Reason And Belief:

Faith and Rationality Nicholas Wolterstorff, 1986 *Reason and Belief* Sir Oliver Lodge, 1911 **The Reasoning of Unreason** John Roberts, 2018-08-23 The twenty first century so far has seen the global rise of authoritarian populism systematic racism and dogmatic metaphysics Even though these events demonstrate the growth of an age of unreason in this original and compelling book John Roberts resists the assumption that such thinking displays an unthinking irrationality or loss of reason instead he asserts that an important feature of modern reactionary politics is that it offers a supposedly convincing integration of the particular and the universal This move is defined by what Roberts calls the reasoning of unreason and has deep roots in the history of Western thought and politics Tracing the dark history of enlightenment disenlightenment John Roberts explores the reasoning of unreason across centuries from Aquinas William of Ockham the most important treatise on witchcraft Malleus Maleficarum Locke Kant and Count Arthur de Gobineau to Social Darwinism Nazism Carl Schmitt Leo Strauss and Friedrich von Hayek Roberts provides a new set of philosophical political tools to understand the formation and denigration of the rational subject and the current reinvestment in various forms of political unreason globally The Reasoning of Unreason is the first book to draw on the philosophy of reason political philosophy political theory and political history in order to produce a dialectical account of the making of reason internal to the forces of unreason and the limits of reason **Sermons: Chiefly on the Theory of Religious Belief** Blessed John Henry Newman, Aeterna Press, FEW charges have been more frequently urged by unbelievers against Revealed Religion than that it is hostile to the advance of philosophy and science That it has discouraged the cultivation of literature can never with any plausibility be maintained since it is evident that the studies connected with the history and interpretation of the Scriptures have more than any others led to inquiries into the languages writings and events of ancient times Christianity has always been a learned religion it came into the world as the offspring of an elder system to which it was indebted for much which it contained and which its professors were obliged continually to consult The Pagan philosopher on enrolling himself a member of the Christian Church was invited nay required to betake himself to a line of study almost unknown to the schools of Greece The Jewish books were even written in a language which he did not understand and opened to his view an account of manners and customs very different from those with which he was familiar Aeterna Press **Sermons Chiefly on the Theory of Belief** James Shergold Boone, 1860 *Reason, Faith and Authority in Christianity* Alfred Magill Randolph, 1902 **Reason, Faith, and Politics** Arthur M. Melzer, Robert P. Kraynak, 2008-01-01 This collection of essays honoring Werner J Dannhauser addresses the timeless issue_lately become very timely_of the rivalry between reason and religion especially as both relate to politics The essays_by such scholars as Francis Fukuyama Walter Berns Jeremy Rabkin and Ralph Lerner_range widely over Western intellectual history from classical philosophy and ancient Israel to the medieval period and the Renaissance to Nietzsche and contemporary neoconservative thought *Reason, Faith, And Purpose: The Ultimate*

