Recent English Architecture 1920 194:

English Homes: Period IV, v. 1: Late Stuart, 1649- 1714. 1920 Henry Avray Tipping, 1926 *The Subject Index to Periodicals*, 1920 A Chronology of Western Architecture Doreen Yarwood, 2010-01-01 Accessible to casual and serious readers alike this comprehensive survey ranges from 2000 BC to the 1980s and features more than 1 000 chronologically arranged photographs and drawings Each of the 105 two page spreads represents a specific era and includes comments on architectural details and historical events of the period 194X Andrew Michael Shanken, 2009 During the Second World War American architecture was in a state of crisis The rationing of building materials and restrictions on nonmilitary construction continued the privations that the profession had endured during the Great Depression At the same time the dramatic events of the 1930s and 1940s led many architects to believe that their profession and society itself would undergo a profound shift once the war ended with private commissions giving way to centrally planned projects The magazine *Architectural Forum* coined the term 194X to encapsulate this wartime vision of postwar architecture and urbanism In a major study of American architecture during World War II Andrew M Shanken focuses on the culture of anticipation that arose in this period as out of work architects turned their energies from the built to the unbuilt redefining themselves as planners and creating original designs to excite the public about postwar architecture Shanken recasts the wartime era as a crucible for the intermingling of modernist architecture and consumer culture Challenging the pervasive idea that corporate capitalism corrupted the idealism of modernist architecture in the postwar era 194X shows instead that architecture s wartime partnership with corporate American was founded on shared anxieties and ideals Business and architecture were brought together in innovative ways as shown by Shanken s persuasive reading of magazine advertisements for Revere Copper and Brass U S Gypsum General Electric and other companies that prominently featured the work of leading progressive architects including Louis I Kahn Eero Saarinen and Walter Gropius Although the unexpected prosperity of the postwar era made the architecture of 194X obsolete before it could be built and led to its exclusion from the story of twentieth century American architecture Shanken makes clear that its anticipatory rhetoric and designs played a crucial role in the widespread acceptance Catalog of the Avery Memorial Architectural Library of Columbia University Avery Library, 1968 *Italian Imprints on Twentieth-Century Architecture* Denise Costanzo, Andrew Leach, 2022-05-19 Italian architecture has long exerted a special influence on the evolution of architectural ideas elsewhere from the Beaux Arts academy s veneration of Rome to modernist and postmodern interest in Renaissance proportion Baroque space and Mannerist ambiguity This book critically examines this enduring phenomenon exploring the privileged position of Italian architects architecture and cities in the architectural culture of the past century Questioning the deep rooted myth of Italy within architectural history the book presents case studies of Italy s powerful yet problematic position in 20th century architectural ideologies at a time when established Eurocentric narratives are rightly being challenged It reconciles the

privileged position of Italian architecture and design with the imperative to write history across a more global diverse heterogenous cultural geography Twenty chapters from distinguished international scholars cover subjects and architects ranging from Alberti to Gio Ponti Aldo Rossi Manfredo Tafuri Vittorio Gregotti cities from Rome and Venice to Milan and an array of international architects movements and architectural ideas influenced by Italy The chapters each question where how and why the disciplinary edifice of 20th century architecture its canon of built visual textual and conceptual works relied on Italian foundations examining where and how those foundations have become insecure Indispensable for students and scholars of both Italian and global architectural history Italian Imprints on Twentieth Century Architecture provides an opportunity to consider the architectural and urban landscape of Italy from substantially new points of view **Acrobatic Modernism from the Avant-garde to Prehistory** Jed Rasula,2020 Moving through a vast geographical cultural and artistic terrain and juxtaposing numerous modernist works this volume explores the multiplicity of modernism and provides in depth case studies including of James Joyce s Finnegans Wake the reception of jazz music in Europe and the Cubist movement in the visual arts **Notes** ,1922 Municipal Reference Library Notes ,1922 **A Companion to Early Twentieth-Century Britain** Chris Wrigley,2008-04-15 This Companion brings together 32 new essays by leading historians to provide a reassessment of British history in the early twentieth century The contributors present lucid introductions to the literature and debates on major aspects of the political social and economic history of Britain between 1900 and 1939 Examines controversial issues over the social impact of the First World War especially on women Provides substantial coverage of changes in Wales Scotland and Ireland as well as in England Includes a substantial bibliography which will be a valuable guide to secondary sources **Architectural Publications Index** ,2002 Albany Architecture Diana S. Waite,1993 **Looking into Walt Whitman: American Art, 1850Ð1920** ,2006 **Irish Political Prisoners 1960-2000** Seán McConville,2021-03-30 This is a comprehensive detailed and humane account of the thousands who came into custody during the years of the Northern Ireland conflict and how they lived out the months years and decades in Irish and English maximum security prisons Erupting in 1969 the Northern Ireland troubles continued with terrible intensity until 1998 The most enduring civil conflict in Western Europe since the Second World War cost almost 4 000 lives inflicted a vast toll of injuries and wrought much destruction Based on extensive archival research and numerous interviews this book covers the jurisdictions of Northern Ireland the Republic of Ireland and England providing an account of riots escapes strip and dirty protests and hunger strikes It paints a picture of coming to terms with sentences some of which lasted for two decades and more Republicans and loyalists male and female prisoners officials and staff families supporters clergy and politicians all played a part and all were changed The narrative includes some of the most remarkable events in prison history anywhere mass breakouts organised cell fouling and prolonged nakedness and hunger striking to the death there are also accounts of the prisoners very effective parallel command structure The book shows how Anglo Irish and intra Irish relations were

