Reason's Muse Geneviève Fraisse, 1994-05-28 The French Revolution proclaimed the equality of all human beings yet women remained less than equal in the new society The exclusion of women at the birth of modern democracy required considerable justification and by tracing the course of this reasoning through early nineteenth century texts Geneviève Fraisse maps a moment of crisis in the history of sexual difference Through an analysis of literary religious legal philosophical and medical texts Fraisse links a range of positions on women's proper role in society to specific historical and rhetorical circumstances She shows how the Revolution marked a sharp break in the way women were represented in language as traditional bantering about the war of the sexes gave way to serious discussions of the political and social meanings of sexual difference Following this discussion on three different planes the economical the political and the biological Fraisse looks at the exclusion of women against the backdrop of democracy's inevitable lie the affirmation of an equality so abstract it was impossible to concretely apply This study of the place of sexual equality in the founding moment of democracy offers insight into a persistent question whether female emancipation is to be found through the achievement of equality with men or in the celebration of female difference *Contemporary French Feminism* Kelly Oliver, Lisa Mae-Helen Walsh, 2004-09-23 Have we entered a historical moment of post feminism This volume presents a timely and convincing no These essays demonstrate that there is a new generation of French women who take up questions of equality and difference from a position distinct from either first or second wave feminism a position that often attempts to move beyond the binary of equality and or difference to a new form of the individual **Sexing the Citizen** Judith Surkis, 2018-07-05 How did marriage come to be seen as the foundation and guarantee of social stability in Third Republic France In *Sexing the Citizen* Judith Surkis shows how masculine sexuality became central to the making of a republican social order Marriage Surkis argues affirmed the citizen's masculinity while also containing and controlling his desires This ideal offered a specific response to the problems individualism democratization and rapid technological and social change associated with France's modernity This rich wide ranging cultural and intellectual history provides important new insights into how concerns about sexuality shaped the Third Republic's pedagogical projects Educators political reformers novelists academics and medical professionals enshrined marriage as the key to eliminating the risks of social and sexual deviance posed by men especially adolescents bachelors bureaucrats soldiers and colonial subjects Debates on education reform and venereal disease reveal how seriously the social policies of the Third Republic took the need to control the unstable aspects of male sexuality Surkis's compelling analyses of republican moral philosophy and Emile Durkheim's sociology illustrate the cultural weight of these concerns and provide an original account of modern French thinking about society More broadly *Sexing the Citizen* illuminates how sexual norms continue to shape the meaning of citizenship *Gender, Sex and the Shaping of Modern Europe* Annette F. **The Moral Sex** Lieselotte Steinbrügge,1995 How was the nature of women redefined and debated during the French Enlightenment Instead of treating the Enlightenment in the usual manner as a challenge to orthodox ideas and social conventions Lieselotte Steinbrugge interprets it as a deviation from a position staked out in the seventeenth century namely the mind has no sex

**Engendering Resistance: Agency and Power in Women's Prisons** Mary Bosworth,2017-03-02 This book explores how power is negotiated in women s prisons Drawing on fieldwork conducted in three penal establishments in England it analyses how women manage the restrictions of imprisonment and the manner in which they attempt to resist institutional control It is proposed that power is negotiated on a private individual level as women often resist the institution simply by trying to maintain an image of control over their own lives However their image of themselves as active reasoning agents is undermined by institutional regimes which encourage traditional passive feminine behaviour at the same time as they deny the women their identities and responsibilities as mothers wives girlfriends and sisters Femininity is therefore both the form and the goal of women s imprisonment Yet paradoxically femininity also offers the possibility of resistance because women manage to rebel by appropriating and changing aspects of it

**Philosophy in a Feminist Voice** Janet A. Kourany, 1997-12-29 In this book Janet Kourany offers an antidote to the pervasive and pernicious strains in Western philosophy that discount women Most areas of Western philosophy tend not only to ignore women but also to perpetuate long standing antifeminine biases of the society as a whole It does not have to be this way Rather than be part of the problem philosophy can be a powerful force for much needed social change In this collection of essays by some of the most noted feminist philosophers Kourany showcases ideas on the newest work of Western philosophy that is benefiting women as well as men Included here are articles by Eileen O'Neill Louise Antony Virginia Held Susan Okin Carolyn Korsmeyer Nancy Frankenberry Lorraine Code Janet Kourany Andrea Nye and Susan Bordo all of whom show further directions in which philosophy ought to proceed This book demonstrates that feminist philosophy is not a separate area of philosophy that can safely be ignored by philosophers not in it Rather it relates to at least most of the major areas of philosophy and its gains will stand to benefit all philosophers no matter what their field

