Reason And God Encounters Of Philosophy With Religion:

Reason and God John E. Smith, 1967 **Reason and God** John Edwin Smith, 1961 The Humanity of Christ and the Healing of the Dysfunction of the Human Spirit Donald L. Alexander, 2015-08-13 The book represents a personal quest in what Anselm referred to as faith seeking understanding The primary focus centers on proposing an interpretation of the nature and function of the human spirit and its relationship to the divine spirit and the living of a godly Christian life Thus the book has a dual concern namely an academic one and a spiritual one The undergirding premise is that apart of the human spirit the divine spirit is personally unknowable This premise contains the following supporting concepts First the core of human personhood resides in the human spirit and constitutes the unique capacity for personal self relatedness Second as the result of humanity's idolatrous displacement of God a radical reversal occurred with the human spirit When restored to its original relationship with the divine spirit the human spirit as James Loder writes is called out of its futility and perversity into the light and truth of the divine spirit C.S. Peirce and the Nested Continua Model of Religious Interpretation Gary Slater, 2015-11-26 This study develops resources in the work of Charles S Peirce 1839 1914 for the purposes of contemporary philosophy It contextualizes Peirce's prevailing influences and provides greater context in relation to the currents of nineteenth century thought Dr Gary Slater articulates a nested continua model for theological interpretation which is indebted to Peirce's creation of Existential Graphs a system of diagrams designed to provide visual representation of the process of human reasoning He investigates how the model can be applied by looking at recent debates in historiography He deals respectively with Peter Ochs and Robert C Neville as contemporary manifestations of Peircean philosophical theology This work concludes with an assessment of the model's theological implications **Maynard Adams** Glenn Blackburn, 2009 Maynard Adams 1919 2003 was a profound philosopher and civic humanist at the University of North Carolina Chapel Hill A major intellectual figure of the second half of the twentieth century Adams developed a comprehensive philosophy of civilization that applies to all humanity but has a distinctly Southern dimension God in the Wasteland David F. Wells, 1994 In this sequel to the widely praised No Place for Truth David Wells calls for the restoration of the church based on a fresh encounter with the transcendent God By looking anew at the way God's transcendence and immanence have been taken captive by modern appetites Wells argues convincingly for a reform of the evangelical world A Korean Theology of Human Nature Jung-Sun Oh, 2005 This remarkable study articulates a Korean Confucian Christian theory of human nature encompassing the theory of justification sanctification and salvation by means of a reformed concept of filial piety The book presents the theological anthropology of Robert C Neville and the inclusive humanism of Tu Wei ming as critical guides for the creation of a comparative contemporary Korean theology **Aquinas on Simplicity** Peter Weigel, 2008 Peter Weigel offers an in depth examination of what divine simplicity means for Aquinas and how he argues for its claims Simplicity and other divine predicates are analysed within the larger metaphysical and semantic framework surrounding Aquinas philosophy

of God *Being in America* Brian G Henning, David Kovacs, 2014-04-10 Since its founding in 1950 the Metaphysical Society of America has remained a pluralistic community dedicated to rigorous philosophical inquiry into the most basic metaphysical questions At each year's conference the presidential address offers original insights into metaphysical questions Both the insights and the questions are as perennial as they are relevant to contemporary philosophers This volume collects eighteen of the finest representatives from those presidential addresses including contributions from George Allan Richard Bernstein Norris Clarke Vincent Colapietro Frederick Ferr J Jorge J E Gracia Joseph Grange Marjorie Grene George Klubertanz Ivor Leclerc Ralph McInerny Ernan McMullin Joseph Owens John Herman Randall Jr Nicholas Rescher Stanley Rosen John E Smith and Robert Sokolowski Also included are Paul Weiss's inaugural address to the Society an introduction chronicling the history of the Society and an original Foreword by William Desmond and Epilogue by Robert Neville

The Highroad Around Modernism Robert C. Neville, 1992-01-01 Discussions of modernism and postmodernism in philosophy and the arts are usually based on a narrow reading of the Western tradition and are not conscious of the narrowness The modern period beginning with the European Renaissance spawned many developments not just the modernist one in terms of which the tradition has been read From the standpoint of the highroad around modernism both modernism and post modernism look like nothing more than two late modern movements perhaps too preoccupied with themselves and their historical place to engage a swiftly changing world containing more than the Western tradition The Highroad Around Modernism develops and defends an explicitly non modernist and non postmodernist extension of modernity applicable to the problems of world wide cultural interactions *Religion* Robert Cummings Neville, 2015-01-08 Complete 3 volume set available for special price Philosophical Theology Set Volumes 1 2 and 3 The concluding volume in a trilogy advancing a systematic philosophical theology this book presents a plausible sacred worldview for religious participation Religion is the third and final volume in Robert Cummings Neville's systematic development of a new philosophical theology Unfolding through his earlier volumes Ultimates and Existence and now in Religion philosophical theology considers first order questions generally treated by religious traditions through philosophical methods while reflecting Neville's long engagement with philosophy theology and Eastern and Western religious traditions In this capstone to the trilogy Neville provides a theory of religion and presents a sacred worldview to guide religious participation His philosophical theory of value enlightens religions approaches to ethics spirituality and religious institutional living and collaboration With a detailed examination of plausibility conditions for sacred worldviews the book concludes with an exploration of religionless religion for which institutions of religion are of penultimate value Through the development of philosophical theology Neville has built a unique multidisciplinary comparative nonconfessional theological system one that addresses concerns and provides tools for scientific and humanistic scholars of religion postmodern thinkers intellectuals from both secular and religious backgrounds and those interested in the global state of religion today God the Creator

