A Companion to Reality Television Laurie Ouellette, 2016-12-19 International in scope and more comprehensive than existing collections A Companion to Reality Television presents a complete guide to the study of reality factual and nonfiction television entertainment encompassing a wide range of formats and incorporating cutting edge work in critical social and political theory Original in bringing cutting edge work in critical social and political theory into the conversation about reality TV Consolidates the latest broadest range of scholarship on the politics of reality television and its vexed relationship to culture society identity democracy and ordinary people in the media Includes primetime reality entertainment as well as precursors such as daytime talk shows in the scope of discussion Contributions from a list of international leading scholars in this field

The Bizarre World of Reality Television Stuart Lenig, 2017-10-12 How do reality television programs shape our view of the world and what we perceive as real and normal This book explores the bizarre and highly controversial world of reality television including its early history wide variety of subject matter and social implications In recent decades reality television shows ranging from Keeping up with the Kardashians to Duck Dynasty have become increasingly popular Why are these unscripted programs irresistible to millions of viewers And what does the nearly universal success of reality shows say about American culture

This book covers more than 100 major and influential reality programs past and present discussing the origins and past of reality programming the contemporary social and economic conditions that led to the rise of reality shows and the ways in which the most successful shows achieve popularity with both male and female demographics or appeal to specific targeted niche audiences The text addresses reality TV within five easy to identify content categories competition shows relationship love interest shows real people or alternative lifestyle and culture shows transformation shows and international programming By examining modern reality television a topic of great interest for a wide variety of readers this book also discusses cultural and social norms in the United States including materialism unrealistic beauty ideals gender roles and stereotypes in society dynamics of personal relationships teenage lifestyles and issues and the branding of people for financial gain and wider viewership

Reality Television and Arab Politics Marwan M. Kraidy, 2010 This book analyzes how reality television fuelled heated polemics over cultural authenticity gender relations and political participation in the Middle East

The Politics of Reality Television Marwan M. Kraidy, Katherine Sender, 2010-10-22 The Politics of Reality Television encompasses an international selection of expert contributions who consider the specific ways media migrations test our understanding of and means of investigating reality television across the globe The book addresses a wide range of topics including the global circulation and local adaptation of reality television formats and franchises the production of fame and celebrity around hitherto ordinary people the transformation of self under the public eye the tensions between fierce loyalties to local representatives and imagined communities bonding across regional and ethnic divides the struggle over the meanings and values of reality television across a range of national regional gender class and religious contexts This book will be of interest to undergraduate and postgraduate students on a range of Media and Television Studies courses particularly those on the globalisation of television and media and reality television

Documentary's Awkward Turn Jason Middleton, 2013-12-04 Despite the prominence of awkwardness as cultural buzzword and descriptor of a sub genre of contemporary film and television comedy it has yet to be adequately theorized in academic film and media studies Documentary's Awkward Turn contributes a new critical paradigm to the field by presenting an analysis of awkward moments in documentary film and other reality based media formats It examines difficult and disrupted encounters between social actors on the screen between filmmaker and subject and between film and spectator These encounters are of course often inter connected Awkward moments occur when an established mode of representation or reception is unexpectedly challenged stalled or altered when an interviewee suddenly confronts the interviewer when a subject who had been comfortable on camera begins to feel trapped in the frame when a film perceived as a documentary turns out to be a parodic mockumentary This book makes visible the ways in which awkwardness connects and subtends a range of transformative textual strategies political and ethical problematics and modalities of spectatorship in documentary film and media from the 1970s to the present

Trans-Reality Television Sofie Van Bauwel, Nico Carpentier, 2012-07-10 Trans Reality Television The

