*Imagining Karma* Gananath Obeyesekere, 2002-11-11 With *Imagining Karma* Gananath Obeyesekere embarks on the very first comparison of rebirth concepts across a wide range of cultures Exploring in rich detail the beliefs of small scale societies of West Africa Melanesia traditional Siberia Canada and the northwest coast of North America Obeyesekere compares their ideas with those of the ancient and modern Indic civilizations and with the Greek rebirth theories of Pythagoras Empedocles Pindar and Plato His groundbreaking and authoritative discussion decenters the popular notion that India was the origin and locus of ideas of rebirth As Obeyesekere compares responses to the most fundamental questions of human existence he challenges readers to reexamine accepted ideas about death cosmology morality and eschatology Obeyesekere's comprehensive inquiry shows that diverse societies have come through independent invention or borrowing to believe in reincarnation as an integral part of their larger cosmological systems The author brings together into a coherent methodological framework the thought of such diverse thinkers as Weber Wittgenstein and Nietzsche In a contemporary intellectual context that celebrates difference and cultural relativism this book makes a case for disciplined comparison a humane view of human nature and a theoretical understanding of family resemblances and differences across great cultural divides

*Understanding Karma and Rebirth* Diana St Ruth, 2008 *Understanding Karma and Rebirth* A Buddhist Perspective Rebirth and reincarnation are generally accepted realities in the East and have been since ancient times What the next life will be is usually the question rather than whether it will be In the West on the other hand we have our own religious and secular beliefs which usually do not include living another life or at least not in this world or in this way A common idea amongst Westerners is that annihilation is an unavoidable fact When you're dead you're dead But unless one wakes up to the truth of it East or West one is caught in cultural conditioning and personal beliefs Buddhism is about becoming aware of what life actually is rather than being blinded by beliefs and conditioning The Buddha

saw life as a changing procession of conditions events and circumstances one thing leading to another without beginning or end timeless and limitless And he recognised that the part of ourselves which is aware which sees and knows is never born and never dies He spoke of a direct seeing into the nature of existence beyond words beyond the intellect Understanding the cause and effect process the nature of karma and rebirth and what lies behind it is the underlying message of this book Diana St Ruth points out that Buddhism is a personal journey of discovery which involves seeing through one's own delusions She leads us by degrees to a place of awareness clarity of mind and understanding

**Karma and Rebirth** Henri Van Zeyst, 1970 A Western Approach to Reincarnation and Karma Rudolf Steiner, 1997 The soul's immortality and its repeated earthly births are not new ideas in Western thought They are implicit in the Pythagorean and Platonic traditions as well as in some branches of esoteric Judaism and Cabbala But it was not until the early years of this century that the West was given a detailed modern evolutionary philosophy of human life based on the reality of reincarnation and karma This turning point occurred when Rudolf Steiner began to make public the results of his spiritual scientific researches He viewed the revelation of reincarnation and karma as one of his most important life tasks Steiner's contribution however remains unique in its understanding of the human being as an evolving developing being of body soul and spirit On the basis of his researches presented in numerous books and lectures we begin to understand how the complex interaction of human lives between birth and death and between death and a new birth gives new meaning not only to individual lives lived on Earth in community with others but also to human history and evolution and to earthly and cosmic events This book collects many of Steiner's major statements on reincarnation and karma The primary purpose of this volume is to help readers meet the challenge of spiritual research in the area of individual evolution of the soul and spirit in the context of cultural and universal evolution Such a study can be tremendously revealing and provide spiritual understanding in a time of increasing intellectual confusion and spiritual poverty The notion of reincarnation and karma is generally associated in most minds with spiritual traditions of the East especially Hinduism and Buddhism Ren Querido's in depth sixty page introduction however places these concepts within the context of Western spiritual development and esoteric tradition showing us a panoramic view of how such ideas have developed over the centuries in the West

Contents Introduction by Ren Querido 1 Our Present Dilemma 2 Historical Survey of Reincarnation and Karma 3 Rudolf Steiner's Original Contributions The lectures 1 Natural and Chance Illnesses in the Human Being 2 Elemental Events Volcanic Eruptions Earthquakes Epidemics in Relation to Karma 3 Death and Rebirth in Relation to Karma 4 Knowledge of Reincarnation and Karma 5 Examples of Karma Working between Two Incarnations 6 Vital Questions in the Light of Reincarnation and Karma 7 The Formation of Karmic Forces 8 Reincarnation of the Spirit and Destiny
