Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954 ,2004 *Afghanistan* Peter Marsden,2009-01-30 As the battle for Afghanistan intensifies with the NATO led coalition seemingly unable to defeat the Taliban and struggling in its nation building efforts Afghanistan expert Peter Marsden looks at why it is that the Great Powers from 19th century Britain to the 20th century Soviet Union to 21st century America have so often been frustrated in attempting to impose their will on this strategically vital country In comparing the three interventions Marsden uncovers a number of similarities The rhetoric of development coming from the capitals of the West has he finds a well established heritage Every would be occupier has used some form of aid to try and turn Afghanistan into the kind of country that would suit their geopolitical objectives Marsden who has worked with British NGOs in Afghanistan for 20 years draws on his own experience as well as extensive archive research to establish how these grand interventions appear from the Afghan perspective and why it is that ordinary Afghans seem to be better off when they are attracting less not more attention from the world powers He argues that the Americans have yet to learn the lessons that the Soviets and the British before them learned that no amount of financial military or humanitarian aid will stabilise the country if it comes with violence and foreign occupation *Afghanistan Aid Armies and Empires* offers both an exploration of the relationship between aid and power and a fresh and original history of Afghanistan through the prism of great power politics

geographic knowledge in this case in Southeast Asia Since the end of the Second World War Southeast Asia has served as a surrogate space to further American imperial interests which are economic political territorial and moral in scope America's Strategy in Southeast Asia contends that the construction of Southeast Asia as a geographic entity has been a crucial component in the creation of the American empire For example America's most blatant experience of colonial rule occurred the Philippines America's longest war was fought in Vietnam and most recently some American policymakers have identified Southeast Asia as the Second Front in the War on Terror Yet America's overriding strategy in Southeast Asia and the region itself remains something of a mystery for the American populace a black box in America's geographical imagination This clear and innovative book educates readers about Southeast Asia's importance in American foreign policy
