edge work in critical social and political theory into the conversation about reality TV Consolidates the latest broadest range of scholarship on the politics of reality television and its vexed relationship to culture society identity democracy and ordinary people in the media Includes primetime reality entertainment as well as precursors such as daytime talk shows in the scope of discussion Contributions from a list of international leading scholars in this field Reality Television and the Art of Trivialising Work Health, Safety and Wellbeing Trajce Cvetkovski, 2024-07-30 This book aims to assess the extent to which work health safety and wellbeing HSW considerations are trivialised on the popular Australian reality TV programme The Block Reality TV as a genre plays a core feature in media and cultural studies but there has not been any research on the impact of reality TV on safety culture or how HSW issues are portrayed in popular media This research remedies this deficiency and demonstrates contestants are workers on The Block who perform workplace activities The work related activities are concerned with construction building and renovation work and specifically participants engage in what are seemingly routine or ordinary everyday life activities namely housing construction and domestic or home dwelling renovations It supports the argument claim that contestants on reality TV are defined as workers and this definition of worker can be extended to other genres The book ultimately demonstrates that reality television is trivialising HSW for the purposes of satisfying audience desire to consume popular culture and these activities perpetuate a poor image of best safety practice Trans-Reality Television Sofie Van Bauwel, Nico Carpentier, 2012-07-10 Trans Reality Television The Transgression of Reality Genre Politics and Audience offers an overview of contributions which engage with the phenomenon of reality television as a tool to reflect on societal and mediated transformations and transgressions While some contributors delve deep into the theoretical issues others approach the topic at hand through empirical studies of specific reality television formats and programs The chapters in this volume are divided into four sections all of which deal with how we see the fluid social at work in reality television through the trans real trans politics trans genre and trans audience The first section stresses the concept of the trans real These chapters go into the complexity of the construction of reality in reality television The second section which deals with the concept of trans politics offers a diversity of perspectives on the articulation and re articulation of politics and the political In the third section trans genre the chapters analyze how the modern conceptualizations of genre and format are transcended Finally the last set of chapters articulate the concept of trans audiences using case studies of particular audiences and a study of reality celebrities Trans Reality Television concludes by returning to the sense and nonsense of the use of these post concepts Reacting to Reality Television Beverley Skeggs, Helen Wood, 2012-05-04 The unremitting explosion of reality television across the schedules has become a sustainable global phenomenon generating considerable popular and political fervour The zeal with which television executives seize on the easily replicated formats is matched equally by the eagerness of audiences to offer themselves up as television participants for others to watch and criticise But how do we react to so many people breaking down fronting up

tearing apart dominating empathising humiliating and seemingly laying bare their raw emotion for our entertainment Do we feel sad when others are sad Or are we relieved by the knowledge that our circumstances might be better As reality television extends into the experiences of the everyday it makes dramatic and often shocking the mundane aspects of our intimate relations inviting us as viewers into a volatile arena of mediated morality This book addresses the impact of this endless opening out of intimacy as an entertainment trend that erodes the traditional boundaries between spectator and performer demanding new tools for capturing television's relationships with audiences Rather than asking how the reality television genre is interpreted as text or representation the authors investigate the politics of viewer encounters as interventions evocations and more generally mediated social relations. The authors show how different reactions can involve viewers in tournaments of value as women viewers empathise and struggle to validate their own lives The authors use these detailed responses to challenge theories of the self governmentality and ideology A must read for both students and researchers in audience studies television studies and media and communication studies **Reality TV and Queer** Identities Michael Lovelock, 2019-04-24 This book examines queer visibility in reality television which is arguably the most prolific space of gay lesbian transgender and otherwise queer media representation It explores almost two decades of reality programming from Big Brother to I Am Cait American Idol to RuPaul's Drag Race arguing that the specific conventions of reality TV its intimacy and emotion its investments in celebrity and the ideal of authenticity have inextricably shaped the ways