The Key Issues Concerning Contemporary Art Gary Willis, 2010 This thesis argues that the contemporary artist's objective is the production of new social space and the institution of new cultural knowledge It does this by drawing an unexpected parallel between the social and political expectations facing the contemporary artist and the deepest philosophic conception of the artist's function It traces art's historical trajectory from 20th century modernism post modernism to post colonialism from a broad range of critical theoretical and curatorial perspectives
