The Reality of Aid 2000 Judith Randel, Tony German, Deborah Ewing, 2013-11-05 NOW IN ITS SEVENTH ANNUAL EDITION The Reality of Aid 2000 looks at how the performance of OECD donor countries on aid and development cooperation has matched up to the challenge of eliminating absolute poverty The report charts some improvements at the level of donor policy and rhetoric But its stark conclusion is that the potential of aid to combat poverty is constantly undermined by governments both North and South who fail to address the extreme inequalities of income and

the structural social and political injustices that entrench people in poverty Part I of The Reality of Aid 2000 presents an overview of poverty in the current global context and an analysis of recent trends in aid looking particularly at basic education In Part II chapters by experts from NGOs in OECD countries and the European Union show how donor aid administrations approach poverty and highlight the weakness of political commitment in the North to the needs of the poor Part III sets out Southern perspectives on development cooperation Part IV provides at a glance comparisons of donors aid outlook and commitment to development cooperation in the 21st century poverty eradication gender and public support Throughout the book information is presented in easily interpreted diagrams and graphs The Reality of Aid has established itself as a unique source of independent evaluation and comment on aid policies and development It is indispensable for all in the field whether in the official or voluntary sectors providing a regular reality check on just how much the international community is doing to realise the achievable goal of eliminating poverty Indispensable it gives you most of the hard facts you need to know about the major issues Nett Internationalist The most comprehensive and rigorous independent analysis of the aid and development policies of the world s wealthiest nations Essential reading Charity World The Reality of Aid remains an essential purchase by the libraries of development institutions and an invaluable reference for development practitioners Development Change A reliable watchdog for anyone interested in this important aspect of international relations ORBIT An accessible reference it encompasses many key issues and stimulates further research Commonwealth Comparative Politics Originally published in 1999 **The Right to Development and International Economic Law** Isabella D

[Violence against Kosovar Albanians, NATO's intervention 1998-1999](#) Laurence Binet,2016-05-18 The Violence against Kosovar Albanians NATO s intervention 1998 1999 case study describes the constraints and dilemmas facing M decins Sans Fronti res teams that witnessed a process of terror and expulsion which they described as the deportation of Kosovar Albanians by Serb forces It also described MSF s reaction to NATO aerial bombings and the control exercised over the refugee camps by this party to the conflict Should MSF denounce the violence being committed against Kosovars at the risk of being excluded from access to these people and of encouraging the NATO intervention Should MSF take a stance on the NATO intervention What sort of

relationship should be established with countries that were committed either militarily such as NATO members or politically Greece in the conflict and their civil societies Should MSF raise the alarm about the absence of the UNHCR in the management of the refugee camps at the risk of reinforcing this marginalization Is it justifiable to carry out an assessment mission that sacrifices the principle of operational independence by invoking an interpretation of the principle of impartiality that implies a responsibility to assist victims on both sides of a conflict *The Parliamentary Debates (Hansard)*. rights paradigm may respond to negative implications of climate change and its fairness is important as states continue to engage with the climate change standard setting This edited volume critically interrogates human rights paradigm as an intervention to secure climate change justice for vulnerable populations analyses regional protection against human rights consequences of climate change and assesses emerging interventions based on domestic regulatory frameworks on climate change in selected states in Africa
