Reasons Faiths

**Aristotle Papanikolaou, George E.
Demacopoulos**

Reasons Faiths:

Faith and Reason Anthony Fisher, Hayden Ramsay, 2004 The first in a new series with Australian Catholic University this collection of essays deals with two important themes Faith and reason are heavily weighted words They point to elemental aspects of human existence The papers and discussions presented strive to clarify and correlate these basic activities or dimensions of human beings In all the complexities of the possible relationships and interweaving of faith and reason two kinds of questions keep recurring One the one hand what is the value of human intelligence and how is it endorsed and supported by faith On the other hand what is the distinctive intelligence or rationality of faith and how does it relate to the perennial search for wisdom represented in its various philosophical forms Contributors include Marilyn McCord Adams Raimond Gaita John Haldane John McDermott SJ Kevin Hart and Anthony Kelly CSsR **Faith and Reason** Nigel Zimmermann, Sandra Lynch, 2021-10-12 What is the fruit of a searching dialogue between faith and reason This book collects theological and philosophical perspectives on the richness of the faith reason dialogue including examples from literature continental and analytic philosophy worship and liturgy and radical approaches to issues of racism and prejudice The authors strongly resist the temptations to either disregard the faith reason dialogue or take it for granted Through their explorations and reflections they open up new vistas and horizons on a topic more necessary than ever **Reason and the Rule of Faith** Christopher J. Thompson, Steven A. Long, 2010-11-04 Inspired by the Catholic intellectual tradition these essays are the fruit of a series of seminars sponsored by the Center for Catholic Studies and the Saint Paul Seminary School of Divinity at the University of St Thomas in Saint Paul Minnesota With a special focus on the works of John Paul II especially Veritatis Splendor and Fides et Ratio the authors bring to light a host of considerations that set the work of his pontificate within the illuminating light of the living intellectual tradition *Faith, Reason and the Existence of God* Denys Turner, 2004-09-16 The proposition that the existence of God is demonstrable by rational argument is doubted by nearly all philosophical opinion today and is thought by most Christian theologians to be incompatible with Christian faith This book argues that on the contrary there are reasons of faith why in principle the existence of God should be thought rationally demonstrable and that it is worthwhile revisiting the theology of Thomas Aquinas to see why this is so The book further suggests that philosophical objections to proofs of God's existence rely upon an attenuated and impoverished conception of reason which theologians of all monotheistic traditions might wish to reject Denys Turner proposes that on a broader and deeper conception of it human rationality is open to the sacramental shape of creation as such and in its exercise of rational proof of God it in some way participates in that sacramentality of all things *Faith and Reason from Plato to Plantinga* Dewey J. Hoitenga, 1991-01-01 Analyse Contient un chapitre sur la connaissance de Dieu dans la théologie de Calvin **Faith and Reason** Donald A. Crosby, 2012-01-02 Few words are as widely misconceived as the word faith Faith is often set in stark opposition to reason considered antithetical to scientific thought and heavily identified with religion Donald Crosby's revealing book provides a

more complex picture discussing faith and its connection to the whole of human life and human knowledge Crosby writes about that existential faith that underlies shapes and supports a person's life and its sense of purpose and direction Such faith does not make a person religious and being secular does not mean one rejects all forms of faith Throughout the book Crosby makes the case that faith is fundamentally involved in all processes of reasoning and that reason is an essential part of all dependable forms of faith Crosby elaborates the major components of faith and goes on to look at the mutually dependent relationships between faith and knowledge faith and scientific knowledge and faith and morality The work's final chapters examine crises of faith among several noted thinkers as well as the author's own journey of faith from plans for the ministry to pastor to secular philosopher and religious naturalist

Reason and Faith Henry Rogers, 1850

Faith, Reason, and Beyond Reason Mark J. Boone, 2024-07-16 The relationship between faith and reason is multifaceted Faith transcends reason in that it is more than reason alone can contain or fully guarantee yet it is neither unreasonable nor something to which reason is irrelevant and reason says some pretty fine things about it This volume updates nine previously published articles on faith and reason by a Christian philosopher who has been studying these matters for two decades alongside one new essay and a philosophical dialogue These articles explain and integrate key ideas on faith and reason including Alvin Plantinga's account of how Christian belief can be knowledge even without evidence defenses of faith from Augustine and William James accounts of empirical evidence for faith from different world religions the distinction between faith and sight in the New Testament the structure of the evidence for the authority of the Bible the idea that faith transcends reason because some articles of faith are beyond human comprehension even if we have evidence that they are true and the nature of faith as a total commitment beyond what the evidence alone can guarantee

