Recent Urban And Regional Developments In Poland And The Netherlands:

Spatial Planning and Urban Development in the New EU Member States Uwe Altröck, Simon Güntner, 2017-03-02
Accession to the EU in May 2004 was a historic milestone for the spatial and urban development of the new member states. Meanwhile the social and economic transition during the pre accession phase already brought about radical changes in national urban systems and new challenges for regional development. In this edited volume a carefully selected and specially commissioned set of articles written by experts from both the new and the old EU member states presents a comprehensive assessment of emerging political and planning solutions at local, regional, national and EU levels. Topics include brownfield redevelopment in the Czech Republic, urban sprawl in Hungary, the upgrading and integration of marginalized Roma settlements in Eastern Slovakia and sustainable coastal management in Cyprus. *Foreign Direct Investment and Regional Development in East Central Europe and the Former Soviet Union* David Turnock, 2017-11-28
With the achievement of further EU and NATO enlargement a critical political and economic lens is now focused on East Central Europe and to a lesser extent the other former communist states. Economic growth in each transition state and more broadly the region pivots around the prospects for foreign direct investment (FDI) with decisions on where foreign investors will locate their projects now vitally important. This book, the first one devoted to a geographical survey concentrating specifically on FDI in the region, brings together a wide range of prominent authors from the US and Europe including the late Frank Carter to provide a timely and critical examination of the importance of foreign investment. It presents a detailed analysis of location patterns and their significance for regional development with particular emphasis given to the important socioeconomic and political consequences of uneven distribution of FDI across the region and its constituent countries. Divided into two parts, the book first deals with general overarching themes and issues before applying these to more specific country case studies. The second part deals with regional studies focusing broadly on the Western Balkans and Bulgaria before looking at specific economic sectors in individual countries. *Entrepreneurship in a Regional Context* Michael Fritsch, David Storey, 2017-08-17
Enterprise and entrepreneurship is of strong interest to policy makers because new and small firms can be a key contributor to job and wealth creation. However this contribution varies spatially with some areas in a country having new firm formation rates that are up to three or four times higher than others. The vast majority of these new firms begin in the geographical area in which the founder lives, works or was born, emphasising that entrepreneurship is a local event. The book documents a diversity of research approaches to examining the regional determinants of entrepreneurship in countries as contrasting as India and Sweden. The Editors call is for scholars to better understand the long run factors that influence enterprise at the local and regional level. For policy makers the Editors challenge is for them to be much clearer about the targets for their policies. Is it new firms, new jobs, productivity and does it matter where these targets are delivered? This book was published as a special issue of *Regional Studies*. *Entrepreneurial Neighbourhoods* Maarten van Ham, Darja

Reuschke, Reinout Kleinhans, Colin Mason, Stephen Syrett, 2017-07-28 Despite the growing evidence on the importance of the neighbourhood entrepreneurship studies have largely neglected the role of neighbourhoods This book addresses the nexus between entrepreneurship neighbourhoods and communities confirming not only the importance of the local in entrepreneurship but also filling huge gaps in the knowledge base regarding this tripartite relationship **OECD Regional Development Studies Governance of Land Use in Poland The Case of Lodz** OECD, 2016-08-12 This report on the governance of land use in Lodz Poland illustrates many promising practices and offers guidance on how to make the governance structure and planning system more coherent and robust both in Lodz and in Poland more generally **OECD Regional Development Studies The Governance of Land Use in France Case studies of Clermont-Ferrand and Nantes Saint-Nazaire** OECD, 2017-02-28 This report examines how land is governed in France It describes the laws policies and practices that shape spatial and land use planning in the country as a whole and provides a detailed assessment of Clermont Ferrand and Nantes Saint Nazaire **OECD Urban Policy Reviews, Poland 2011** OECD, 2011-05-02 This comprehensive review of urban policy in Poland looks at the urban system and the challenges it faces national policies for urban development in Poland and adapting governance for a national urban policy agenda **OECD Regional Development Studies Urban-Rural Linkages in Poland** OECD, 2022-06-27 The OECD report Urban Rural Linkages in Poland analyses the potential of urban and rural territories for development and improved well being Urban and rural areas have different yet often complementary assets and their better integration is important for socio economic and environmental performance **Regional Development in Central and Eastern Europe** Grzegorz Gorzelak, John Bachtler, Maciej Smętkowski, 2018-10-24 This book provides an up to date assessment of the main processes and dilemmas of regional development and regional policy in the newer European Union Member States in Central and Eastern Europe and neighbouring countries It highlights the difficulties of balancing the demands within the new Member States for rapid regional growth and development with firstly the demands of the European Union overall that restructuring and development should conform to the aims and principles of EU common policies and secondly with budgetary constraints The book covers a wide range of issues including global and national challenges to regional convergence and cohesion regional dynamics city networks and border issues the effectiveness of policy responses at national and European levels including an assessment of policy experiences from outside the new Member States and likely future developments **OECD Regional Development Studies Regional Development Policies in OECD Countries** OECD, 2010-09-28 This book is a handy reference guide to the regional policies of OECD countries and a broader analysis of trends in regional policies based on sound comparable information **The Netherlands and the North Sea** Ton Dietz, Piet Hoekstra, Frans Thissen, 2004 *Conflict in Urban Development* Arie Dekker, Henri Goverde, Tadeusz Markowski, Maria Ptaszynska-Woloczko, 2018-12-17 Published in 1992 the aim of this book is to give both the professional planner and the student a feel for the current arguments alive in planning

policy circles and to introduce relevant contemporary research This book has developed out of a series of seminars run at the Institute of Planning Studies at Nottingham University as part of its continuing professional development programme Each of the seminars brought together a variety of speakers who were involved with the topic under discussion from a different aspect some with academic research experience and others with practical policy implementation Most the nineteen contributors presented papers at this series of seminars but some have been rewritten others substantially revised and several have been commissioned especially for this book Four current policy issues are examined provision and pedestrians jobs for the inner cities the homeless and the relationship between planners and developers For each topic contributors were chosen who could approach the problem from a different point of view the aim being to explore each topic with direct statements and straightforward arguments leading therefore to a more stimulating breadth of this view rather than a bland overview
