Reflections on Gender and Science Evelyn Fox Keller, 1995-01-01 **Reflections on Gender and Science** Evelyn Fox Keller, 1985 *Reflections on Gender and Science* Evelyn Fox Keller, 1985 *Gender, Science and Mathematics* L. H. Parker, L. Rennie, B. Fraser, 2012-12-06 Throughout the Western world the relationship between gender science and mathematics has emerged as critical in a variety of contexts In tertiary institutions the study of gender issues frequently with reference to science and mathematics is of central significance to many disciplines Gender studies are being offered as separate courses or parts of existing courses in preservice and postgraduate teacher education women's studies technology studies and policy studies In addition in the broader context of education at all levels from primary elementary through to higher concerned policy makers and practitioners frequently focus on the interaction of gender science and mathematics in their attempts to reform and improve education for all students In all of these contexts there is an urgent need for suitable texts both to provide resources for teachers and students and to inform policy makers and practitioners This book has been developed specifically to meet this need It is designed to be used throughout the world in a variety of tertiary courses and by policy makers concerned with activities which interface with the gender science mathematics relationship It provides examples which illustrate vividly the rich field from which practitioners and policy makers in this area now can draw Its particular appeal will stem from its practical approach and creative future perspective the international renown of the authors and the generalisability of the recent research and thinking presented in each of the chapters **The Gender and Science Reader** Muriel Lederman, Ingrid Bartsch, 2001 The Gender and Science Reader brings together key articles in a comprehensive investigations of the nature and practice of science **Meta-Philosophical Reflection on Feminist Philosophies of Science** Maria Cristina Amoretti, Nicla Vassallo, 2015-12-21 This volume offers a meta philosophical reflection on feminist philosophies of science It emphasizes and discusses both the connections and differences between traditional philosophies of science and feminist philosophies of science The collection systematically analyses feminist contributions to the various philosophies of specific sciences Each chapter is devoted to a specific area of philosophy of science general philosophy of science philosophy of biology philosophy of climate sciences philosophy of cognitive sciences and neurosciences philosophy of economics philosophy of history and archaeology philosophy of logic and mathematics philosophy of medicine philosophy of psychology philosophy of physics and philosophy of social sciences Since some of these areas have so far rarely been addressed by feminist philosophers this new collection provides new angles and stimulates the debate on pivotal issues that are part and parcel of both traditional philosophies of science and feminist philosophies of science Using a range of different methodologies and styles the essays all show great clarity in both arguments and contents *Feminism and Geography* Gillian Rose, 2013-11-18 Geography is a subject which throughout its history has been dominated by men men have undertaken the heroic explorations which form the mythology of its foundation men have

written most of its texts and as many feminist geographers have remarked men's interests have structured what counts as legitimate geographical knowledge This book offers a sustained examination of the masculinism of contemporary geographical discourses Drawing on the work of feminist theories about the intersection of power knowledge and subjectivity different aspects of the discipline's masculinism are discussed in a series of essays which bring influential approaches in recent geography together with feminist accounts of the space of the everyday the notion of a sense of place and views of landscape In the final chapter the spatial imagery of a variety of feminists is examined in order to argue that the geographical imagination implicit in feminist discussions of the politics of location is one example of a geography which does not deny difference in the name of a universal masculinity *Critical Communication Theory* Sue Curry Jansen, 2002-11-19

Critical theorist feminist and censorship expert Sue Curry Jansen brings a fresh perspective to contemporary communication inquiry Jansen engages two key questions at the heart of a critical politics of communication What do we know And how do we know it The questions are not unique to our era she notes but our responses to them are our own Looking at issues of globalization science politics gender social inequality and other social formations that shape our world this insightful book advocates a new agenda not only for communication research but also for the writing_and language_that comes out of it

Beyond Epistemology Sharyn Clough, 2003 Feminist thinkers have been critically examining science for over a century but who critiques the criticism **Science on the Home Front** Jordynn Jack, 2009 A critical essay of the rhetorical and cultural obstacles faced by women scientists
