensus for his foreign policy throughout his presidency and how he brilliantly achieved his policy and military goals      **American foreign policy** Mohsen M. Saleh,Ishtiaq Hossain,2011-09-28 This is a 422 pages edited volume prepared by a group of prominent scholars from US UK Malaysia UAE and Lebanon It discusses the domestic settings of American foreign policy and analyzes its impact on issues considered vital to the Muslim world adhering to the strict academic standards and measures The first part of this book explains the complex foreign policy making system in the United states and assesses the role of Christian evangelicalism neoconservatism the media the pro Israel lobby and the role of Muslim groups The second part of the book discusses the characteristics of the American foreign policy It presents a historical analysis of the most important issues that had an immense impact on the American foreign policy It also analyses the impact of the US political economy on its foreign policy and asserts the need for a paradigm shift in American foreign policy The third part of the book provides an in depth analysis of American policy towards the most sensitive issues in the Islamic World the Palestinian cause Iraq invasion and occupation Iran s nuclear issue and Afghanistan It also discusses the president Obama s foreign policy The importance of this study is that it analyzes American foreign policy from the view of scholars who are mostly from the Islamic world yet they well know the US closely through their academic background or by living and studying and teaching there Thus they present their objective view as they see it rather than presenting the views of American think tanks It is a must read book for those interested in understanding American foreign policy toward the Muslim world and specialists and students of Political Science and International Relations      *Peace with Justice* A. Buchanan,2000-07-05 Peace with Justice is an analysis of the political legal and economic viability of the current Israeli NPLO peace process and an evaluation of the agreements made between 13 September 1993 and 17 January 1997 It assesses the attempt by the Israeli and Palestinian communities to shape a common future through an analysis of the effectiveness of the negotiated agreements as an instrument for and as an example of conflict resolution      *Daily Report, Foreign Radio Broadcasts* United States. Central Intelligence Agency,1972
