Reflective Teaching Professional Artistry Through Inquiry:

Reflective Teaching James George Henderson, 2001 This successful book introduces current and future teachers to the concept of professional inquiry integrating five forms of it into their work to facilitate reflective democratic living that is rooted in the practice of a generative and generous intellect. It makes complex material understandable and inspires teachers to become forerunners in the movement that supports socially responsible professional inquiry. The five forms of professional study are public moral inquiry, multi-perspective inquiry, deliberative inquiry, autobiographical inquiry, and critical inquiry. An accompanying effective inquiry model for each form encourages the emulation of professional development success. Vignettes and teacher stories help demonstrate how theory looks in practice. For professionals in the field of education, especially at the K-12 grade level. *Becoming a Reflective Librarian and Teacher* Michelle Reale, 2016-12-16 Too much of the time our attempts at achieving a work-life balance instead amount to a rigid compartmentalization of the different parts of our lives. But the very qualities that make us human, including our thoughts, feelings, and experiences, are the keys to making us better librarians and teachers. The path forward is through reflection, which can help us gain insights that are applicable both personally and professionally. In this book, Reale employs a conversational tone to lead readers through the steps of reflective practice, offering a concise framework for reflective practice from laying the groundwork and getting started through creating and sustaining a reflexive loop, guidance on how to use journaling as a tool for expressing experiences, creating a dialogue with oneself, listmaking, and other constructive reflection tips for becoming a reflective practitioner both inside and outside of the classroom, a plan for using reflective practice with colleagues through conversation and collaboration, and strategies at the end of each chapter for putting ideas into practice. This thoughtful book illuminates reflective practice as a pedagogical tool that holds benefits both for ourselves as professionals and for our students. 18th European Conference on Management, Leadership and Governance Martin Rich, 2023-11-23 These proceedings represent the work of contributors to the 19th European Conference on Management Leadership and Governance (ECMLG 2023) hosted by ACI and Bayes Business School, City University of London, UK, on 23-24 November 2023.
