Reasonable Children Moral Education And Moral Learning:

Reasonable Children Michael S. Pritchard, 1996 The public outcry for a return to moral education in our schools has raised more dust than it has dispelled Building upon his provocative ideas in *On Becoming Responsible* Michael Pritchard clears the air with a sensible plan for promoting our children's moral education through the teaching of reasonableness Pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills Reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community In such an environment children learn to work together to listen to one another to build on one another's ideas to probe assumptions and different perspectives and ultimately to think for themselves Advocating approaches to moral education that avoid mindless indoctrination and timid relativism Pritchard neither preaches nor hides behind abstractions He makes liberal use of actual classroom dialogues to illustrate children's remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truth-telling lying making and keeping promises obedience character and responsibility He also links such discussions to fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state Pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers The result is a rich and insightful work that provides real hope for the future of our children and their moral education

Cultivating Reasonableness in Education Marella Ada V. Mancenido-Bolaños, Cathlyne Joy P. Alvarez-Abarejo, Leander Penaso Marquez, 2023-09-19 This book focuses on the real world application of the Philosophy for with Children P4wC pedagogy to cultivate reasonableness in individuals through communities of philosophical inquiry It presents a collection not only of theories but more importantly of experiences discoveries and innovations on P4wC by scholars trainers advocates and practitioners around the world Each chapter provides readers with insights and lessons that have resulted from the continuous application exploration and enrichment of the concepts principles and practices that were developed by Matthew Lipman and Ann Margaret Sharp into what P4wC is today a dialogic pedagogical approach that may just be what is needed at a time when reasonableness and dialogue are essential to maintaining global stability and progress In this light this book also looks into how the P4wC approach can be practiced with adults such as when it is employed in various settings or contexts such as in business consulting textbook writing peace education and extremism prevention among others Furthermore this book also features chapters that discuss how the P4wC pedagogy can be beneficial once integrated into processes such as classroom teaching teacher education bioethics and employee education This book provides valuable insights about how reasonableness that is cultivated through building communities of philosophical inquiry in education can be a powerful tool for nation building and social transformation

Children, Morality and Society S.

Frankel,2012-04-17 This book explores the extent to which children engage with questions of morality arguing that they are active members of society who have both the capacity and understanding to engage with discourses of morality Critical Philosophy of Race and Education Judith Suissa,Darren Chetty,2020-05-21 This volume by philosophers sociologists and historians on issues of race and racism examines central educational questions contributing to ongoing discussions amongst educational theorists philosophers and practitioners Critical Race Theory and the Critical Philosophy of Race are now well established within North American academia yet they are only recently beginning to make inroads in UK academia The wide ranging discussions in this collection explore conceptual ethical political and epistemological aspects of race and racism in the context of discussions of pedagogy curriculum and education policy across a range of educational settings The questions and issues addressed include why and how issues of race play out differently in different national and social contexts the impact of the legacies of empire and colonialism on philosophy and education the disciplinary boundaries and practices of academic philosophy the philosophical canon racial identities and their role in educational processes diversity and difference in educational practices and curricula whiteness and institutional racism and the pedagogical issues raised by teaching young children about race and racism This book was originally published as a special issue of Ethics and Education

Resources in Education ,1997 A Companion to the Philosophy of Education Randall Curren,2008-04-15 A Companion to the Philosophy of Education is a comprehensive guide to philosophical thinking about education Offers a state of the art account of current and controversial issues in education including issues pertaining to multiculturalism special education sex education and academic freedom Written by an international team of leading experts who are directly engaged with these profound and complex educational problems Serves as an indispensable guide to the field of philosophy of education *Young Children's Rights* Priscilla Alderson,2008-03-15 This readable informative and thought provoking book is a compelling invitation to rethink our attitudes to young children s rights in the light of new theories research and practical evidence about children s daily lives It will be of interest to anyone who works with young children **Encyclopedia of Ethics** Lawrence C. Becker,Charlotte B. Becker,2013-10-18 The editors working with a team of 325 renowned authorities in the field of ethics have revised expanded and updated this classic encyclopedia Along with the addition of 150 new entries all of the original articles have been newly peer reviewed and revised bibliographies have been updated throughout and the overall design of the work has been enhanced for easier access to cross references and other reference features New entries include Cheating Dirty hands Gay ethics Holocaust Journalism Political correctness and many more Identity, Reasonableness and Being One Among Others Laurance Joseph Splitter,2023-01-01 This book brings the tools and ideas of Anglo American analytic philosophy to bear on how we think about issues of contemporary significance in a way that is accessible to a broad audience While acknowledging empirical findings within the social sciences it takes on the prescriptive task of imagining a better world in which being citizens in a democracy means actively engaging with others We cling to

