Rebel Women:

Rebel Women Jane Eldridge Miller, 1997-03-15 With the rise of women's suffrage challenges to marriage and divorce laws and expanding opportunities for education and employment for women the early years of the twentieth century were a time of social revolution Examining British novels written in 1890-1914 Jane Eldridge Miller demonstrates how these social legal and economic changes rendered the traditional narratives of romantic desire and marital closure inadequate forcing Edwardian novelists to counter the limitations and ideological implications of those narratives with innovative strategies The original and provocative novels that resulted depict the experiences of modern women with unprecedented variety specificity and frankness Rebel Women is a major re-evaluation of Edwardian fiction and a significant contribution to literary history and criticism Miller's is the best account we have not only of Edwardian women novelists but of early 20th century women novelists the measure of her achievement is that the distinction no longer seems workable David Trotter The London Review of Books

West Africa's Trouble Spots and the Imperative for Peace-Building Osita Agbu, 2007-10-15 This monograph highlights the necessity for taking preventive measures in the form of peace building as a sustainable and long term solution to conflicts in West Africa with a special focus on the Mano River Union countries Apart from the Mano River Union countries efforts at resolving other conflicts in say Guinea Bissau Senegal Cote d'Ivoire and Nigeria have suffered from a lack of attention on the post conflict imperatives of building peace in order to ensure that sustainable peace is achieved Given the often intractable and inter related nature of conflicts in this region it argues for the need to revisit the existing mechanisms of conflict resolution in the sub region with a view to canvassing a stronger case for stakeholders towards adopting the peace building strategy as a more practical and sustainable way of avoiding wars in the sub region Peace building in consonance with its infrastructure is a more sustainable approach to ensuring regional peace and stability and therefore ensuring development for the peoples of West Africa Dr Osita Agbu is currently a Senior Research Fellow at the Nigerian Institute of International Affairs Lagos His areas of specialization include Peace and Conflict studies Governance and Democratization and Technology and Development He was until recently a Visiting Research Fellow at the Institute of Developing Economies Chiba Japan

The Southern Rock Revival Jason T. Eastman, 2017-03-16 While some people find new opportunities in the postindustrial economy many working class men find their social and economic well being collapse as blue collar jobs are outsourced and offshored to the global labor market Faced with limited options to earn a living wage many of these blue collar workers are instead changing who they are embracing a deviant rebellious identity expressed by the contemporary southern rock revival musicians studied in this book Although loosely based in the traditional culture and lifestyle of the southeastern United States contemporary southernness has little to do with region but instead is a way to rebel from the very institutions blue collar men traditionally used as the basis of their masculine pride family education employment military service and religion This contemporary form of southernness reflected in their music also involves deviance as many of these men adorn themselves with the highly controversial confederate flag binge drink alcohol brawl with one another and use drugs Combining interviews participant observation and a lyrical analysis this book explores

these aspects of rebellious southernness through music as it exists in the ideal sense and as individual men try to live up to these subcultural ideals in their daily lives The southern rock revival is a new social movement carving out a place for an alternative way to live while simultaneously perpetuating stereotypes about poor men reinforcing social disadvantage and marginalization

In Love and at War Hilary Matfess, 2024-02-07 What does it mean to be in love while at war This Element demonstrates that whether rebel groups commit themselves to marriage bar it entirely or reinterpret the ceremonies and practices associated with marriage their decision has important implications for both the rebel organization and individual members This Element contributes to the literature on gender and politics by demonstrating that rebel marriages are an under appreciated driver of gendered conflict and post conflict dynamics This Element introduces frameworks for understanding how rebel groups approach the issue of marriage suggesting that variation between and within rebel groups over time is related to not only the rebels political project but also the anticipated effect of marriage on cohesion and retention and the rebels logistical concerns Furthermore the Element unpacks how wartime rebel marriages can complicate or improve women's prospects for post conflict reintegration by shaping whether rebel wives are depoliticized distrusted or reclaimed

