
CHRISTIAN POSITIONS

- Redeeming Creation
 - In this view it is God's intention that mankind is to redeem the environment as He is redeeming mankind.
 - The idea of "redeeming creation" quickly leads to support of dominion theology (Christian constructionism).
 - Christianity must undo the fallen nature of man and the creation. This leads to the millennial kingdom, and after 1,000 years Jesus will return to a Eden-like earth.

Redeeming Creation A Christian World Evolving

Emil Brunner

Redeeming Creation A Christian World Evolving:

The Christian Doctrine of Creation and Redemption Emil Brunner, 2014-10-10 Emil Brunner 1889 1966 was the most widely read theologian in the English speaking world throughout the mid twentieth century Brunner was Professor of Systematic and Practical Theology at the University of Zurich from 1924 55 His key works *The Mediator* *The Divine Imperative* and *Man in Revolt* were standard texts for Protestant seminaries for decades *Perspectives on an Evolving Creation* Keith B. Miller, 2003-09-25 According to the authors of this book who explore evolutionary theory from a clear Christian perspective the common view of conflict between evolutionary theory and Christian faith is mistaken Written by contributors representing the natural sciences philosophy theology and the history of science this thought provoking work is informed by both solid scientific knowledge and keen theological insight The three sections of the book address 1 relevant biblical historical and scientific background 2 the scientific evidence for an evolving creation and 3 theological issues commonly raised in connection with evolution including the nature of God s creative activity the meaning of the miraculous and the uniqueness of humankind Woven through the volume are short meditations designed to direct readers toward worshiping the God of providence Contributors Laurie J Braaten Warren S Brown Jr David Campbell Robin Collins Edward B Davis Terry M Gray Jeffrey K Greenberg Deborah B Haarsma Loren Haarsma James P Hurd Conrad Hyers David N Livingstone Keith B Miller John C Munday Jr George L Murphy Mark A Noll Robert John Russell Howard J Van Till David L Wilcox Jennifer Wiseman *The Beginning and End of All Things* Edward W. Klink III, 2023-05-30 Edward W Klink III presents a holistic understanding of creation one that is unfolded throughout all of Scripture and is at the core of the gospel itself Along with offering rich insights about God and his purposes for the world a biblical theology of creation guides how we engage nature culture and life as embodied beings *How to Read the Bible in Changing Times* Mark L. Strauss, 2011-08-01 Many find it difficult to take words that were written thousands of years ago and apply them to twenty first century life in the Western world How do we read God s unchanging Word in a world that is increasingly defined by change How to Read the Bible in Changing Times shows everyday Christians how to interpret and apply the Scriptures regardless of time and culture Rather than seeing the Bible as a magic answer book a list of commands to obey or a series of promises to claim this insightful book allows the Bible to retain its identity as a complex inspired document while showing that the truth it contains is relevant and life changing It shows the reader how to determine the meaning of the text in its original context identify culturally relative features understand what the text teaches about God his will and his purposes apply the truths discovered to contemporary life situations It even shows readers how to discern God s will on the many modern issues that the Bible does not directly address **Evolutionary Creation** Denis O Lamoureux, 2009-02-26 In this provocative book evolutionist and evangelical Christian Denis O Lamoureux proposes an approach to origins that moves beyond the evolution versus creation debate Creator God, Evolving World Cynthia S. W. Crysdale, Neil Ormerod, 2013-01-01 Cynthia Crysdale and Neil

Ormerod here present a robust theology of God in light of supposed tensions between Christian belief and evolutionary science Those who pit faith in an almighty and unchanging God over against a world in which chance is operative have it wrong on several accounts they insist Creator God Evolving World clarifies a number of confused assumptions in an effort to redeem chance as an intelligible force interacting with stable patterns in nature A proper conception of probabilities and regularities in the world s unfolding reveals neither random chaos nor a predetermined blueprint but a view of the universe as the fruit of both chance and necessity By clarifying terms often used imprecisely in both scientific and theological discourse the authors make the case that the role of chance in evolution neither mitigates God s radical otherness from creation nor challenges the efficacy of God s providence in the world Creationism and the Conflict over Evolution Tatha Wiley,2009-01-01

How do our current notions of the workings of the universe fit with our deepest convictions about its meaning and value From religion we grasp the world as created given gift From science we apprehend it as evolving in process changing How do we bring these apprehensions together Or can we Is our impulse to find the two complementary creation and evolution Or is it to find them contradictory creation or evolution The way in which we answer these questions carries personal and intellectual consequences It will constitute the first piece in a worldview within which we order our religious beliefs and scientific judgments from the Preface **Christianity and Ecological Theology** E. M.

Conradie,2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa **Evolution and Creation** Herbert

Junius Hardwicke,1887 *The Design of Science, Evolution, the Environment, and Redemption* Jim Keck,2022-07-18 Don t send your kids off to college without this book especially if they will be engaged in the sciences or philosophy The Design of Science Evolution the Environment and Redemption will clarify the differences scientific basis and logical foundation for the two most dominating and competing worldviews we have adopted in western society nowadays namely science and religion After reading this book you will be able to better understand articulate and defend what you believe and why As a society in general we need to understand the basis of our morality and culture and how science and religion each have a role to play Just a few of the types of questions answered are Is there really competition and conflict between science and religion What is the technological and philosophical scope of science How does our worldview affect the development of morality and virtue both individually and collectively Do we really need to be concerned about global environmental changes Which type of worldview does the best job of providing answers to the tough questions on origin purpose environmental issues morality government and eternity Is a belief in God and the Bible part of the evolutionary process Written by a mechanical engineer with more than thirty years of design and R D experience The Design of Science Evolution the Environment and Redemption

lays out in a clear concise easy to read and entertaining manner much of the science logic and data used by academia and the media to answer life s toughest questions as compared to the biblical Judeo Christian tradition This book explores how we can measure the truthfulness accuracy and scope of these worldviews and how they can affect us personally spiritually and culturally The answers are logically spiritually and technically robust as well as just plain surprising in many ways