Gamble John R Fanchi, 2021-11-24 Reason Faith and Purpose The Ultimate Gamble is a guide for believers and inquiring skeptics This book summarizes the scientific view of the origins of the universe and life and analyzes the question of the existence of god from philosophical religious and scientific perspectives The material is presented in two parts Part I presents the secular scientific view of the origin and evolution of the physical universe and life Part II introduces other perspectives that are representative of ideas historically prevalent around the world The material in Reason Faith and Purpose is designed to provide insight into the choice each of us must make in this life the ultimate gamble *Belief in God* Charles Gore, 1922 **The Reason of Reason** Scott R. Cherry, 2020-07-09 This is a heartfelt study of reason and human rationality and other related things It s a meta study that personally fascinates this author Why are humans rational beings Why is there logic and other kinds of order Why is there intelligibility The self evident existence of reason logic and intelligibility are strong evidence for God Reason is an undeniable human faculty that defines humanness and points to a rational universe This in turn points to the principle of reason or the logos developed by Heraclitus and other Greek philosophers and later by the Apostle John Reason and its corollaries emerge like aspects of language and complement each other like speaking and listening Indeed mutual communication works because of reciprocity which is a root form of intelligibility This seems to be the structure or order which is best explained by a rational divine Mind that exists eternally in reciprocal complementarity This then is an exploration of the role of the Logos principle in the human experience and condition we often refer to as Reality It is an attempt to answer these four questions and others related to it Why do reason and logic work Why do we believe and trust in them Why do we expect things to make sense Why does anything make sense at all **Reason, Faith and History** Martin Stone, 2016-04-08 Spanning the breadth of philosophical historical and theological interests articulated in the work of Paul Helm including chapters on Calvinism philosophical theology philosophy of mind Christian Doctrine and epistemology Reason Faith and History offers an accessible text for students of contemporary philosophy of religion as well as those interested in philosophical theology more broadly Reason Faith and History offers a unique collection of essays on key topics in the philosophy of religion Published in honour of Paul Helm a major force in contemporary English speaking philosophy of religion this book presents newly commissioned chapters by distinguished philosophers and theologians from North America Israel the UK and Continental Europe Contributors include Robertson Trueman Hughes Swinburne Torrance Clark Robinson Pink Gellman Cross Byrne Hossack and Crisp **The Birth of Modern Belief** Ethan H. Shagan, 2021-05-04 An illuminating history of how religious belief lost its uncontested status in the West This landmark book traces the history of belief in the Christian West from the Middle Ages to the Enlightenment revealing for the first time how a distinctively modern category of belief came into being Ethan Shagan focuses not on what people believed which is the normal concern of Reformation history but on the more fundamental question of what people took belief to be Shagan shows how religious belief enjoyed a special prestige in medieval Europe one that set it apart from

judgment opinion and the evidence of the senses But with the outbreak of the Protestant Reformation the question of just what kind of knowledge religious belief was and how it related to more mundane ways of knowing was forced into the open As the warring churches fought over the answer each claimed belief as their exclusive possession insisting that their rivals were unbelievers Shagan challenges the common notion that modern belief was a gift of the Reformation showing how it was as much a reaction against Luther and Calvin as it was against the Council of Trent He describes how dissidents on both sides came to regard religious belief as something that needed to be justified by individual judgment evidence and argument Brilliantly illuminating *The Birth of Modern Belief* demonstrates how belief came to occupy such an ambivalent place in the modern world becoming the essential category by which we express our judgments about science society and the sacred but at the expense of the unique status religion once enjoyed

Varieties of Belief Paul Helm, 2013-12-19 First published in 2002 This is Volume IV of seven in the Library of Philosophy series on the Philosophy of Religion The Library of Philosophy was designed as a contribution to the History of Modern Philosophy under the heads first of Different schools of Thought Sensationalist Realist Idealist Intuitivist secondly of different Subjects Psychology Ethics Aesthetics Political Philosophy Theology Written in 1973 work in the philosophy of religion in the last thirty years has focused increasingly on the language of religion Too often it seems that unless one happens to share the particular religious outlook of the writer religious or theological premises are being made to yield philosophical conclusions There is an obvious need for a less question begging procedure one that separates the philosophy from the religion The aim of the study is to make a point about philosophical methodology no grounds are offered for preferring one analysis of religious belief to another

Agnosticism Robert Flint, 1903 *Faith Within Reason* Herbert McCabe, 2007-03-10 Is it possible to think about religious beliefs philosophically Can theologians learn from philosophers Can philosophers learn from theologians Is it possible to be both a good Christian and a good thinker This book examines the nature of religious belief especially belief in God with an eye on both theological and philosophical arguments

Atheism George H. Smith, 2010-11-02 Does a god exist This question has undoubtedly been asked in one form or another since man has had the ability to communicate Thousands of volumes have been written on the subject of a god and the vast majority have answered the questions with a resounding Yes You are about to read a minority viewpoint With this intriguing introduction George H Smith sets out to demolish what he considers the most widespread and destructive of all the myths devised by man the concept of a supreme being With painstaking scholarship and rigorous arguments Mr Smith examines dissects and refutes the myriad proofs offered by theists the defenses of sophisticated professional theologians as well as the average religious layman He explores the historical and psychological havoc wrought by religion in general and concludes that religious belief cannot have any place in the life of modern rational man It is not my purpose to convert people to atheism but to demonstrate that the belief in God is irrational to the point of absurdity If a person wishes to continue believing in a god that is his prerogative but he can no longer excuse his belief in the name of
