talked about for decades It s not a sugar coated love and light routine And it s not another feel good manual or how to succeed without really trying rehash It s not psycho babble quick fix therapy preaching or lamenting a cause This book takes a no nonsense look at what is really happening behind the scenes above the scenes and beyond the scenes It addresses the issues you and I are facing right now and will be facing for a long time to come It uses the past only as a springboard for stepping into the unknown into the big picture It exposes the lies coverups deceit control and manipulation that have kept the people of Earth locked into rigid systems of dogma and despair But it also offers real solutions that are timely and yet timeless It gives you ideas that can help you put the pieces of the cosmic jigsaw together And practical advice that can stimulate your creative juices Get out your surfboard and ride the cutting edge *Truly Human Enhancement* Nicholas Agar,2023-09-19 A nuanced discussion of human enhancement that argues for enhancement that does not significantly exceed what is currently possible for human beings The transformative potential of genetic and cybernetic technologies to enhance human capabilities is most often either rejected on moral and prudential grounds or hailed as the future salvation of humanity In this book Nicholas Agar offers a more nuanced view making a case for moderate human enhancement improvements to attributes and abilities that do not significantly exceed what is currently possible for human beings He argues against radical human enhancement or improvements that greatly exceed current human capabilities Agar explores notions of transformative change and motives for human enhancement distinguishes between the instrumental and intrinsic value of enhancements argues that too much enhancement undermines human identity considers the possibility of cognitively enhanced scientists and argues against radical life extension Making the case for moderate enhancement Agar argues that many objections to enhancement are better understood as directed at the degree of enhancement rather than enhancement itself Moderate human enhancement meets the requirement of truly human enhancement By radically enhancing human cognitive capabilities by contrast we may inadvertently create beings post persons with moral status higher than that of persons If we create beings more entitled to benefits and protections against harms than persons Agar writes this will be bad news for the unenhanced Moderate human enhancement offers a more appealing vision of the future and of our relationship to technology The Great Transition Ann Frazier West Ed.D.,2014-01-31 Have you ever wondered if it is possible to stay in touch with your loved ones and share their journey in the afterlife What happens after death is far too important for us to rely on hand me down teachings We need the authority of first hand experience This is what Ann West provides in her moving narrative of her remarkable attempt to continue her friendship with three extraordinary women for many years after their deaths As we join her on her excursions we learn about lifestyle and real estate options on the Other Side the anatomy of subtle bodies and how the law of attraction applies in all realities She describes her personal journey including her discovery of the consequences of bleedthroughs from past or parallel lives with candor and humility She draws on the theory and practice of esoteric orders but comes to understand that the heart of the matter is very simple we can dream with the

deceased and in dreaming we travel to the realms where they are at home The Great Transition confirms that there is life beyond life and that learning and creative evolution never cease ROBERT MOSS author of Conscious Dreaming Dreamgates and The Boy Who Died and Came Back This book will take you on a very unusual journey with warmth wit and wonder Dr West describes in vivid detail life in the next world as revealed in her own dreams and intriguing visions Anyone seeking to gain a synthesis of the after death experience will find value insight and I dare say inspiration in this deeply researched and intriguingly written text REVEREND LEROY E ZEMKE author of Thoughts for Transformation Inspired by three remarkable women in her life Ann invites you to embark upon an incredible journey with her to continue relationships with loved ones as they make the great transition to the Other Side of life Ann shares her personal experiences of contact with other dimensions the afterlife to help you discover new and less painful ways to approach the loss of loved ones in your life It is comforting to know that the connection is still there and that our goodbyes do not have to be permanent Because of an increase in reports of the phenomenon of near death experiences NDEs great interest in the evidence of an afterlife has arisen igniting a growing trend of research on the topic In this book Ann captivantly reveals past research as well as current scientific research about our contact with the afterlife dimensions *How do you make decisions in life?* Manika Apsara,2021-08-11 This book whose origin lies on a series of webinars presented in 2020 has been edited in love and reverence to the Masters that have been enlightening my journey as a human being as a therapist and a spiritual seeker Manika Apsara author The search for self knowledge and the expansion of consciousness are ancient human aspirations which have mobilized individuals and cultures for millennia Men and women at different times and in different ways have always acted on initiative and put efforts on going beyond the common place the comfort zone and the limitations that imprison and suffocate the I the Self the Essence the Presence Anand Neerava preface *Portals into Deep Imagination* Michael Wilson,2025-04-29 An anthology of weekly contemplations and practices for spirituality through the lens of psychology inspired by the culture and mythology of the Celts in Britain and Ireland and their connection with nature This functional and thought provoking book illustrates how Celtic tales of the Otherworld offer exciting openings for understanding including dreams non ordinary states of consciousness content of the deep imagination and a bigger Mystery of life Celtic myths and legends are alive with metaphor and symbolism which is often thought to be the language of the deep imagination and is so vital to a soulful path The dreamlike quality of myth and legend where the boundary between fact and poetic imagination is misty allows us to engage with them symbolically to promote insights for daily living Bringing psychology alongside the Celts in this way allows for a conversation on spirituality where psychology sometimes leads and at other times where Celtic voices illustrate poignant truths for a path travelled in depth Following the Celtic year the book consists of eight parts with six or seven weeks per part throughout the year providing a balance of reflection on core themes and practices beginning with a festival Each week offers tales and folklore from Celtic mythology followed by a suggested practice of meditation and contemplation allowing
