## **Rebellion In Laos Peasants And Politics In A Colonial Backwater:**

**Rebellion In Laos** Geoffrey C Gunn,2019-06-04 A study in historical anthropology this work focusses on the world historical incorporation of Laos into a colonial capitalist system of surplus accumulation In so doing new light is brought to bear upon the non rebellious and especially rebellious responses of the majority Lao and minority montagnard population of that country at least as determined by a scrutiny of largely archival based sources The approach taken is to combine a general world system analysis with a concern for the non economic moral and ideological form of colonial and feudal domination Revolution, Reform and Regionalism in Southeast Asia Ronald Bruce St John,2006-01-16 Based on research carried out over the three decades this book compares the post war political economies of Cambodia Laos and Vietnam in the context of their individual and collective impact on contemporary efforts at regional integration The author highlights the different paths to reform taken by the three neighbours and the effect this has had on regional plans for economic development through the ASEAN and the Greater Mekong Subregion Through its comparative analysis of the reforms implemented by Cambodia Laos and Vietnam over the last thirty years the book draws attention to parallel themes of continuity and change The author discusses how the three states have demonstrated related characteristics whilst at the same time making different modifications in order to exploit the unique strengths of their individual cultures Contributing to the contemporary debate over the role of democratic reform in promoting economic development the book provides a detailed account of the political economies of three states at the heart of Southeast Asia Creating Laos Søren Ivarsson,2008 This book examines the process through which Laos came into existence under French colonial rule through to the end of World War II Here Laos s position at the intersection of two conflicting spatial layouts of Thailand and Indochina made its national form a particularly contested process Rather than analyze this process in terms of administrative and political structures the book discusses how a specific idea about a separate Lao space and its culture was formed Dreams of the Hmong Kingdom Mai Na M. Lee,2015-06-16 Authoritative and original Dreams of the Hmong Kingdom is among the first works of its kind exploring the influence that French colonialism and Hmong leadership had on the Hmong people s political and social aspirations Changing Lives in Laos Vanina Bouté,Vatthana Pholsena,2017-04-21 Changes in the character of the political regime in Laos after 2000 a massive influx of foreign investment and disruptions to rural life arising from improved communications and new forms of mobility within and across the borders have produced a major transformation Alongside these changes a group of young scholars carried out studies that document the rise of a new social cultural and economic order The contributions to this volume draw on original fieldwork materials and unpublished sources and provide fresh analyses of topics ranging from the structures of power to the politics of territoriality and new forms of sociability in emerging urban spaces **The Ethnography of Vietnam's Central Highlanders** Oscar Salemin,2019-10-18 This book looks at ethnographic discourses concerning the indigenous population of Vietnam s Central

Highlands during periods of christianization colonization war and socialist transformation and analyses these in their relation to tribal ethnic territorial governmental and gendered discourses Salemink's book is a timely contribution to anthropological knowledge as the ethnic minorities in Vietnam have again been the object of fierce academic debate This is a historically grounded post colonial critique relevant to theories of ethnicity and the history of anthropology and will be of interest to graduate students of anthropology and cultural studies as well as Vietnam studies Society in Contemporary Laos Boike Rehbein, 2017-04-21 This book pursues the theoretical aim of shedding light on the old question raised by Max Weber about the relation between capitalism religious ethos and society The empirical study consists of a description of the social structures their embodiment in the habitus and world views in Laos against the background of a critical revision of Pierre Bourdieu's sociology To achieve these aims the author develops a qualitative methodology as neither Weber nor Bourdieu explained how to empirically study habitus and ethos **Historical Dictionary of Laos** Martin Stuart-Fox, Simon Creak, 2023-02-06 Laos has the smallest population the weakest military and despite rapid economic growth in recent years one of the lowest levels of per capita income in mainland Southeast Asia Yet a glance at the map reveals its strategic location between China and Cambodia and Thailand and Vietnam As Laos was formerly a crossroads for trade routes the socialist government of the Lao People's Democratic Republic seeks to transform the country into a prosperous crossroads at the heart of this rapidly developing region Historical Dictionary of Laos Fourth Edition provides an in depth examination of one of the least known countries in Southeast Asia through a detailed chronology comprehensive introduction and extensive bibliography The dictionary section has more than 1 000 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book will be an excellent resource for students researchers and anyone wanting to know more about Laos Civility and Savagery Andrew Turton, 2000-05-18 This is a book about social differentiation and distinction in one of the ethnically and politically most complex regions of the world dealing with crucial issues in currently renewed debates on cultural pluralism nationalism irredentism and ethnic dispersal The themes are given a regional and historical focus by treating peoples within the Tai *A History of the Hmong* Thomas S. Vang, 2008 This is the first completely up to date Hmong history book ever written by a member of the Hmong people It describes the earliest civilizations of the Hmong and Miao in China and why some of the Hmong migrated into Southeast Asia in the early 19th century particularly to Vietnam Laos and Thailand and how the Hmong of Laos were involved with the Lao civil war especially the secret war from 1962 to 1975 that caused almost a hundred thousand Hmong to flee to Thailand and Western countries as political refugees after the Communists takeover This book includes the forcible repatriation of the Lao Hmong asylum seekers at Nam Khao refugee camp in Thailand back to Laos in late 2009 and the arrest and discharge of former General Vang Pao by the U S authorities It is full of fascinating materials and a wonderful book Congratulations commented by Dr Nicholas C T Tapp Senior Fellow in the Department of Anthropology Research School of Pacific and Asian