Robert Cummings Neville, 1992-02-13 *God the Creator* provides a detailed exposition of a conception of God as the creator of everything determinate. It does not defend an established conception such as the Thomist, the Calvinist, or the Process theological idea but rather elaborates the ancient theme of creation ex nihilo in a new form appropriate to the contemporary world. Part one is a rigorous philosophical development of the idea of God as creator ex nihilo, arguing that an adequate solution to the problem of the one and the many demands such a conception. This part includes a dialectical examination of contemporary and classical theories of being. Part two asks how one can have knowledge of the kind of God described previously; it deals with experience, analogy, and dialectic. Part three applies the conception developed in part one to fundamental religious conceptions such as the object of worship, the nature of religion, and the practices of private and public religious life. It presents theories arising from the conception of creation ex nihilo for the interpretation of religious concern, conversion, faith, certainty, solitude, bliss, service, liturgy, providence, evangelism, dedication, reconciliation, brotherhood, discipline, the integration of public and private religion, relative to other dimensions of life, freedom, love, and glory. Though the language arises from the Christian tradition and expresses an orthodox strand of that religion, the argument weaves throughout the concerns of many world religions.

Behind the Masks of God Robert C. Neville, 1991-01-01 *Behind the Masks of God* develops an abstract concept of creation ex nihilo to compare and contextualize many of the symbols and more concrete ideas of divinity in world religions. The first focus is Christianity, and the book is put forward as an essay in Christian theology. In addition, the essay asks how creation ex nihilo serves to relate Christianity to other religions, particularly those of China. Neville addresses both Buddhism and Christianity and, to a lesser extent, Taoism as test cases for the applicability of creation ex nihilo as a fundamental comparative category for connecting theistic religions with non-theistic ones.

Biographical Dictionary of Twentieth-Century Philosophers Stuart Brown, Diane Collinson, Robert Wilkinson, 2012-09-10 This *Biographical Dictionary* provides detailed accounts of the lives, works, influence, and reception of thinkers from all the major philosophical schools and traditions of the twentieth century. This unique volume covers the lives and careers of thinkers from all areas of philosophy, from analytic philosophy to Zen and from formal logic to aesthetics. All the major figures of philosophy, such as Nietzsche, Wittgenstein, and Russell, are examined and analysed. The scope of the work is not merely restricted to the major figures in western philosophy but also covers in depth a significant number of thinkers from the near and far east and from the non-European, Hispanic language communities. The *Biographical Dictionary* also includes a number of general entries dealing with important schools of philosophy, such as the Vienna Circle, or currents of thought such as vitalism. These allow the reader to set the individual biographies in the context of the philosophical history of the period. With entries written by over 100 leading philosophy scholars, the *Biographical Dictionary* is the most comprehensive survey of twentieth-century thinkers to date.

Structure The book is structured alphabetically by philosopher. Each entry is identically structured for ease of access and covers nationality, dates, and places of birth and death.

McClay,2007-01-02 *Figures in the Carpet* presents a stellar roster of first rate historians dealing seriously with a perennially important subject The case studies and more theoretical accounts in this book amount to an unusually perceptive assessment of how the person has been viewed in American history *Comprehensive Commentary on Kant's Religion Within the Bounds of Bare Reason* Stephen R. Palmquist,2015-12-21 Palmquist s Commentary provides the first definitive clarification on Kant s Philosophy of Religion in English it includes the full text of Pluhar s translation interspersed with explanations providing both a detailed overview and an original interpretation of Kant s work Offers definitive sentence level commentary on Kant s Religion within the Bounds of Bare Reason Presents a thoroughly revised version of Pluhar s translation of the full text of Kant s Religion including detailed notes comparing the translation with the others still in use today Identifies most of the several hundred changes Kant made to the second 1794 edition and unearths evidence that many major changes were responses to criticisms of the first edition Provides both a detailed overview and original interpretation of Kant s work on the philosophy of religion Demonstrates that Kant s arguments in Religion are not only cogent but have clear and profound practical applications to the way religion is actually practiced in the world today Includes a glossary aimed at justifying new translations of key technical terms in Religion many of which have previously neglected religious and theological implications **Philosophy of religion** Orestes Augustus Brownson,1883 Kant and Theology at the Boundaries of Reason Chris L. Firestone,2016-04-22 This book examines the transcendental dimension of

Kant's philosophy as a positive resource for theology Firestone shows that Kant's philosophy establishes three distinct grounds for transcendental theology and then evaluates the form and content of theology that emerges when Christian theologians adopt these grounds To understand Kant's philosophy as a completed process Firestone argues theologians must go beyond the strictures of Kant's critical philosophy proper and consider in its fullness the transcendental significance of what Kant calls rational religious faith This movement takes us into the promising but highly treacherous waters of Kant's Religion within the Boundaries of Mere Reason to understand theology at the transcendental bounds of reason
