Reason And The Contours Of Faith:

Reason & the Contours of Faith Richard Rice,2013-05-17 Can reason and religion get together Should believers think Can thinking people believe Does religion have to make sense Does careful thinking help or hinder religious experience People have wrestled with such questions for hundreds of years and they are just as perplexing today as ever Reason the Contours of Faith explores the wide ranging issues these questions raise from biblical interpretation and proofs for God s existence to the nature of religious conversion Its central purpose is to find an alternative to both fideism the idea that reason has nothing to do with faith and rationalism the conviction that reason has everything to do with it Part One Reason and the Contents of Faith argues that reason contributes in important but limited ways to our understanding of religion Part Two Reason and the Experience of Faith shows that reason can support religious commitment but never produces it

Reason and the Contours of Faith Richard Rice, 1991-01-01 Creation, Catastrophe & Calvary John Templeton Baldwin, 2000 In this scientific age what difference does it make whether I believe the world was created in six literal days and that the world was destroyed by a global flood In answering these questions Creation Catastrophe and Calvary shows how these beliefs are related to key issues such as the forgiveness of our sins and Sabbath observance Foreword Introduction Meet the Authors An Angel s Worldview The Days of Creation in Genesis 1 A Second Creation Account Biblical Evidence for the Universality of the Genesis Flood The Grand Canyon and the Genesis Flood The Geologic Column and Calvary The Rainbow Connection Implications for an Evangelical Understanding of the Atonement Evolution A Theory in Crisis The Role of Creation in Seventh day Adventist Theology Science and Theology Focusing the Complementary Lights of Jesus Scripture Faith and Reason Anthony Fisher, Hayden Ramsay, 2004 The first in a new series with Australian Catholic and Nature University this collection of essays deals with two important themes Faith and reason are heavily weighted words They point to elemental aspects of human existence The papers and discussions presented strive to clarify and corelate these basic activities or dimensions of human beings In all the complexities of the possible relationships and interweaving of faith and reason two kinds of questions keep recurring One the one hand what is the value of human intelligence and how is it endorsed and supported by faith On the other hand what is the distinctive intelligence or rationality of faith and how does it relate to the perennial search for wisdom represented in it various philosophical forms Contributors include Marilyn McCord Adams Raimond Gaita John Haldane John McDermott SJ Kevin Hart and Anthony Kelly CSsR Faith Has Its Reasons Kenneth Boa, Robert M. Bowman Jr., 2012-01-05 A most accessible but thoroughly practical primer on apologetics The **God Who Trusts** Wm. Curtis Holtzen, 2019-12-10 The Bible resounds with affirmations that God is faithful and trustworthy But might he also exhibit faith and trust Wm Curtis Holtzen contends that because God is a being of relational love and exists in relationship with humans then God is a God who trusts Holtzen argues that understanding the relationship between divine trust and human faith can give us a fuller truer picture of who God is and who we are On Faith and Reason Saint Thomas

Faith,

Reason, and Beyond Reason Mark J. Boone, 2024-07-16 The relationship between faith and reason is multifaceted Faith transcends reason in that it is more than reason alone can contain or fully guarantee yet it is neither unreasonable nor something to which reason is irrelevant and reason says some pretty fine things about it This volume updates nine previously published articles on faith and reason by a Christian philosopher who has been studying these matters for two decades alongside one new essay and a philosophical dialogue These articles explain and integrate key ideas on faith and reason including Alvin Plantinga's account of how Christian belief can be knowledge even without evidence defenses of faith from Augustine and William James accounts of empirical evidence for faith from different world religions the distinction between faith and sight in the New Testament the structure of the evidence for the authority of the Bible the idea that faith transcends reason because some articles of faith are beyond human comprehension even if we have evidence that they are true and the nature of faith as a total commitment beyond what the evidence alone can guarantee Reasoning from Faith Justin Sands, 2018-01-16 An enlightening commentary on Merold Westphal's intricate thought and provokes new questions concerning the original project of his diverse philosophy B Keith Putt editor of The Future of Continental Philosophy of Religion Merold Westphal is considered to be one of the preeminent Continental philosophers of religion His articulation of faith as the task of a lifetime has become a touchstone in contemporary debates concerning faith s relationship to reason As Justin Sands explores his philosophy he illuminates how Westphal's concept of faith reveals the pastoral theological intent behind his thinking Sands sees Westphal's philosophy as a powerful articulation of Protestant theology but one that is in ecumenical dialogue with guestions concerning apologetics and faith s relationship to ethics and responsibility a more Catholic point of view By bringing out these features in Westphal's philosophy Sands intends to find core philosophical methodologies as well as a passable bridge for philosophers to cross over into theological discourses An engaging and illuminating work William Desmond David Cook Chair in Philosophy Villanova University Professor of Philosophy Institute of Philosophy KU Leuven Belgium A long overdue critical homage to one of the bravest religious thinkers of our generation Richard Kearney Charles B Seelig Chair of Philosophy at Boston College Kierkegaard's Dancing Tax Collector Sheridan Hough, 2015-08-20 Kierkegaard's account of the life of faith turns on an astonishing claim a person living faithfully continually enjoys and takes part in everything What can this assertion actually mean The pseudonymous author of Fear and Trembling Johannes de silentio imagines what such a human being might look like indeed as de silentio puts it He looks just like a tax collector This seemingly ordinary person in his movements of faith finds infinite significance and an absorbing joy in his environment from moment to moment How does he do it This characterization of faithful comportment is unique in the Kierkegaardian corpus and becomes the tantalizing centerpiece of an exploration of the Kierkegaardian self Sheridan Hough embarks on a groundbreaking existential phenomenological investigation of the uncanny abilities of the faithful life through an analysis of Kierkegaard's spheres of existence each sphere reveals a specific kind of significance and indeed a way of