profoundly affected and how the prisoners involvement and consent were critical to the Good Friday Agreement that ended the long war The final part of a trilogy dealing with Irish political prisoners from 1848 to 2000 by renowned expert Seán McConville this is an essential resource for students and scholars of Irish history and Irish political prisoners it is also a major contribution to the study of imprisonment [Bulletin of the Public Library of the City of Boston](#), 1919 **The Los Angeles Central Library** Kenneth A. Breisch, 2016-12-21 In the most comprehensive investigation of the Los Angeles Public Library's early history and architectural genesis ever undertaken Kenneth Breisch chronicles the institution's first six decades from its founding as a private library association in 1872 through the completion of the iconic Central Library building in 1933 During this time the library evolved from an elite organization ensconced in two rooms in downtown LA into one of the largest public library systems in the United States with architect Bertram Grosvenor Goodhue's building a beloved LA landmark as its centerpiece Goodhue developed a new style fully integrating the building's sculptural and epigraphic program with its architectural forms to express a complex iconography Working closely with sculptor Lee Oskar Lawrie and philosopher Hartley Burr Alexander he created a great civic monument that combined with the library's murals embodies an overarching theme the light of learning A building should read like a book from its title entrance to its alley colophon wrote Alexander a narrative approach to design that serves as a key to understanding Goodhue's architectural gem Breisch draws on a wealth of primary source material to tell the story of one of the most important American buildings of the twentieth century and illuminates the formation of an indispensable modern public institution the American public library *Women and the Making of Built Space in England, 1870-1950* Elizabeth Darling, Lesley Whitworth, 2007-01-01 This interdisciplinary collection explores the relationships between women and built space in England between the 1870s and the 1940s Included are East End rent collectors tenants diarists and correspondents committee and Guild members provincial and metropolitan exhibitors social reformers activists and homemakers Taken together these essays dramatically expand our conception of the scope and effectiveness of women's contributions both to the creation of modern built environments and to the development of discourses associated with them **House of Fashion** Jess Berry, 2018-07-12 Since Charles Fredrick Worth established his luxurious Maison de Couture in 1858 the interior has played a crucial role in the display of fashion House of Fashion provides a full historical account of the interplay between fashion and the modern interior demonstrating how they continue to function as a site for performing modern gendered identities for designers and their clientele alike In doing so it traces how designers including Poiret Vionnet Schiaparelli and Dior used commercial spaces and domestic interiors to enhance their credentials as connoisseurs of taste and style Taking us from the early years of haute couture to the luxury fashion of the present day Berry explores how the salon the atelier and the boutique have allowed fashion to move beyond the aesthetics of dress to embrace the visual seduction of the theatrical artistic and the exotic From the Art Deco allure of Coco Chanel's Maison to the luminous spaces of contemporary flagship stores House of Fashion sets out fashion's links with key

figures in architecture and design including Louis S e Robert Mallet Stevens Eileen Gray and Jean Michel Frank Drawing on photographs advertisements paintings and illustrations this interdisciplinary study examines how fashionable interiors have shaped our understanding of architecture dress and elegance

Experiencing Architecture in the Nineteenth Century
Edward Gillin, H. Horatio Joyce, 2018-10-18 Bringing together fourteen original essays this collection opens up new perspectives on the architectural history of the nineteenth century by examining the buildings of the period through the lens of experience With a focus on the experience of the ordinary building user rather than simply on the intentions of the designer the book shows that new and important insights can be brought to our understanding of Victorian architecture The chapters present a range of ideas and new research some examining individual building case studies from grand hotels and clubhouses in New York to the parliament buildings of Westminster and others exploring conceptual questions about the nature of architectural experience whether sensory or otherwise Yet they share the premise that the idea of the experience of architecture took on a new and particular significance with the rise of industrial modernity and they examine what contemporary people both architects and non architects understood by this idea The insights in this volume extend beyond the study of Victorian architecture Together they suggest how experience might be used as a framework to produce a more convincingly historical account of the artefacts of architectural history
