Reform And Regulation In Long Term Care:

Reform and Regulation in Long-term Care Valerie LaPorte, Jeffrey Rubin, 1979 **Long-Term Care Reforms in OECD Countries** Cristiano Gori, Jose-Luis Fernandez, Raphael Wittenberg, 2016-06-01 Since the early 1990s long term care policies have undergone significant transformations across OECD countries In some countries these changes have responded to the introduction of major policy reforms while in others significant transformations have come about through the accumulation of incremental policy changes The book brings together evidence from over 15 years of care reform to examine changes in long term care systems occurring in OECD countries It discusses and compares key changes in national policies and examines the main successes and failures of recent reforms Finally it suggests possible policy strategies for the future in the sector With contributions from a wide range of experts across OECD countries this book is essential reading for academics researchers and policy makers in the field of long term care policy *Reforms in Long-Term Care Policies in Europe* Costanzo Ranci, Emmanuele Pavolini, 2012-11-08 Over the last two decades many changes have happened to the social welfare policies of various industrial countries Citizens have seen their pensions unemployment benefits and general healthcare policies shrink as belt tightening measures are enforced But in contrast long term care has seen a general growth in public financing an expansion of beneficiaries and more generally an attempt to define larger social responsibilities and related social rights The aim of this book is to describe and interpret the changes introduced in long term care policies in Western Europe The volume argues that recent reforms have brought about an increasing convergence in LTC policies Most of the new programs have developed a new general approach to long term care based on a better integration of social care and health care The book explores increasing public support given to family care work in the past the family would take care of the elderly or infirm and increasing growth and recognition of an extended social care market by which care has shifted from a moral obligation based on family reciprocity to a paid professional activity A new social care arrangement has therefore been developing in Western countries based on a new mix of family obligations market provision and public support In order to understand such changes this analysis will take into account the social and economical impact of these reforms
