Reflections On Counselling:

Personal Reflections on Counseling Gerald Corey, 2020-02-26 Gerald Corey's *Reflections* is an absolute delight. Each chapter is packed with nuggets of wisdom he has gained over the decades. What makes the book particularly engaging is that it invites us into Corey's inner world and we feel as though we are reading a series of letters from a friend. This book could serve as an excellent supplemental reading in an introductory course or as a useful resource for advanced students as they navigate the complexities of graduate school and look ahead to their careers. Barbara Herlihy PhD, University of Texas at San Antonio. In this inspirational book, Gerald Corey shares his most heartfelt personal reflections and lessons learned as he describes his journey over a 60-year counseling career. He is honest, self-disclosing, humble, and insightful in this compendium that encourages readers to embrace their vision and entertain their dreams. This is a must-read gem that provides an opportunity for counseling students and young professionals to learn from the master. Robert Haynes PhD, Psychologist and author, *Borderline Productions*. In an easy-to-read question and answer format, Dr. Corey provides sage insight on a broad range of topics concerning professional issues, career development, the counseling process, and work-life balance. Responding to an array of questions often asked by students over the years, he uses candid personal examples to highlight key lessons and engage readers in an active process of personal and professional self-reflection on their own journeys. Topical question themes include creating your professional path, mentoring and being a mentee, surviving graduate school, benefiting from personal therapy, focusing on self-care and wellness, becoming an ethical counselor, managing value conflicts in counseling, using self-disclosure therapeutically, dealing with difficult clients, getting the most out of supervision, and becoming a writer. In each chapter, reflection questions encourage readers to consider their own views and experiences related to the questions raised, and recommended readings provide suggestions for further information. Drawn from his wealth of experience as a counsellor and trainer, this book comprises thirty brief reflections in which Windy Dryden addresses some of the most important aspects of the counselling process. The book opens with five pieces that consider the author's major personal counselling interests and other general issues. The following section examines the influence of Arnold Lazarus on his thinking about counselling. Dryden then discusses his interests in the use of language in counselling and also deals with ethical issues. In the fifth section, the author relates three memorable encounters with clients, and in the sixth section, he outlines a number of issues relating to counsellor education and training. The final section draws together five pieces describing some of Dryden's important personal experiences. The book will be of interest to anyone in the field but is particularly well suited for use on training courses where each piece may serve as a stimulus for discussion. **Practical**
