Fullinwider, 1996-01-26 This collection of essays deals with philosophical and educational questions about multi culturalism in primary and secondary schools **Writing a New France, 1604-1632** Brian Brazeau, 2016-02-17 The focus of this study is the exciting period of French overseas exploration directly following the stagnation caused by the Wars of Religion The book examines the early period of French involvement in Northeastern America through readings of key texts principally travel and missionary accounts Among the works examined are travel writings by Marc Lescarbot Histoire de la Nouvelle France and Samuel de Champlain Voyages and missionary works by Gabriel Sagard Dictionnaire de la Langue Huronne Histoire du Canada Jean de Brébeuf and Paul le Jeune early Relations de Jesuites Through a careful examination of these texts the author discerns a French rewriting of the self in relation to the American other represented by both land and people America Brazeau argues allowed a consolidation of past markers of identity and forced a radical rereading of others due to the difficulties presented by the Canadian wilderness and its natives Writing a New France 1604 1632 sheds fresh light on a significant moment in French colonial history while providing an innovative contribution to the understanding of early modern French identity and cultural contact **Health and Wellness in Colonial America** Rebecca Tannenbaum Ph.D., 2012-08-17 This book provides a broad introduction to medical practices among Anglo Americans Native Americans and African Americans during the colonial period covering everything from dentistry to childcare practices to witchcraft It is ideal for college or advanced high school courses in early American history the history of medicine or general social history Health and Wellness in Colonial America covers all aspects of medicine from surgery to the role of religion in healing giving readers a comprehensive overall picture of medical practices from 1600 to 1800 a topic that speaks volumes about the living conditions during that period In this book an introductory chapter describes the ways in which all three cultures in colonial America European African and Native American thought about medicine The work covers academic and scientific medicine as well as folk practices women's role in healing and the traditions of Native Americans and African Americans Because of its broad scope the book will be highly useful to advanced high school students undergraduate students in various areas of studies such as early American history women's history and history of medicine and general readers interested in the history of medicine **Native Americans of New England** Christoph Strobel, 2020-03-26 This book provides the first comprehensive region wide long term and accessible study of Native Americans in New England This work is a comprehensive and region wide synthesis of the history of the indigenous peoples of the northeastern corner of what is now the United States New England which includes the states of Massachusetts Connecticut Rhode Island Maine New Hampshire and Vermont Native Americans of New England takes view of the history of indigenous peoples of the region reconstructing this past from the earliest available archeological evidence to the present It

examines how historic processes shaped and reshaped the lives of Native peoples and uses case studies historic sketches and biographies to tell these stories While this volume is aware of the impact that colonization ethnic cleansing dispossession and racism had on the lives of indigenous peoples in New England it also focuses on Native American resistance adaptation and survival under often harsh and unfavorable circumstances Native Americans of New England is structured into six chapters that examine the continuous presence of indigenous peoples in the region The book emphasizes Native Americans efforts to preserve the integrity and viability of their dynamic and self directed societies and cultures in New England Black History and Black Identity William D. Wright, 2002-02-28 This study contends that historians and intellectuals failed to understand the difference between race and ethnicity which has in turn impaired their ability to understand who Black people are in America The author argues that Black Americans are to be distinguished from other categories of black people in the country black Africans West Indians or Hispanics While Black people are members of the black race as are other groups of people they are a distinct ethnic group of that race This conceptual failure has hampered the ability of historians to define Black experience in America and to study it in the most accurate authentic and realistic manner possible This confusing situation is aggravated further by the fact that many scholars tend to describe Black people in an arbitrary manner as Africans African Americans Afro Americans black or Black which is insufficient for precision They sometimes downplay the historical evidence regarding African identity and the identity of Blacks in America Wright offers a new methodological basis for undertaking Black history namely the framework of historical sociology He argues that this approach will produce a more useful history for Black people and others in America
