## **Reasons For The Withdrawal Of The French:**

**Reasons for the Withdrawal of the French from Mexico (Classic Reprint)** Clyde Augustus Duniway, 2018-02-20  
Excerpt from *Reasons for the Withdrawal of the French From Mexico* The relation of France to the readjustment of European national boundaries and the aggressive policy of Bismarck was another source of anxiety to Napoleon He had remained neutral in the struggle for Italian consolidation obtaining Savoy and Nice as the price of his policy And although he had not wholly abandoned his rôle of protector of the Pope he had antagonized both the papacy and Italy and repelled all other powers by the annexation His proposal to settle the disorders of Poland and the status of the Danish Duchies by a general congress had been rejected The outcome of the Schleswig Holstein war brought him face to face with the problem of the undue aggrandisement of Prussia He clearly foresaw an impending struggle for supremacy between Prussia and Austria He must be prepared for any eventualities all his forces must be well in hand if his position were to command respect and if he were to obtain substantial benefits for France Freedom from the embarrassments of the Mexican intervention might become essential to the security of French interests in the grave crisis of European complications About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

E. Littlejohn, 2025-09-18 In an age where thinking is too often restricted to its scientific exercise how better to liberate the full powers of our reason than to engage with the possibility of what exceeds them What better way to measure our progress beyond modernist metaphysics and the contemporary nihilism it generated than to discuss the question of God Written by specialists in French philosophy the essays in this volume use the question of God to identify problematic metaphysical patterns still carved into our thought as well as to reconstruct new paths for philosophy that open beyond these limitations Discussing the work of Kant Nietzsche Husserl Heidegger Heidegger Heidegger Levinas Derrida and others contributions range across topics including the influence of Neo Platonic

philosophy on theology the errors of modern rationalism and phenomenology's interest in religion Even when drawing on resources from faith traditions this French engagement with the question of God defies any simplistic attempt to relegate its efforts to theology the authors of this volume clearly demonstrate its deeply embedded relation to the history of thought and its relevance to questions central for the task of philosophy today With a special attention the work of significant philosophers less known outside of France this volume promises to deepen the Anglophone reception and understanding of contemporary French philosophy