tribal affiliations which incline us to look inward and spurn those whom we deem to be other And we observe the mind numbing herd like impact of social and other media on our capacity and that of our children to distinguish truth and good sense from falsehood and nonsense Such problems demand our attention as reasonable persons who both think for themselves and deliberate in good faith with others with whom they may well disagree The good news is that while reasonableness cannot be taken for granted it can indeed it must be nurtured and it must be taught This book both articulates a conception of reasonableness and exemplifies a clear standard of reasonableness with respect to the questions it raises and the author s responses to them *Learning to Belong* , Having and Raising Children Uma

Narayan,2010-11-01 As the term family values achieves prominence in the rhetoric of political debate the social issues at the heart of today s political controversies deserve to be studied in depth This volume brings together a group of philosophers political scientists and legal scholars to explore a wide range of specific topics dealing with the legal ethical and political dimensions of familial relationships Topics addressed include the rights of unwed fathers the nature of children s autonomy children s rights to divorce their parents parental rights with respect to medical treatment and religious education of children surrogate parenting same sex parenting and single parent families Collectively the essays point out that many contemporary issues pertaining to the having and raising of children pose genuinely hard choices for public policy makers for those who make and enforce the laws and for citizens who would like to engage in informed and critical democratic debate on these issues Vouchers within Reason James G. Dwyer,2018-10-18 Observing the storm of recent debates around school vouchers James G Dwyer concludes that the welfare of children has been routinely subordinated to the interests and supposed rights of various groups of adults parents teachers taxpayers and advocates for ideological causes Dwyer argues that a truly child centered approach to education reform would yield dramatically different conclusions regarding the morality and constitutionality of government initiatives to improve public and private schooling in America Dwyer makes the case that state funding of religious and other private schools is not only permissible but mandatory as a moral and constitutional right of the children already in private schools In Vouchers within Reason he also demonstrates the necessity of attaching to that funding robust standards for the content and nature of instruction and for treatment of students These are just the sort of regulatory strings that most current supporters of vouchers fear In the author s view vouchers represent an opportunity for states to accomplish what they have been unable to do in the past namely to bring academic accountability to religious schools many of which fail to provide a good secular education He sees voucher programs that are now in place as morally irresponsible and clearly unconstitutional however because they require almost nothing of recipient schools in return for the funding This book reorients the hot topic of universal school vouchers in a new and vital direction that may change the minds of scholars educators and policymakers alike *Readings for Learning to Teach in the Secondary School* Susan Capel,Marilyn Leask,Tony Turner,2013-01-11 *Readings for Learning to Teach in the Secondary School* brings together

key articles to develop and support student teachers understanding of the theory research and evidence base that underpins effective practice Designed for all students engaging with M Level study each reading is contextualised and includes questions to encourage reflection and help you engage with material critically Annotated further reading for every section supports your own research and writing Readings are structured to make links with the practical guidance in the accompanying core textbook Learning to Teach in the Secondary School Topics covered include motivation troublesome classroom behaviour ability grouping inclusive education personalised learning testing achievement and underachievement Edited by the team that brings us Learning to Teach in the Secondary School this Reader is an indispensable one stop resource that will support all students studying researching and writing at M level on PGCE courses as well as those on all other secondary education courses and masters degrees