Transgression of Reality Genre Politics and Audience offers an overview of contributions which engage with the phenomenon of reality television as a tool to reflect on societal and mediated transformations and transgressions While some contributors delve deep into the theoretical issues others approach the topic at hand through empirical studies of specific reality television formats and programs The chapters in this volume are divided into four sections all of which deal with how we see the fluid social at work in reality television through the trans real trans politics trans genre and trans audience The first section stresses the concept of the trans real These chapters go into the complexity of the construction of reality in reality television The second section which deals with the concept of trans politics offers a diversity of perspectives on the articulation and re articulation of politics and the political In the third section trans genre the chapters analyze how the modern conceptualizations of genre and format are transcended Finally the last set of chapters articulate the concept of trans audiences using case studies of particular audiences and a study of reality celebrities Trans Reality Television concludes by returning to the sense and nonsense of the use of these post concepts

Reality TV Susan Murray, Laurie Ouellette, 2009 A collection of essays which provide a comprehensive picture of how and why the genre of reality television emerged what it means how it differs from earlier television programming and how it engages societies industries and individuals

Videographic Cinema Jonathan Rozenkrantz, 2020-10-01 In 1957 *A Face in the Crowd* incorporated live video images to warn about the future of broadcast TV In 2015 *Kung Fury* was infused with analogue noise to evoke the nostalgic feeling of watching an old VHS tape Between the two films numerous ones would incorporate video images to imagine the implications of video practices Drawing on media archaeology *Videographic Cinema* shows how such images and imaginaries have emerged changed and remained over time according to their shifting technical historical and institutional conditions Rediscovering forgotten films like *Anti Clock* 1979 and reassessing ones like *Lost Highway* 1997 Jonathan Rozenkrantz charts neglected chapters of video history including self confrontation techniques in psychiatry their complex relation with surveillance and the invention discovery of the videographic psyche by artists therapists and filmmakers Spanning six decades *Videographic Cinema* discovers an epistemic shift from prospective imaginaries of surveillance and control conditioned on video as a medium for live transmission to retrospective ones concerned with videotape as a recording memory It ends by considering videographic filmmaking itself as a form of archaeology in the age of analogue obsolescence

Reality TV Jon Kraszewski, 2017-02-24 From early first wave programs such as *Candid Camera* *An American Family* and *The Real World* to the shows on our television screens and portable devices today reality television consistently takes us to cities such as New York Los Angeles and Boston to imagine the place of urbanity in American culture and society Jon Kraszewski offers the first extended account of this phenomenon as he makes the politics of urban space the center of his history and theory of reality television Kraszewski situates reality television in a larger economic transformation that started in the 1980s when America went from an industrial economy when cities were home to all classes to its post industrial

economy as cities became key points in a web of global financing expelling all economic classes except the elite and the poor Reality television in the industrial era reworked social relationships based on class race and gender for liberatory purposes which resulted in an egalitarian ethos in the genre However reality television of the post industrial era attempts to convince viewers that cities still serve their interests even though most viewers find city life today economically untenable Each chapter uses a key theoretical concept from spatial theory such as power geometries diasporic nostalgia orientalism the imagination of social expulsions and the relationship between the country and the city to illuminate the way reality television engages this larger transformation of urban space in America *How Real Is Reality TV?* David S. Escoffery, 2014-12-03

American viewers are attracted to what they see as the non scripted unpredictable freshness of reality television But although the episodes may not be scripted the shows are constructed within a deliberately designed framework reflecting societal values The political economic and personal issues of reality TV are in many ways simply an exaggerated version of everyday life allowing us to identify perhaps more closely than we care to admit with the characters onscreen With 16 essays from scholars around the world this volume discusses the notion of representation in reality television It explores how both audiences and producers negotiate the gulf between representations and truth in reality shows such as Survivor The Apprentice Big Brother The Nanny American Idol Extreme Makeover Joe Millionaire and The Amazing Race Various identity categories and character types found in these shows are discussed and the accuracy of their television portrayal examined Dealing with the concept of reality audience reception gender roles minority portrayal and power issues the book provides an in depth look at what we see or think we see in reality TV Instructors considering this book for use in a course may request an examination copy here [Religion and Reality TV](#) Mara Einstein, Katherine Madden, Diane Winston, 2018-04-17 Why is reality television flourishing in today s expanding media market Religion and Reality TV Faith in Late Capitalism argues that the reality genre offers answers to many of life s urgent questions Why am I important What gives my life meaning How do I present my best self to the world Case studies address these questions by examining religious representations through late capitalist lenses including the maintenance of the self the commodification of the sacred and the performance of authenticity The book s fourteen essays explore why religious themes proliferate in reality TV audiences fascination with lived religion and the economics that make religion and reality TV a successful pairing Chapters also consider the role of race gender and religion in the production and reception of programming Religion and Reality TV provides a framework for understanding the intersection of celebrity media attention beliefs and values The book will be of interest to students and scholars of religion and media studies communication American studies and popular culture **The Triumph of Reality TV** Leigh H. Edwards, 2013-01-09 This book provides an up to date account of how reality TV has developed why it has become the most popular genre on television today and how the explosion in reality TV signals new developments in American media culture The reasons behind reality TV s continued popularity go beyond the sensationalism and low production cost of these