**Institutionalizing Gender** Jessie Hewitt, 2020-06-15 Institutionalizing Gender analyzes the relationship between class gender and psychiatry in France from 1789 to 1900 an era noteworthy for the creation of the psychiatric profession the development of a national asylum system and the spread of bourgeois gender values Asylum doctors in nineteenth century France promoted the notion that manliness was synonymous with rationality using this fact to pathologize non normative behaviors and confine people who did not embody mainstream gender expectations to asylums And yet this gendering of rationality also had the power to upset prevailing dynamics between men and women Jessie Hewitt argues that the ways that doctors used dominant gender values to find cures for madness inadvertently undermined both medical and masculine power in large part because the performance of gender as a pathway to health had to be taught it was not inherent Institutionalizing Gender examines a series of controversies and clinical contexts where doctors ideas about gender and class simultaneously legitimated authority and revealed unexpected opportunities for resistance Thanks to generous funding from the Andrew W Mellon Foundation through The Sustainable History Monograph Pilot the ebook editions of this book are available as Open Access volumes from Cornell Open [cornellpress.cornell.edu/cornell-open](https://cornellpress.cornell.edu/cornell-open) and other repositories

**Sex, Honor and Citizenship in Early Third Republic France** A. Mansker, 2011-10-03 A repositioning of French women s struggle for suffrage within the distinct cultural landscape of the masculine honour system Whether activists demanded admission to the popular ritual of the duel or publicly shamed men for their extramarital sexual behaviour they appropriated extralegal honour codes to enact new civic and familial identities

*Visualizing the Nation* Joan B. Landes, 2018-08-06 Popular images of women were everywhere in revolutionary France Although women s political participation was curtailed female allegories of liberty justice and the republic played a crucial role in the passage from old regime to modern society In her lavishly illustrated and gracefully written book Joan B Landes explores this paradox within the workings of revolutionary visual culture and traces the interaction between pictorial and textual political arguments Landes highlights the widespread circulation of images of the female body notwithstanding the political leadership s suspicions of the dangers of feminine influence and the seductions of visual imagery The use of caricatures and allegories contributed to the destruction of the masculinized images of hierarchic absolutism and to forging new roles for men and women in both the intimate and public arenas Landes tells the fascinating story of how the depiction of the nation as a desirable female body worked to eroticize patriotism and to bind male subjects to the nation state Despite their political subordination women too were invited to identify with the project of nationalism Recent views of the French Revolution have emphasized linguistic concerns in contrast Landes stresses the role of visual cognition in fashioning ideas of nationalism and citizenship Her book demonstrates as well that the image is often a site of

contestation as individual viewers may respond to it in unexpected even subversive ways      *The Foreign Woman in British Literature* Marilyn D. Button, Toni Reed, 1999-11-30 While England has been strengthened by a proud isolationism she has simultaneously been enriched by the economic social and political complexities that have emerged as people of different ethnic and cultural backgrounds have moved within her borders or when her own citizens have emigrated among those foreigners to live or rule This book explores the foreign element in English culture and the attempt by English writers from the early 19th to the mid 20th century to portray their complex and often ambiguous responses to that doubly foreign element among them the foreign woman While being foreign may begin with national or ethnic difference the contributors to this book expand it to include other forms of alienation from a dominant culture resulting from gender race class ideology or temperament The many factors shaping English national identity including British imperialism immigration patterns English family and social structures and English common law have been shaped by gender related issues Though not a prominent literary figure the foreign woman in England has received increasingly critical attention in recent years as a psychological and sociological phenomenon By beginning with Byron in the early 19th century and concluding with Lawrence Durrell in the 20th century this study contributes to a more comprehensive vision of the foreign woman as she is portrayed by a number of British authors including Shelley Wordsworth Charlotte Bront Elizabeth Barrett Browning Wilkie Collins George Eliot Joseph Conrad D H Lawrence and Anita Brookner      **Gender, Church and State in Early Modern Germany** Merry E. Wiesner, 2014-02-04 This text brings together eleven important pieces by Merry Wiesner several of them previously unpublished on three major areas in the study of women and gender in early modern Germany religion law and work The final chapter specially written for this volume addresses three fundamental questions Did women have a Reformation What effects did the development of capitalism have on women and Do the concepts Renaissance and Early Modern apply to women s experience The book concludes with an extensive bibliographical essay exploring both English and German scholarship