Living Well Now and in the Future Randall Curren, Ellen Metzger, 2018-02-02 A philosopher and a scientist propose that sustainability can be understood as living well together without diminishing opportunity to live well in the future Most people acknowledge the profound importance of sustainability but few can define it We are ethically bound to live sustainably for the sake of future generations but what does that mean In this book Randall Curren a philosopher and Ellen Metzger a scientist clarify normative aspects of sustainability Combining their perspectives they propose that sustainability can be understood as the art of living well together without diminishing opportunity to live well in the future Curren and Metzger lay out the nature and value of sustainability survey the problems catalog the obstacles and identify the kind of efforts needed to overcome them They formulate an ethic of sustainability with lessons for government organizations and individuals and illustrate key ideas with three case studies Curren and Metzger put intergenerational justice at the heart of sustainability discuss the need for fair as opposed to coercive terms of cooperation to create norms institutions and practices conducive to sustainability formulate a framework for a fundamental ethic of sustainability derived from core components of common morality and emphasize the importance of sustainability education The three illustrative case studies focus on the management of energy water and food systems examining the 2010 Gulf of Mexico oil spill Australia's National Water Management System and patterns of food production in the Mekong region of Southeast Asia

Promoting Family Wellness and Preventing Child Maltreatment Isaac Prilleltensky, Geoffrey Brian Nelson, Leslea Peirson, 2001-01-01 Deals with the promotion of emotional well being in families and the prevention of child maltreatment Values policies and resources are examined as both facilitators of and barriers to effective action

Education, Justice & Democracy Danielle Allen, Rob Reich, 2022-12-22 Education is a contested topic and not just politically For years scholars have approached it from two different points of view one empirical focused on explanations for student and school success and failure and the other philosophical focused on education's value and purpose within the larger society Rarely have these separate approaches been brought into the same conversation Education Justice and Democracy does just that offering an intensive discussion by highly respected scholars across empirical and philosophical

disciplines The contributors explore how the institutions and practices of education can support democracy by creating the conditions for equal citizenship and egalitarian empowerment and how they can advance justice by securing social mobility and cultivating the talents and interests of every individual Then the authors evaluate constraints on achieving the goals of democracy and justice in the educational arena and identify strategies that we can employ to work through or around those constraints More than a thorough compendium on a timely and contested topic Education Justice and Democracy exhibits an entirely new more deeply composed way of thinking about education as a whole and its importance to a good society

Education for Values: Morals, Ethics and Citizenship in Contemporary Teaching Jo Cairns, Roy Gardner, Denis Lawton, 2013-05-13 Values in education in terms of both how they are taught and of the ethics of teaching itself are an area of lively debate This text provides a resource of ideas issues and practice for all those with an interest in this area of education

Justifying Emotions Kristjan Kristjansson, 2003-08-27 The two central emotions of pride and jealousy have long been held to have no role in moral judgements and have been a source of controversy in both ethics and moral psychology Kristjan Kristjansson challenges this common view and argues that emotions are central to moral excellence and that both pride and jealousy are indeed ingredients of a well rounded virtuous life

Grappling with the Good Robert Kunzman, 2012-02-01 2007 CHOICE Outstanding Academic Title Weaving together history philosophy and curriculum Grappling with the Good offers a vision of public education in which students learn to engage respectfully with the diversity of beliefs about how to live together in society Robert Kunzman argues that we can and should help students learn how to talk about religion and morality and bring together our differing visions of life He describes how such an approach might work in the K 12 setting explores central philosophical principles and shares his ongoing experiences and insights in helping students to grapple with the good

Philosophical Perspectives on Communalism and Morality in African Traditions Polycarp Ikuenobe, 2006-01-01 This book examines the idea of communalism in African cultures as a dominant philosophical theme that provides the conceptual foundation for African traditional moral thoughts moral education values beliefs conceptions of reality practices ways of life and the now popular African saying it takes a village to raise a child It defends communalism against various criticisms and argues that when properly understood and harnessed it could provide the necessary foundation for Africa s development
