Reflections On The World Economics Crisis:

Reflections on Progress Kemal Dervis, 2016-08-30 Now more than ever the world needs growth oriented and socially inclusive policymaking Is the world giving up on the promise of ever greater prosperity for all on functioning democratic institutions and on long term peace Is the special set of circumstances that led to the recent rapid growth in emerging markets unlikely to be present in the future Will the second decade of the twenty first century end with secular stagnation Does the rise of authoritarianism populism and fanatic nihilism all experienced over the last few years threaten to unravel what has been built painstakingly since the catastrophe of World War II Kemal Dervis addresses these and similar questions in this thought provoking series of essays written for Project Syndicate from 2011 to 2015 The essays are organized in three sections global economic interdependence inequality and the political economy of reform and the specific challenge of Europe The common theme is the need for growth oriented and socially inclusive policymaking in an interdependent world These kinds of policies offer the potential for another wave of unprecedented human progress aided by breathtaking new technologies However a huge and destabilizing disruption is possible if policymaking is not globally cooperative and is not focused on inclusion and greater equity These essays synthesize the experience and analysis of a scholar and policymaker with national regional and international experience at the highest levels Dervis exhibits a passion for combining strongly held values with political feasibility

Reflections on Europe Hans-Åke Persson, 2007 When Dutch and subsequently French voters rejected the Draft Treaty for a Constitution for Europe in Spring 2005 many voices called for a pause for reflection This book is in part a result of that moment of reflection We wanted to contribute to the debate about Europe but crucially we sought to do so by taking a step back from the problem formation and agenda setting of Brussels For the authors of this volume one key to establishing critical distance has been the reappraisal of the historical perspective Another has been the problematisation of Europe as a space as opposed to looking for a definition of borders The authors also seek critical distance through a focus on the tension between Europe as a culture as a polity and as an economy These tensions have often been neglected or even ignored and the relationships have been seen as more or less synonymous and harmonious The aim of this volume then is two fold It wants developing a critical distance to the present Europe to contribute to the vivid academic research and debate on Europe which too often either develops distance without commenting on the present state of affairs or comments on the present without critical distance

The Changing Landscape of Global Financial Governance and the Role of Soft Law Friedl Weiss, Armin Kammel, 2015-05-26 The Changing Landscape of Global Financial Governance and the Role of Soft Law provides interdisciplinary perspectives on the changing landscape of global financial governance by exploring the impact and role of soft law directly or as a precursor of hard law pertaining to financial governance Since the shaping of financial governance impacts national regional and global levels of regulation different views and arguments contribute to the ongoing discussions about financial regulation Against this background this book brings together perspectives of economists and lawyers who have not rallied to one or the other popular call for more regulation as a panacea for the prevention of future global financial crises calls which have all but drowned out more nuanced scientific debates Instead their analysis of aspects of remedial regulatory policy prescriptions already made or proposed demonstrates that carefully designed soft law can be deployed as a valuable method or tool of mediation between the unrestrained autonomy of dysfunctional markets and overzealously crafted hard law