programs there is much more to the genre's continued success than just escapism or guilty pleasure TV. *The Triumph of Reality TV: The Revolution in American Television* identifies and explores five key media trends reality TV has used to continually draw in viewers and ensure success. These media trends include innovations in storytelling, making emotional appeals to viewers, and applying content from television to other media such as films, music albums, webisodes, online games, and smart phone apps. Author Leigh H. Edwards also analyzes how reality TV shows target themes of social conflict such as changing ideas of the American family and address common anxieties and tensions in American society such as gender, race, class, and economic struggle. A wide variety of reality shows including *American Idol*, *Celebrity Rehab*, *Jackass*, *Run's House*, *Survivor*, and *The Hills* are profiled. An appealing read for students, scholars, and general readers alike, this book provides fascinating insights into the complexities of a seemingly simplistic form of mass entertainment.

Ecopiety Sarah

McFarland Taylor, 2019-11-12. Tackles a human problem we all share: the fate of the earth and our role in its future. Confident that your personal good deeds of environmental virtue will save the earth, the stories we encounter about the environment in popular culture too often promote an imagined moral economy assuring us that tiny acts of voluntary personal piety such as recycling a coffee cup or purchasing green consumer items can offset our destructive habits. No need to make any fundamental structural changes. The trick is simply for the consumer to buy the right things and shop our way to a greener future. It's time for a reality check. *Ecopiety* offers an absorbing examination of the intersections of environmental sensibilities, contemporary expressions of piety and devotion, and American popular culture. Ranging from portrayals of environmental sin and virtue such as the eco-pious depiction of Christian Grey in *Fifty Shades of Grey* to the green capitalism found in the world of mobile device carbon sin tracking software applications to the socially conscious vegetarian vampires in *True Blood*, the volume illuminates the work pop culture performs as both a mirror and an engine for the greening of American spiritual and ethical commitments. Taylor makes the case that it is not through a framework of grim duty or obligation but through one of play and delight that we may move environmental ideals into substantive action.

Documenting the American

Student Abroad Kelly Hankin, 2021-01-15. 1 in 10 undergraduates in the US will study abroad. Extolled by students as personally transformative and celebrated in academia for fostering cross-cultural understanding, study abroad is also promoted by the US government as a form of cultural diplomacy and a bridge to future participation in the global marketplace. In *Documenting the American Student Abroad*, Kelly Hankin explores the documentary media cultures that shape these beliefs, drawing our attention to the broad range of stakeholders and documentary modes involved in defining the core values and practices of study abroad. From study abroad video contests and a F B I produced docudrama about student espionage to reality television inspired educational documentaries and docudramas about Amanda Knox, Hankin shows how the institutional values of global citizenship, intercultural communication, and cultural immersion emerge in contradictory ways through their representation. By bringing study abroad and media studies into conversation with one

another Documenting the American Student Abroad The Media Cultures of International Education offers a much needed humanist contribution to the field of international education as well as a unique approach to the growing scholarship on the intersection of media and institutions As study abroad practitioners and students increase their engagement with moving images and digital environments the insights of media scholars are essential for helping the field understand how the mediation of study abroad rhetoric shapes rather than reflects the field s central institutional ideals
