**The Novel Stage** Marcie Frank, 2020-02-14 The Novel Stage Narrative Form from the Restoration to Jane Austen traces the novel's relation to the theater over the course of the long eighteenth century arguing that the familiar account of the novel as new and distinct from other literary genres risks distorting a true reckoning of the form by failing to engage with the borrowings and departures from other more familiar genres particularly drama The Novel Stage traces the migration of tragicomedy the comedy of manners and melodrama from the stage to the novel These genres were shared across print and performance media that were not construed as opposites in a world in which individual silent reading took place beside playgoing play reading amateur theatricals and sociable reading aloud The book thus expands an overly narrow conception of the novel as the genre of realism or domesticity whose highest achievement is its representation of characters' mental lives by describing the influence of the stage and its genres Beginning in the later 1600s with Aphra Behn The Novel Stage concludes with a chapter on some novelists of the Romantic period and a coda about Victorian novels The Novel Stage's account of the novel provides an enriched because more specific sense of its formal accomplishments that drew on this ensemble of cultural forms and turns that lens back onto drama Provided by publisher

Bevis, 2014-06-06 What were the causes of Restoration drama s licentiousness How did the elegantly turned comedy of Congreve become the pointed satire of Fielding And how did Sheridan and Goldsmith reshape the materials they inherited In the first account of the entire period for more than a decade Richard Bevis argues that none of these questions can be answered without an understanding of Augustan and Georgian history The years between 1660 and 1789 saw considerable political and social upheaval which is reflected in the eclectic array of dramatic forms that is Georgian theatre s essential characteristic      *Studies in Restoration and Eighteenth-century Drama* Carl R.