being in the world Hough employs a distinctively original narrative voice one that examines Kierkegaard's ontology from the perspective of his pseudonymous voices and from the characters that they create This approach is both descriptive and diagnostic by understanding what someone living out an aesthetic ethical or a religious existence seeks to achieve the phenomenon of the faithful life and its demands comes into sharper focus This faith is not simply some thought about God s greatness indeed the propositional content of faith is a central issue of the book Instead Hough argues that Kierkegaardian faith is the hallmark of the fullest flowering of a human life one achieved in ways only hinted at in the demeanor of the cheerful and enigmatic tax collector an existential task in which temporality finitude is what it is all about **Faith** S.H. Smith, 2014-07-11 The material here was originally intended as a third section in Smiths previous offering The Problem of God but took on a life of its own to become a separate work The Problem of Faith is thus a sequel to the former work and deals with those questions with which all thinking believers wrestle the nature of religious language evil and the God of love the concept of miracles and of prayer the relationship between faith and reason life after death and the problem of hell The aim is to encourage the reader to engage afresh with these essential issues **Andrews University Seminary** Studies Andrews University. Seventh-Day Adventist Theological Seminary, 1993 The Spark of Faith Fr. Wojciech Giertych, 2018-06-28 Faith is essential to our spiritual growth yet too often good Catholics hold misconceptions about faith s meaning or role misconceptions that can lead to spiritual stagnation In these pages Fr Wojciech Giertych OP Theologian of the Papal Household corrects prominent errors and clearly articulates what faith is how it works and how it may expand or wither within our soul He explains that the initial moment the spark of faith which ignites our entire spiritual life comes first from God Because faith is a divine gift that is alive we can explore the laws of its development and learn the principles of its nourishment in order to fully live a life of faith that influences our intellectual and moral life Fr Giertych's moving and practical reflections on the spiritual life bring ancient wisdom to bear on our modern age teaching what it really means to have and grow in faith You ll come to understand the proper relationship between faith and reason and you ll deepen your understanding of the role of prayer in the life of faith The Spark of Faith will help you focus your attention on God as the fundamental source of all the spiritual goods we need and cherish Fr Giertych has served as the Theologian of the Papal Household for two popes His is wisdom you can trust Religion and European Philosophy Philip Goodchild, Hollis Phelps, 2017-04-13 Religion and European Philosophy Key Thinkers from Kant to i ek draws together a diverse group of scholars in theology religious studies and philosophy to discuss the role that religion plays among key figures in the European philosophical tradition Designed for accessibility each of the thirty four chapters includes background information on the key thinker an overview of the main themes concepts and concerns that occupy his or her attention and a discussion of the religious and theological elements present in his or her thought in light of contemporary issues Given the scope of the volume Religion and European Philosophy will be the go to guide for understanding the religious and theological dimensions

of European philosophy for both students and established researchers alike The Heart Has Its Reasons Beata Toth, 2016-05-26 The Heart Has Its Reasons explores a hitherto neglected area of theological anthropology the unity of human emotion and reason embodied in the Biblical concept of the heart While the theological contours of human rationality have long been clearlydrawn and presented as the exclusive seat of the image of God affectivity has been relegated to a secondary position With the reintegration of the body into recent philosophical and theological discourses a number of questions have arisen if theimage also resides in the body how does this change one s view of the theological significance of human affect In what way is our likeness to God realised in the whole of what we are Can one overcome the traditional dissociation between intellect and affect by a renewed theory of love In conversation with patristic and medieval authors like Irenaeus Tertullian Gregory of Nyssa Maximus and Thomas Aquinas and in dialogue with more recent interlocutors such as Blaise Pascal Ricoeur Marion Milbank and John Paul II Beata Toth pursues a novel theological vision of the essential unity of our humanity