Faith, Reason, and Theosis Aristotle Papanikolaou, George E. Demacopoulos, 2023-10-03 Theosis shapes contemporary Orthodox theology in two ways positively and negatively In the positive sense contemporary Orthodox theologians made theosis the thread that bound together the various aspects of theology in a coherent whole and also interpreted patristic texts which experienced a renaissance in the twentieth century even in Orthodox theology In the negative sense contemporary theologians used theosis as a triumphalistic club to beat down Catholic and Protestant Christians claiming that they rejected theosis in favor of either a rationalistic or fideistic approach to Christian life The essays collected in this volume move beyond this East West divide by examining the relation between faith reason and theosis from Orthodox Catholic and Protestant perspectives A variety of themes are addressed such as the nature grace debate and the relation of philosophy to theology through engagement with such diverse thinkers as Thomas Aquinas John Wesley Meister Eckhart Dionysius the Areopagite Symeon the New Theologian Panayiotis Nellas Vladimir Lossky Martin Luther Martin Heidegger Sergius Bulgakov John of the Cross Delores Williams Evagrius of Pontus and Hans Urs von Balthasar The essays in this book are situated within a current thinking on theosis that consists of a common albeit minimalist affirmation amidst the flow of differences The authors in this volume contribute to the

historical theological task of complicating the contemporary Orthodox narrative but they also continue the theological achievement of thinking about theosis so that all Christian traditions may be challenged to stretch and shift their understanding of theosis even amidst an ecumenical celebration of the gift of participation in the life of God

Reason and Faith, and Other Miscellanies of Henry Rogers Henry Rogers, 1853 *Faith, Reason, and Compassion* James Earl Gilman, 2007 What is the relationship between faith and reason How should faith and reason situate themselves in relation to each other These are the chief questions that James Gilman seeks to address in *Faith Reason and Compassion A Philosophy of the Christian Faith* Reason and Faith; Their Claims and Conflicts ... With Other Essays Henry Rogers (President of Lancashire Independent College, Manchester.), 1866

Law as a Leap of Faith John Gardner, 2012-09-06 In a series of essays John Gardner has developed distinctive and engaging answers to the central questions of legal philosophy cutting through the technicalities of the subject to clarify and reinvigorate the main arguments about the nature of law This volume collects that work to provide a major contribution to the literature on jurisprudence *Faith and Reason Today* Varghese J. Manimala, 2008 Faith, Reason and Theology Saint Thomas (Aquinas), Pontifical Institute of Mediaeval Studies, 1987 The topics of Questions i iv of St Thomas Aquinas Commentary on the De Trinitate of Boethius are of vital interest to the Christian philosopher and theologian Written while Aquinas was a youthful Master of Theology the Questions show his solidarity with Christian tradition his wide acquaintance with Scripture and the Fathers of the Church and his creative use of philosophy in addressing theological issues Question i treats of the possibility of our knowing God and the human limitations of this knowledge Question ii concerns theology as a science which reaches out to God by faith in his revealed word and uses philosophical reasoning to throw light on the contents of revelation In Question iii Aquinas takes up the nature of faith showing its relation to religion and its necessity for the welfare of the human race He argues for the catholicity or universality of the Christian faith and defends the orthodox teaching of the trinity of Persons in the one God Question iv turns to a set of philosophical problems occasioned by Boethius treatise on the Trinity the factors that cause a plurality in genera species and individuals In this connection Aquinas makes one of his most controversial statements of the principle of individuation

Reason, Faith and Authority in Christianity Alfred Magill Randolph, 1902 *The Comprehensive Guide to Science and Faith* William A. Dembski, Casey Luskin, Joseph M. Faith and Reason Through Christian History Grant Kaplan, 2022-08-29 It is impossible to understand the history of Christian theology without taking into account the relationship between faith and reason Many works give an overview of faith and reason or outline key principles while others put forward a thesis about how one should understand the relationship between faith and reason In this theological essay Grant Kaplan revisits the key figures and debates that shape how faith and reason relate Divided into three parts Kaplan invites readers into a conversation rather than a drive by Readers will encounter the words and arguments of some of Christianity's greatest thinkers some well known Augustine Aquinas Newman and others nearly forgotten Readings of these figures bring them to life in an accessible manner In Faith and Reason through Christian History the roughly fifty figures treated are given sufficient room to breathe Rather than simply summarizing their thought Kaplan traces their arguments through key texts This book will appeal to a range of audiences theologians and philosophers instructors graduate students seminarians lay study groups and undergraduate theology majors No book today accomplishes what this book does

Postmodernism, Reason and Religion Ernest Gellner, 1992 First Published in 1992 On questions of faith Ernest Gellner believes three ideological options are available to us today One is the return to a genuine and firm faith in a religious tradition The other is a form of relativism which abandons the notion of unique truth altogether and resigns itself to treating truth as relative to the society or culture in question The third which Gellner calls enlightenment rationalism upholds the idea that there is a unique truth but denies that any society can ever possess it definitively Learned and stimulating Professor Gellner's book is an important contribution to our understanding of postmodernism and the relations between Islam and the West It will be of great interest to anyone concerned with the ideological condition of contemporary society