### **Globalization and Inequality in Emerging Societies B.**

Rehbein, 2011-10-27 This volume studies the relation between globalization and inequalities in emerging societies by linking Area and Global Studies aiming at a new theory of inequality beyond the nation state and beyond Eurocentrism *Spirits of the Place* John Clifford Holt, 2009-07-29 *Spirits of the Place* is a rare and timely contribution to our understanding of religious culture in Laos and Southeast Asia Most often studied as a part of Thai Vietnamese or Khmer history Laos remains a terra incognita to most Westerners and to many of the people living throughout Asia as well John Holt's new book brings this fascinating nation into focus With its overview of Lao Buddhism and analysis of how shifting political power from royalty to democracy to communism has impacted Lao religious culture the book offers an integrated account of the entwined political and religious history of Laos from the fourteenth century to the contemporary era Holt advances the provocative argument that common Lao knowledge of important aspects of Theravada Buddhist thought and practice has been heavily conditioned by an indigenous religious culture dominated by the veneration of phi spirits whose powers are thought to prevail over and within specific social and geographical domains The enduring influence of traditional spirit cults in Lao culture and society has brought about major changes in how the figure of the Buddha and the powers associated with Buddhist temples and reliquaries indeed how all ritual spaces and times have been understood by the Lao Despite vigorous attempts by Buddhist royalty French rationalists and most recently by communist ideologues to eliminate the worship of phi spirit cults have not been displaced they continue to persist and show no signs of abating Not only have the spirits resisted eradication but they have withstood synthesis subordination and transformation by Buddhist political and ecclesiastical powers Rather than reduce Buddhist religious culture to a set of simple commonalities Holt takes a comparative approach using his nearly thirty years experience with Sri Lanka to elucidate what is unique about Lao Buddhism This stimulating book invites students in the fields of the history of religion and Buddhist and Southeast Asian studies to take a fresh look at prevailing assumptions and perhaps reconsider the place of Buddhism in Laos and Southeast Asia Sport Across Asia Katrin Bromber, Birgit Krawietz, Joseph Maguire, 2013 This book is designed to reflect both our current knowledge regarding sport globalisation and encounters with several important post colonial or non western societies and to draw together scholars from a range of different disciplines Case studies of cultural encounters in Central South East Asia Asia Minor and the Arabian peninsula capture the paradoxical processes of emulation resistance and transformation that are at work in the diffusion and development of sport and body cultures These case studies bring together insights from anthropology cultural studies geography history law sociology various area and post colonial studies Globalization and Democracy in Southeast Asia Chantana Banpasirichote Wungao, Boike Rehbein, Surichai Wun'gao, 2016-08-31 This book questions why Southeast Asian nation states are struggling to adopt full fledged liberal democracy and attempts to better understand the relationship between globalization and models of democracy Country studies are covered mostly by native Southeast Asian scholars who

analyse recent developments as well as specific concerns that have arisen from political crises citizen uprisings ethnic identity politics political reforms social justice and inequality and the persistence of the political elite The collection highlights factors which have impacted the different regional and national paths taken such as the legacy of the Cold War rapid economic development and liberalization external economic globalization the important role of informal politics powerful elites and weak but emerging middle classes This book will be of interest to scholars and students of regional studies of Southeast Asia Democracy Sociology Politics and GlobalizationStudies

**Contestations of Memory in Southeast Asia** Kwok Kian-Woon, Roxana Waterson, 2012-01-01 Contestations of Memory in Southeast Asia applies a new theoretical literature on social memory to remembered events in Burma Laos Vietnam Malaysia Singapore the Philippines and Indonesia Highlighting connections between theorizing based on European examples and unresolved memory issues in East and Southeast Asia the authors show how comparative study of the interpenetration of politics and lived bodily experience of communal and personal memories and of dominant and suppressed narratives can yield insights into the human potential to become either perpetrators victims or bystanders The memories found within different groups in any society are open to negotiation suppression contestation or revision in the ever evolving politics of the present The searching and close grained analyses of contemporary issues found in the volume vividly illustrate the essentially plural and multivocal nature of social memories and demonstrate the intricate connection between transnational national and sub national politics Readers seeking a more nuanced and complex understanding of the past and of its continued relevance to the present and future will find here much food for thought

**New Frontiers of Land Control** Nancy Peluso, Christian Lund, 2013-09-13 Questions about land control have invigorated thinkers in agrarian studies and economic history since the nineteenth century Exclusion alienation expropriation dispossession and violence animate histories of land use property rights and territories More recently agrarian environments have been

transformed by processes of de agrarianization urbanization migration and new forms of primitive accumulation Even the classic agrarian question of how the social relations of agriculture will be influenced by capitalism has been reformulated at critical historical moments reviving or producing new debates around the importance of land control The authors in this volume focus on new frontiers of land control and their active creation These frontiers are sites where established power relationships are challenged by new enclosures and property regimes producing new social and environmental dynamics in their stead Contributors examine labor and production processes engaged by new configurations of actors new agrarian and environmental subjects and the networks connecting them and new legal and violent means of challenging established or imminent land controls Overall we find that land control still matters though in changed degrees and manners Land control will continue to inspire struggles for a long time This book was originally published as a special issue of the Journal of Peasant Studies