in which queer people have become visible in reality shows By challenging popular judgements on reality shows as damaging spaces of queer representation this book argues that reality TV has pioneered a unique form of queer inclusive broadcasting where a desire for authenticity rather than being heterosexual is the norm Across all chapters this book investigates how reality TV s celebration of compulsory authenticity has circulated acceptable and unacceptable ways of being queer demonstrating how possibilities for queer visibility are shaped by broader anxieties and around selfhood identity and the real in contemporary cultural life The Politics of Reality Television Marwan M. Kraidy, Katherine Sender, 2010-10-22 The Politics of Reality Television encompasses an international selection of expert contributions who consider the specific ways media migrations test our understanding of and means of investigating reality television across the globe The book addresses a wide range of topics including the global circulation and local adaptation of reality television formats and franchises the production of fame and celebrity around hitherto ordinary people the transformation of self under the public eye the tensions between fierce loyalties to local representatives and imagined communities bonding across regional and ethnic divides the struggle over the meanings and values of reality television across a range of national regional gender class and religious contexts This book will be of interest to undergraduate and postgraduate students on a range of Media and Television Studies courses particularly those on the globalisation of television and media and reality television Real Talk: Reality Television and Discourse Analysis in Action Pilar Garces-Conejos Blitvich, 2015-12-26 This is the first

book to examine the discourse of reality television Chapters provide rigorous case studies of the discourse practices that characterise a wide range of generic and linguistic cultural contexts including dating shows in China and Spain docudramas in Argentina and New Zealand and talent shows in the UK and USA Reality TV Jon Kraszewski, 2017-02-24 From early first wave programs such as Candid Camera An American Family and The Real World to the shows on our television screens and portable devices today reality television consistently takes us to cities such as New York Los Angeles and Boston to imagine the place of urbanity in American culture and society Jon Kraszewski offers the first extended account of this phenomenon as he makes the politics of urban space the center of his history and theory of reality television Kraszewski situates reality television in a larger economic transformation that started in the 1980s when America went from an industrial economy when cities were home to all classes to its post industrial economy as cities became key points in a web of global financing expelling all economic classes except the elite and the poor Reality television in the industrial era reworked social relationships based on class race and gender for liberatory purposes which resulted in an egalitarian ethos in the genre However reality television of the post industrial era attempts to convince viewers that cities still serve their interests even though most viewers find city life today economically untenable Each chapter uses a key theoretical concept from spatial theory such as power geometries diasporic nostalgia orientalism the imagination of social expulsions and the relationship between the country and the city to illuminate the way reality television engages this larger transformation of urban space in America The Ethics of Reality TV Wendy N. Wyatt, Kristie Bunton, 2012-05-10 Reality television is continuing to grow both in numbers and in popularity The scholarship on reality TV is beginning to catch up but one of the most enduring questions about the genre Is it ethical has yet to be addressed in any systematic and comprehensive way Through investigating issues ranging from deception and privacy breaches to community building and democratization of TV The Ethics of Reality TV explores the ways in which reality TV may create both benefits and harms to society The edited collection features the work of leading scholars in the field of media ethics and provides a comprehensive assessment of the ethical effects of the genre **Reality Gendervision** Brenda R. Weber, 2014-03-03 This essay collection focuses on the gendered dimensions of reality television in both the United States and Great Britain Through close readings of a wide range of reality programming from Finding Sarah and Sister Wives to Ghost Adventures and Deadliest Warrior the contributors think through questions of femininity and masculinity as they relate to the intersections of gender race class and sexuality They connect the genre's combination of real people and surreal experiences of authenticity and artifice to the production of identity and norms of citizenship the commodification of selfhood and the naturalization of regimes of power Whether assessing the Kardashian family brand portrayals of hoarders or big family programs such as 19 Kids and Counting the contributors analyze reality television as a relevant site for the production and performance of gender In the process they illuminate the larger neoliberal and postfeminist contexts in which reality TV is produced promoted watched and experienced