Understanding War Through Intersectional Lens Keshab Giri, 2025 The exponential growth in literature on female combatants in rebel groups so far has explored why women rebel where women rebel and when women rebel Yet existing literature largely assume women combatants as homogenous universal category having similar experiences of war and post war In this milieu this book focuses on how women rebel given their multiple intersecting identities and social subjectivities It looks how female combatants experience war and post war both in public and private spheres by using intersectionality both as a theoretical framework and methodological tool inspired by feminist research methodology to explore complex experiences of women combatants during and after the war This book is based on thirty nine in depth interviews with Maoist female ex combatants their leaders and experts in Nepal between 2017 and 2018 complemented by wide ranging primary and secondary sources such as key Maoist statements and policy documents from the war era women ex combatants memoirs media sources and academic literature The book finds that female combatants experiences of war and post war both in public and private spheres are conditioned by their interlocking systems of oppression and identities such as class caste ethnicity social status educational status and geographical location The book makes an important contribution to the feminist IR literature feminist security studies and has significant policy implications particularly concerning reintegration of female combatants peacebuilding and Women Peace and Security agenda

A Transnational History of the Modern Caribbean Kirwin Shaffer, 2022-06-13 This book examines Caribbean people resisting racial political and social oppression from the eve of the 1790s Haitian Revolution to the twenty first century Migrating rebels shipments of newspapers rumors and acts of resistance themselves inspired people throughout the Caribbean who launched their own acts of defiance illustrating the transnational nature of Caribbean resistance Some people fought to be left alone ungovernable and masterless Other people fought to free their ethnicity or race their class or their nation Men and women employed a range of tactics from violent armed uprisings to fleeing repression and starting their own communities Through song language religion and festivals they maintained cultures and identities against oppressive norms that devalued or sought to destroy those cultures and identities People declared strikes and riots against economic oppression Women and mothers mobilized for their and their children s freedoms Across the Caribbean people confronted oppression and in so doing illustrated their humanity and agency

Tears Towards Destiny Harish Noudiyal, 2023-02-23 Most of the text of this story and play is comprised of the stories from the people I contend and tell my stories from my thoughts and reality of the same society remains between two countries and acknowledges me over long hours of conversation in the remote area in Nepal with a few villagers To set the context of these oral stories I have written an introduction about the background material in each chapter In a number of instances I have found it necessary to insert additional background information in the text about an interview and some are made up combining their past and future In the story I introduce the base of reality that we all have to go

through once in our lifetime It could be any manner of circumstances We have different categories of action or facts in our future once The story is totally made up but based on facts in that part of the world *The Oxford Handbook of the History of Terrorism* Carola Dietze, Claudia Verhoeven, 2022 The Oxford Handbook of the History of Terrorism presents a re evaluation of the major narratives in the history of terrorism exploring the emergence and the use of terrorism in world history from antiquity up to the twenty first century The volume presents terrorism as a historically specific form of political violence that was generated by modern Western culture and then transported around the globe where it interacted with and was transformed in accordance with local conditions It offers cogent arguments and well documented case studies that support a reading of terrorism as a modern phenomenon as well as sustained analyses of the challenges involved in the application of the theories and practices of modernity and terrorism to non Western parts of the world both for historical actors and academic commentators *With Masses and Arms* Miguel La Serna, 2020-04-17 Miguel La Serna s gripping history of the Tupac Amaru Revolutionary Movement MRTA provides vital insight into both the history of modern Peru and the link between political violence and the culture of communications in Latin America Smaller than the well known Shining Path but just as remarkable the MRTA emerged in the early 1980s at the beginning of a long and bloody civil war Taking a close look at the daily experiences of women and men who fought on both sides of the conflict this fast paced narrative explores the intricacies of armed action from the ground up While carrying out a campaign of urban guerrilla warfare ranging from vandalism to kidnapping and assassinations the MRTA vied with state forces as both tried to present themselves as most authentically Peruvian Appropriating colors banners names images and even historical memories hand in hand with armed combat the Tupac Amaristas aimed to control public relations because they insightfully believed that success hinged on their ability to control the media narrative Ultimately however the movement lost sight of its original aims becoming more authoritarian as the war waged on In this sense the history of the MRTA is the story of the euphoric draw of armed action and the devastating consequences that result when a political movement succumbs to the whims of its most militant followers *The Oxford Handbook of U.S. National Security* Nikolas K. Gvosdev, Derek S. Reveron, John A. Cloud, 2018 The Oxford Handbook of U S National Security frames the context institutions and processes the U S government uses to advance national interests through foreign policy government institutions and grand strategy Contributors examine contemporary national security challenges and the processes and tools used to improve national security
