Rediscovering Palestine Beshara Doumani, 1995-10-12 Drawing on previously unused primary sources this book paints an intimate and vivid portrait of Palestinian society on the eve of modernity Through the voices of merchants peasants and Ottoman officials Beshara Doumani offers a major revision of standard interpretations of Ottoman history by investigating the ways in which urban rural dynamics in a provincial setting appropriated and gave meaning to the larger forces of Ottoman rule and European economic expansion He traces the relationship between culture politics and economic change by looking at how merchant families constructed trade networks and cultivated political power and by showing how peasants defined their identity and formulated their notions of justice and political authority Original and accessible this study challenges nationalist constructions of history and provides a context for understanding the Palestinian Israeli conflict It is also the first comprehensive work on the Nablus region Palestine s trade manufacturing and agricultural heartland and a bastion of local autonomy Doumani rediscovers Palestine by writing the inhabitants of this ancient land into history

ancient land into history **Rediscovering Palestine** Beshara Doumani,1955 *The European Union Decoded* Maria Lorca-Susino,2016-07-07 The European Union EU and the Eurozone became the economic integration example to follow for years However the worldwide economic crisis that unfolded in 2007 put the whole economic integration process in question the European project in jeopardy and the euro under pressure with serious doubts that it can survive its first crisis The core argument of this book is twofold First it seeks to explain the difficult political economic and fiscal idiosyncrasies of all member states in order to put the reasons for the economic crisis into a new and clear perspective Second it argues that the institutional response put forward to explain this tremendous crisis is flawed and dangerous because it does not solve the main underlying problem the deep differences among member states on their understanding of economic and financial behavior This study counters the leading institutional explanation for the economic crisis that has impacted the entire EU It presents a unique and provocative explanation of why the EU and the Eurozone are still immersed in an economic crisis and will be of key interest to students and scholars of European Politics and Economics *The Modern Middle East* Ilan Pappé,2013-09-13 This hugely successful ground breaking book is the first introductory textbook on the Modern Middle East to foreground the urban rural cultural and women s histories of the region over its political and economic history Ilan Papp begins his narrative at the end of the First World War with the Ottoman heritage and concludes at the present day with the political discourse of Islam Providing full geographical coverage of the region The Modern Middle East opens with a carefully argued introduction which outlines the methodology used in the textbook provides a thematic and comparative approach to the region helping students to see the peoples of the Middle East and the developments that affect their lives as part of a larger world includes insights gained from new historiographical trends and a critical approach to conventional state and nation centred historiographies includes case studies debates maps photos an up to date bibliography and a glossarial index This second edition has been brought right up to date with recent events and includes a new chapter on the media revolution and the effect of media globalization on the Middle East and a revised and expanded discussion on modern Iranian history

Understanding and Teaching the Modern Middle East Omnia El Shakry,2020-10-20 Many students learn about the Middle East through a sprinkling of information and generalizations deriving largely from media treatments of current events This scattershot approach can propagate bias and misconceptions that inhibit students abilities to examine this vitally important part of the world Understanding and Teaching the Modern Middle East moves away from the Orientalist frameworks that have dominated the West s understanding of the region offering a range of fresh interpretations and approaches for teachers The volume brings together experts on the rich intellectual cultural social and political history of the Middle East providing necessary historical context to familiarize teachers with the latest scholarship Each chapter includes easy to explore sources to supplement any curriculum focusing on valuable and controversial themes that may prove pedagogically challenging including colonization and decolonization the 1979 Iranian revolution and the US led war on terror

By presenting multiple viewpoints the book will function as a springboard for instructors hoping to encourage students to negotiate the various contradictions in historical study

Society and Politics in an Ottoman Town Hülya Canbakal, 2007 This monograph provides a fresh insight into society urban government and elite power in a little studied region of the Ottoman Empire bridging Anatolia and Syria

Family History in the Middle East Beshara Doumani, 2012-02-01 Despite the constant refrain that family is the most important social institution in Middle Eastern societies only recently has it become the focus for rethinking the modern history of the Middle East This book introduces exciting new findings by historians anthropologists and historical demographers that challenge pervasive assumptions about family made in the past Using specific case studies based on original archival research and fieldwork the contributors focus on the interplay between micro and macro processes of change and bridge the gap between materialist and discursive frameworks of analysis They reveal the flexibility and dynamism of family life and show the complex juxtaposition of different rhythms of time individual time family time historical time These findings interface directly with and demonstrate the need for a critical reassessment of current debates on gender modernity and Islam

Syria and Bilad Al-Sham Under Ottoman Rule Peter Sluglett, Stefan Weber, 2010 This volume brings together some thirty essays in a Festschrift in honour of Abdul Karim Rafeq the leading historian of Ottoman Syria touching on themes in socio economic history which have been Rafeq's principal academic concerns

The Nation and Its New Women Ellen Fleischmann, 2003-04-01 Though they are almost completely absent from the historical record Palestinian women were extensively involved in the unfolding national struggle in their country during the British mandate period Led primarily by urban educated women from the middle and upper classes of Arab society Palestinian women struggled against British colonialism and against Jewish settlement by holding a national congress meeting with government officials smuggling arms demonstrating and participating in regional and international conferences This book is the first comprehensive historical study of the emergence and development of the Palestinian women's movement in this important historical period Drawing from little studied source material including oral histories newspapers memoirs and government documents Ellen Fleischmann not only shows what these women accomplished within the political arena but also explores the social cultural and economic contexts within which they operated Charting the emergence of an indigenous feminism in Palestine this work joins efforts to broaden European and American definitions of feminism by incorporating non Western perspectives
